

October 25, 2010

TO: MAG Public Works Directors

CC: Specifications and Details Committee

FROM: Gordon Tyus, MAG Specs and Details Staff Support

SUBJECT: TRANSMITTAL OF RECOMMENDED 2011 UPDATE PACKAGE OF REVISIONS TO MAG SPECIFICATIONS AND DETAILS FOR PUBLIC WORKS CONSTRUCTION

Attached is the summary package of the 2011 revisions to the MAG Specifications and Details for Public Works Construction, 1998 Edition. This packet is the culmination of a year's work by the MAG Specifications and Details Committee and was recommended for review by all MAG agencies. Member agencies are requested to review this package and forward any comments to me by **November 25, 2010**.

This packet is being provided for review by MAG member agency Public Works Directors for a period of 30 days. Members of the MAG Management Committee and Regional Council will also review the summary information at their November 10 and December 8 meetings, respectively. During this time, if any objections are received following these reviews, each objection will be considered by the Chair of the Specifications and Details Committee as a possible case for consideration during next year's process.

These materials are also available on the MAG Web site at the following link:
<http://www.azmag.gov/Events/Event.asp?CMSID=3570>

Sixteen cases were considered in 2010, including three cases carried over from 2009. Of these, twelve were approved, one withdrawn, and three cases were deferred to continue work in 2011. It is anticipated that the annual update package will be available for purchase in early January, 2011. This packet includes a summary of cases, voting and attendance records, and draft update packets with the revised specifications and details drawings for review.

Please contact me at (602) 254-6300 or by e-mail at gtysus@azmag.gov if you have questions regarding the attached package.
