

MAG/Continuum of Care Survey Results

May 20, 2013

Survey Methodology

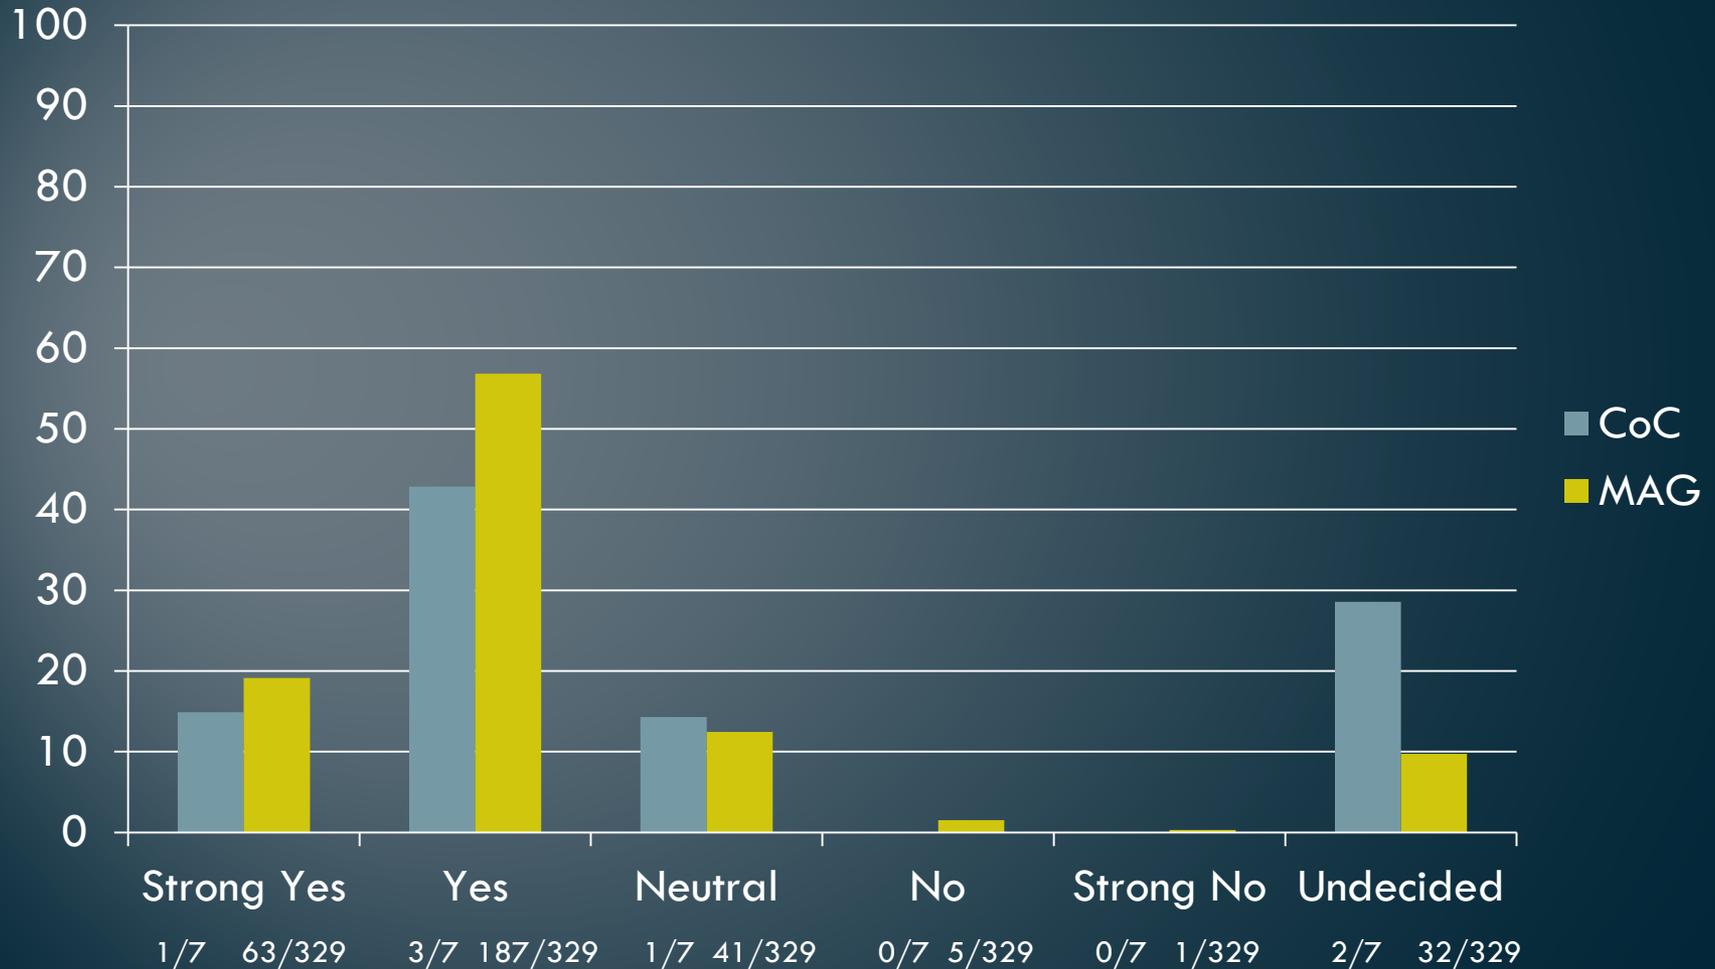

- Distributed via Survey Monkey to 829 committee members and stakeholders of MAG
- 370 total responses, seven from CoC members
- Total response rate: 45%
- CoC response rate: 23%

