For those using bicycles, please lock your bicycles in the bike rack in the garage.**

As part of the MAG Transportation Safety Planning Program, a series of activities were launched in November 2001. Your name has been identified through our database either because you were a participant in these activities or because you are a key stakeholder that we would like to attract to this regional effort to improve transportation safety.

If you have not been part of this pioneering effort so far, we would like to invite you and your agency to participate in this effort on planning for safer transportation in our region. If you were a participant in any one of the three working groups, we would like to thank you for your contributions and invite you back to the Stakeholders Group when we reconvene at 10:00 a.m. on October 10th.

We are happy to inform you that our efforts have already been recognized nationally with the recent identification of our region as a pilot location for developing national guidelines on incorporating safety in transportation plans. With your participation, we hope to continue this program of activities and follow-up on the goals and strategies that have been identified so far.

An agenda for the upcoming meeting at 10:00 a.m. on October 10<sup>th</sup> is enclosed. Please join us as we continue on our journey to advance safe mobility in our region. If you have any questions please feel free to contact me via phone: (602) 254-6300 or email: [sjoshua@mag.maricopa.gov](mailto:sjoshua@mag.maricopa.gov)
