## Guidance for Data Users Main

### Three tips for using American Community Survey data

1. **The 2010 Census shows the *number* of people who live in the U.S. and the American Community Survey shows *how* people live.**

Use data from the American Community Survey to obtain demographic, social, economic, and housing characteristics.

Use numbers from the 2010 Census to obtain counts of the population and their basic characteristics (sex, age, race, Hispanic origin, and homeowner status).

Use data from the Census Bureau's Population Estimates Program in the years between censuses. The Census Bureau's Population Estimates Program produces [official population estimates for the nation, states, counties, cities and towns, plus housing unit estimates for states and counties](#).

2. **All American Community Survey (ACS) data are estimates.**

The Census Bureau collects American Community Survey data from a sample of the population in the United States and Puerto Rico--rather than from the whole population **All ACS data are survey estimates**. To help you interpret the reliability of the estimate, the Census Bureau publishes a margin of error (MOE) for every ACS estimate.

3. **American Community Survey collects and releases data by the calendar year for geographic areas that meet specific population thresholds.**

# Accessing the Data

The screenshot shows the U.S. Census Bureau website. At the top, the logo "U.S. Census Bureau" is on the left, and navigation links "FAQs | Subjects A to Z | Help" and a search bar "SEARCH: [input] GO" are on the right. A large banner in the center features a map of the United States and the text "2010 RESIDENT POPULATION 308,745,538". Below this banner is a blue bar with the text "Learn more about apportionment" and several links: "Data Map", "News", "Animation", "Director's Blog", and "Census in Schools". A yellow arrow points to the "Learn more about apportionment" text.

The screenshot shows the American FactFinder website interface. At the top, it says "U.S. Census Bureau" and "AMERICAN FactFinder". Below that is a navigation bar with "MAIN", "SEARCH", "WHAT WE PROVIDE", and "USING FACTFINDER". There are also links for "Feedback", "FAQs", "Glossary", and "Help". The main content area is partially obscured by a large red overlay with the text "American FactFinder Quick Start Tutorial". On the right side of the overlay, there is a "2010" and a large "3" indicating the number of results. Below the overlay, there is a "Load Query" section with a "LOAD QUERY" button. There is also a "News and Notes" section with a date of "Feb 08, 2010" and a "Did you know?" section.

### News and Notes

#### Feb 04, 2011

2010 Census Redistricting Data is now available! According to Public Law (P.L.) 94-171, we must provide redistricting data to the 50 states no later than April 1st of the year following the census. As a result, we are delivering the data state-by-state on a flow basis in February and March. Each table will provide summaries of population totals, as well as data on race, Hispanic origin and voting age for multiple geographies within the state, such as census blocks, tracts, voting districts, cities, counties and school districts. Click the more link to view a full list of the files. These files default to states that have already been released. [more »](#)