Purpose of Presentation

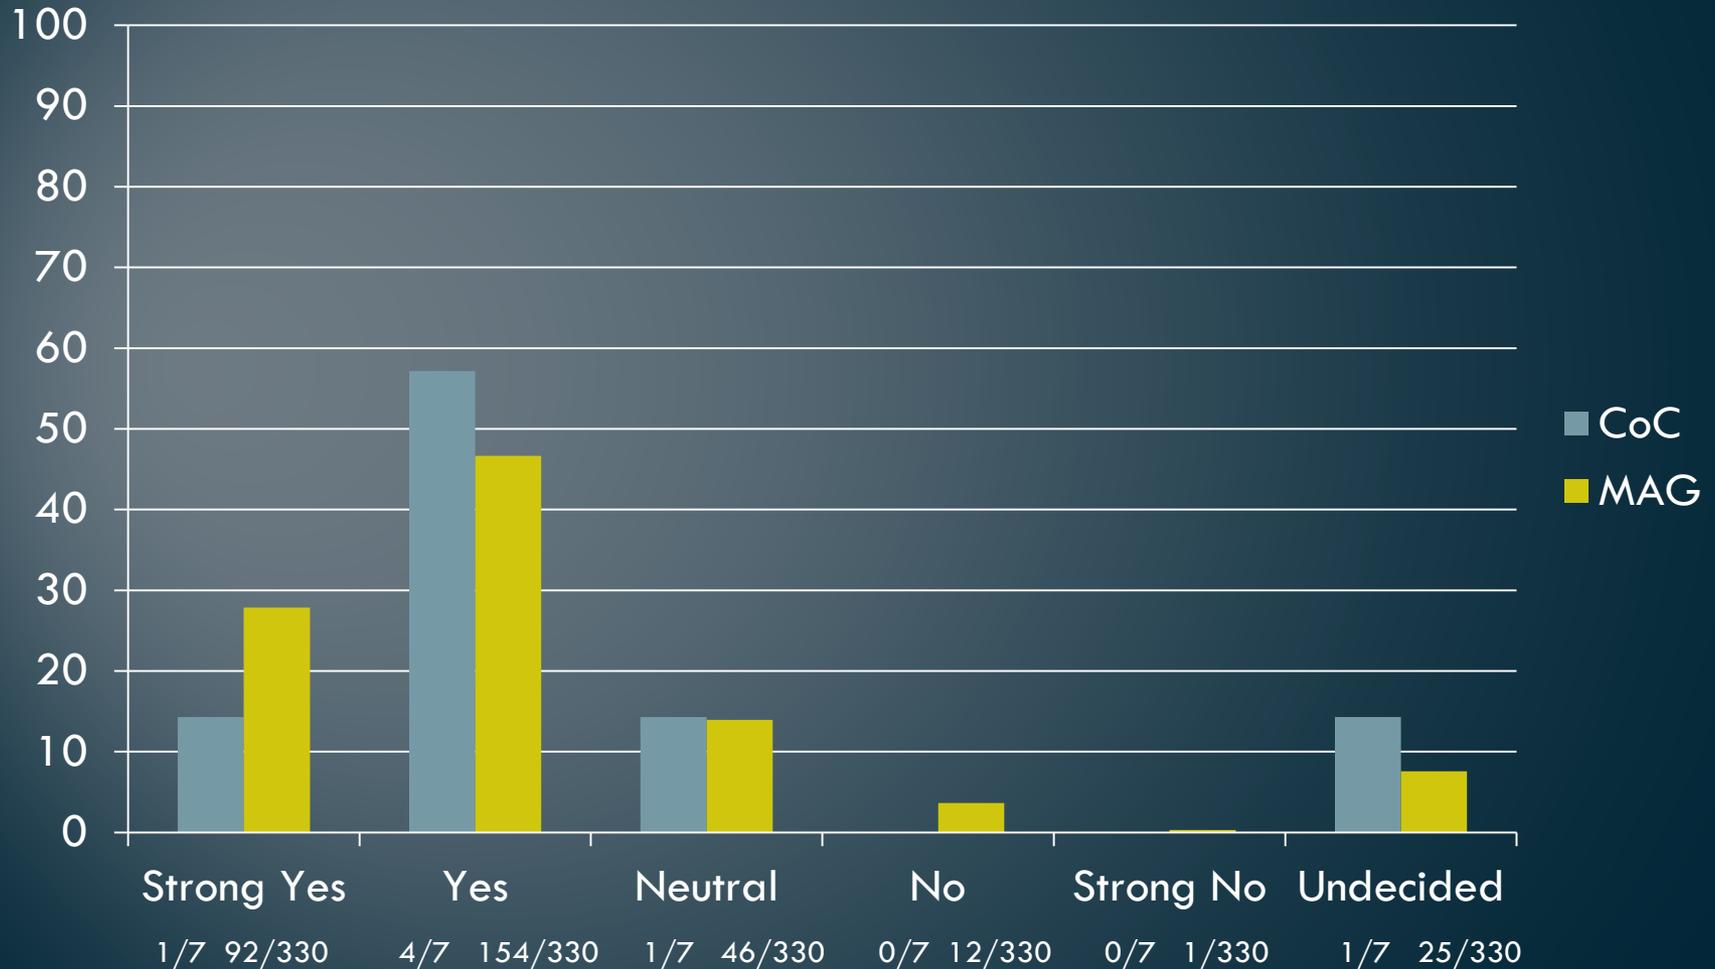

- Test results with full Committee
- Identify areas for further exploration
- Encourage open communication

