

In 2040, how many hours of congestion can we expect if we do nothing?

One of the challenges for the future will be finding the best time of day to avoid congestion. Today, roadways are congested during the morning and evening rush hours, but in the future it is predicted that similar conditions will occur for much longer periods throughout the day. The map below provides an estimate of the amount of time congestion is expected to last in the future.

CONGESTION WILL LAST:

12+ HOURS EACH DAY
NORTHBOUND AND SOUTHBOUND

9.5 HOURS EACH DAY NORTHBOUND
7.5 HOURS EACH DAY SOUTHBOUND

12+ HOURS EACH DAY WESTBOUND
5.5 HOURS EACH DAY EASTBOUND

12+ HOURS EACH DAY WESTBOUND
11 HOURS EACH DAY EASTBOUND

7 HOURS EACH DAY
NORTHBOUND AND SOUTHBOUND

24
Number of travel lanes required to meet future traffic demand without congestion.

Approximately
280k
vehicles pass through the Broadway Curve each day.

Did You Know? 
On average, congestion costs commuters **\$16 per hour** and businesses **\$86 per hour**.
