

**Report to MAG Technical Committee
Meeting August 27, 2015
Asphalt and Materials Working Group meetings
By Chairmen, Jeff Benedict, Brian Galimore**

The meeting was held on noon on August 27, 2015 at the ARPA offices.

Present at the meeting: Robert Herz (MCDOT), Scott Thompson, Gordon Tyus (MAG), Rob Duval (Phoenix) Scott Thompson (AMEC Foster Wheeler), Robert Kostelny (AMEC Foster Wheeler), Brian Gallimore (WSP), Don Cornelison (Speedie), Jeff Hearne (SRMG)

Cases Reviewed and discussed:

Case 14-06 revision to section 718 The case was reviewed and some minor changes were recommended for clarification. Nothing was removed from the section. The case is felt to be in its final form. It will be voted on in September.

Case 14-17 Stamped (decorative) asphalt the new section was reviewed. No changes were recommended. It will be voted on by MAG in September.

Case 15-09 Section 321 temperature requirements for placement. MCDOT recommended a minor change in languages used in three locations for authorization for cores by the engineer. It was discussed and agreed to add this into the case.

Case 15-10 Section 321 Compaction over poor base (Rehabilitate work). Continued discussion was had over the case. There was some suggested wording proposed. This was discussed. No agreement from agency attendees was reached. This case will be carried over to next year.

Case 15-11 Section 717 (asphalt Rubber) accounting for "add-mixture" material in the mix design. The case was discussed and an ASTM test was updated. It will be voted on by MAG in September.

The meeting was adjourned at 1:05PM

Next meeting is to be determined by the MAG technical committee.