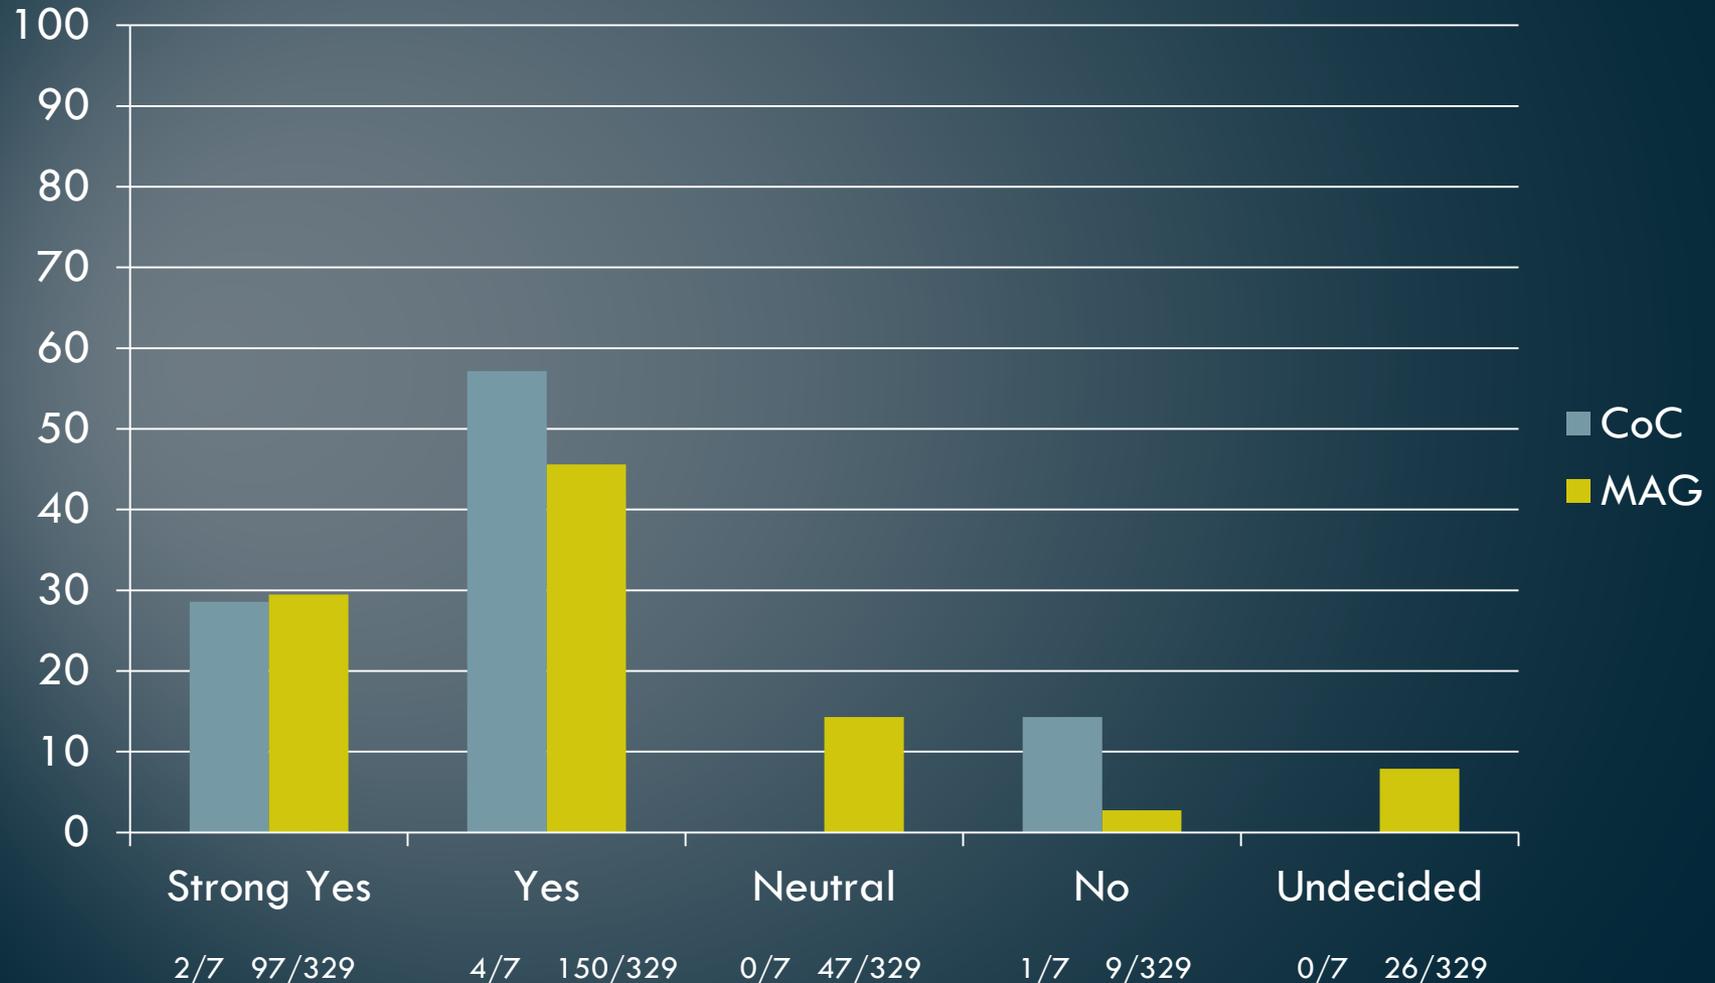

Has MAG been effective in evolving its programs to meet the region's changing needs and opportunities?

