INTRODUCTION TO THE LUCA PROGRAM

What is LUCA?

- 2010 Decennial Census Program
- Allows tribal, state, and local governments to help update the Census Bureau's Address List
- Authorized by the Census Address List Improvement Act of 1994

LUCA and the 2010 Census

- Important to the success of the 2010 Census
- Verified during Address Canvassing Operation
- Results are the basis of the Address List used to deliver the 2010 Census questionnaires

How Census Data is Used

- Apportionment of Congressional seats
- Appropriation of Federal funds to state, tribal, and local governments
- State funds distribution
- Accurate local statistical data
- Data for community

Local Uses

- Determining areas of low/moderate income for housing and infrastructure projects
- Identifying high concentrations of elderly populations to provide facilities and services
- Identifying demographic characteristics for the location of businesses and public facilities and services
- Comparing population trends to plan for future community needs and grant and loan applications
- Determining the need for new schools
- Identifying demographic characteristics to provide emergency services and disaster relief

Census Bureau's MAF/TIGER Partnership Software (MTPS) Map

Census Bureau's MAF/TIGER Partnership Software (MTPS)

The screenshot displays the MAF/TIGER Partnership Software (MTPS) interface. It features a central map window showing a street grid with a red dashed line highlighting a specific block. To the right is a 'LUCA 88008' window displaying an 'Address Count List' table. At the bottom is a 'LUCA_AddressList.dvw' window displaying an 'Address List' table. A toolbar at the top provides navigation and search options.

LUCA REVIEW STRATEGIES

Developing A Plan

- Consider available time, information readily available, and staff and computer resources
- You may designate another level of government or an agency (county planning department, regional planning agency, etc.) that is willing to assist you
- When resources are limited, the Census Bureau recommends focusing on areas where addresses are more likely to be missed or incorrect

Priority Areas

- New construction
- E-911 address conversion
- Single-family/multi-family home conversions
- Warehouses converted to residential lofts
- New mobile home parks or scattered mobile homes
- Apartment buildings with irregular or missing numbering schemes for the individual units
- Recently added territory
- Addresses near jurisdictional boundaries
- Areas where Census Bureau maps don't match yours

Suggested Local Address Sources

- New construction and occupancy permits
- E-911 address files
- Planning and zoning records
- Local utility records
- Drivers' license files