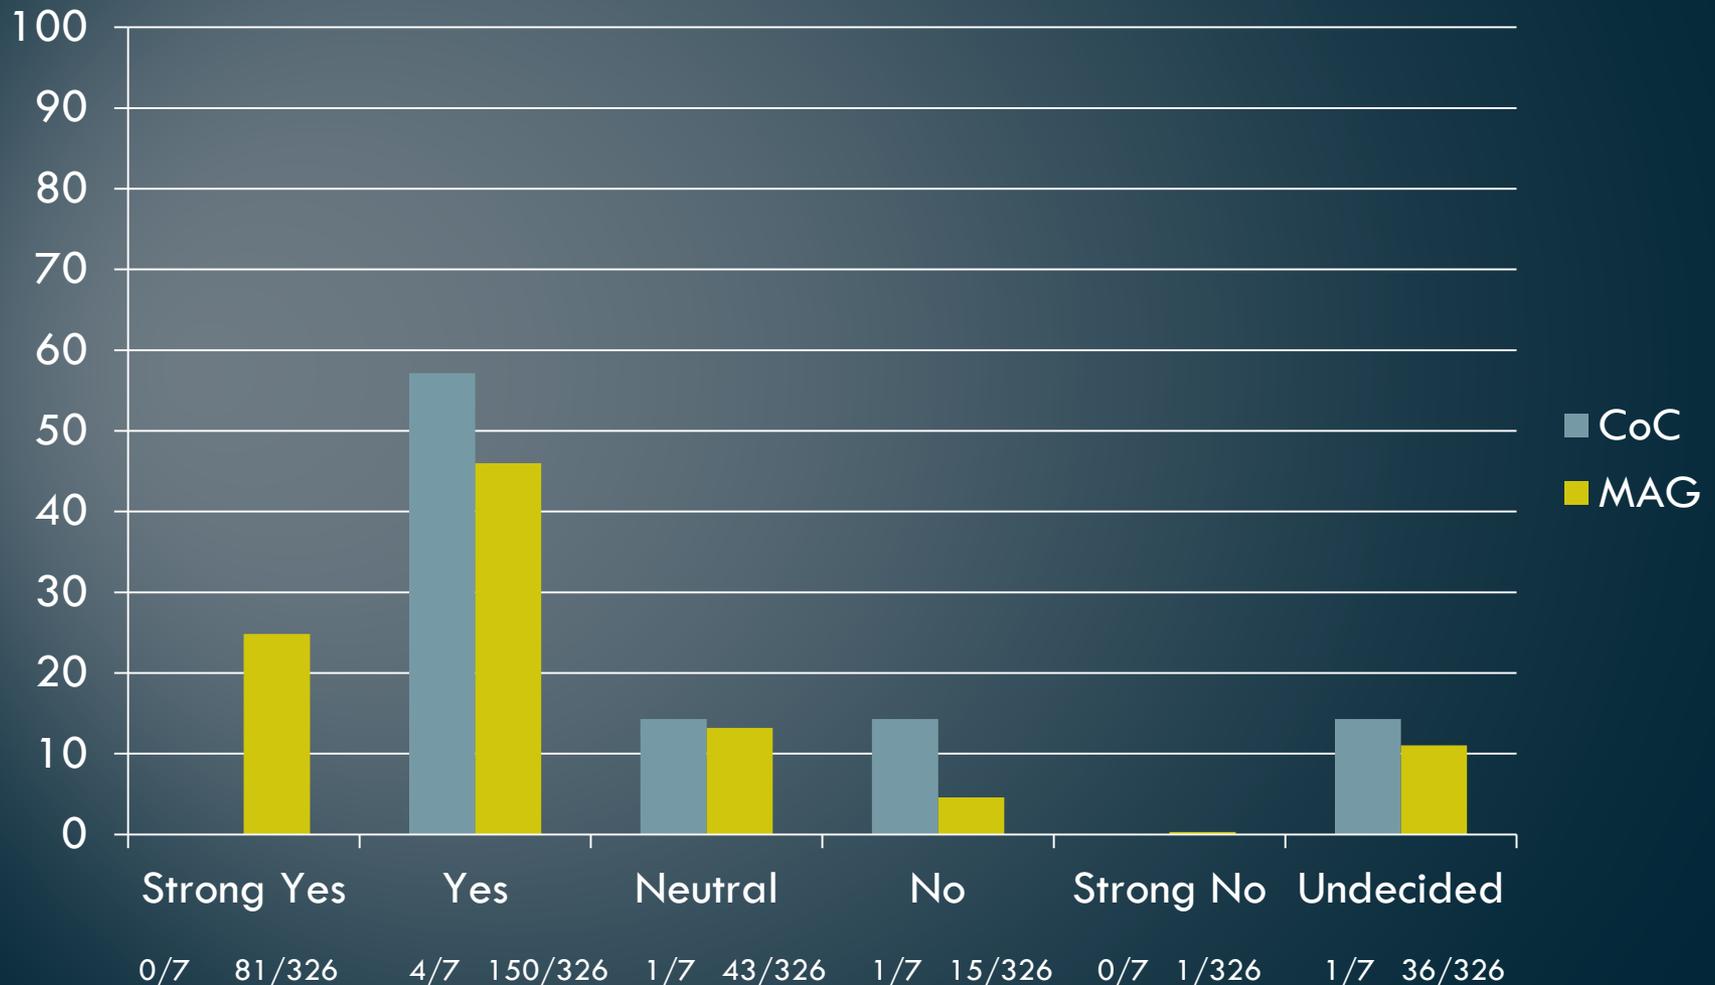

Is MAG effective in its collaboration with other statewide, regional, and local entities and leaders?

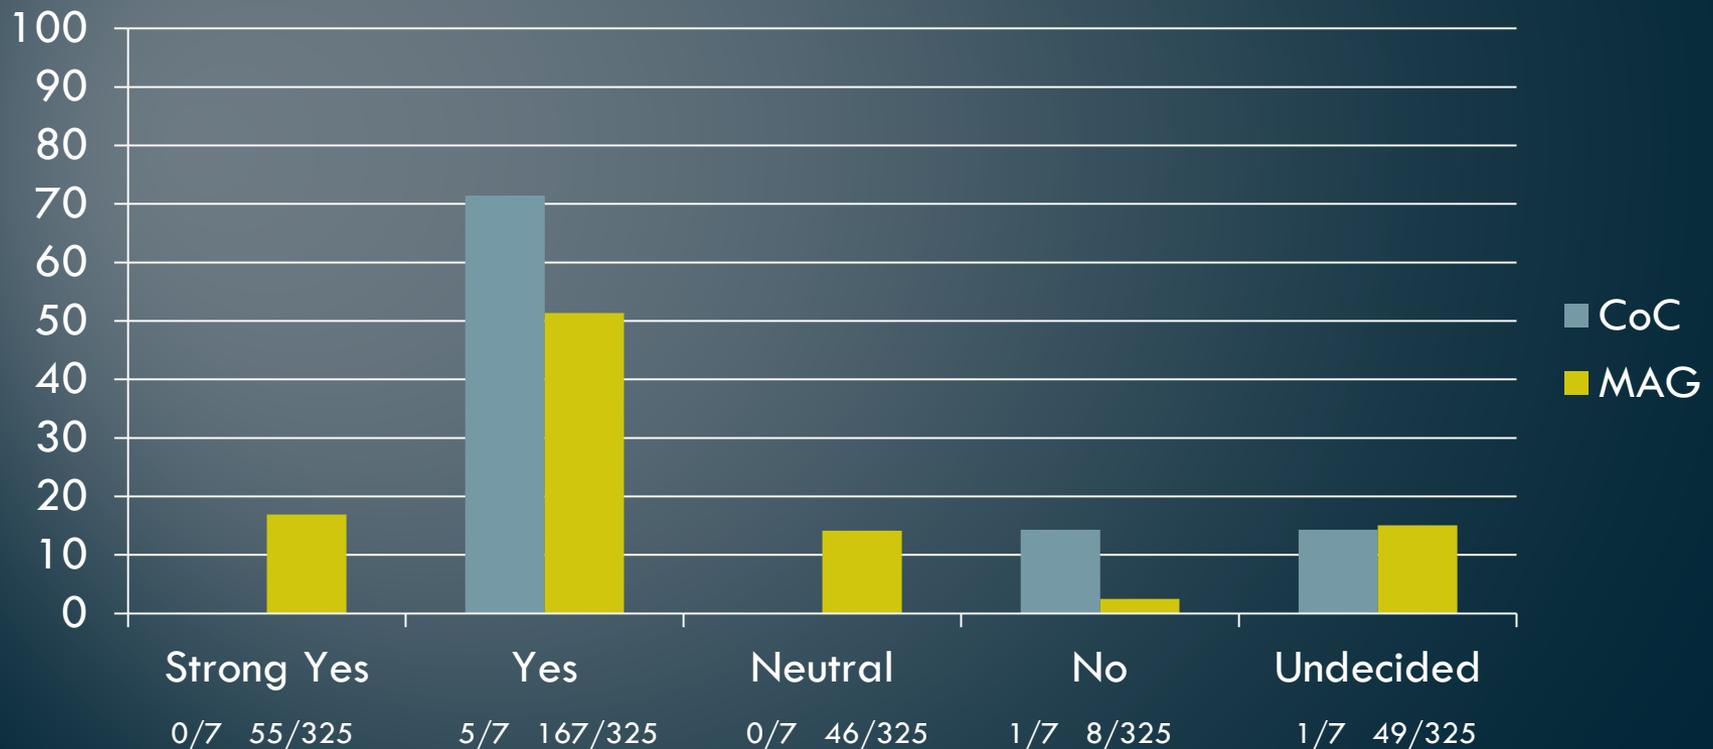

Is MAG an effective primary convener and forum for public officials and other stakeholders to work on regional issues?

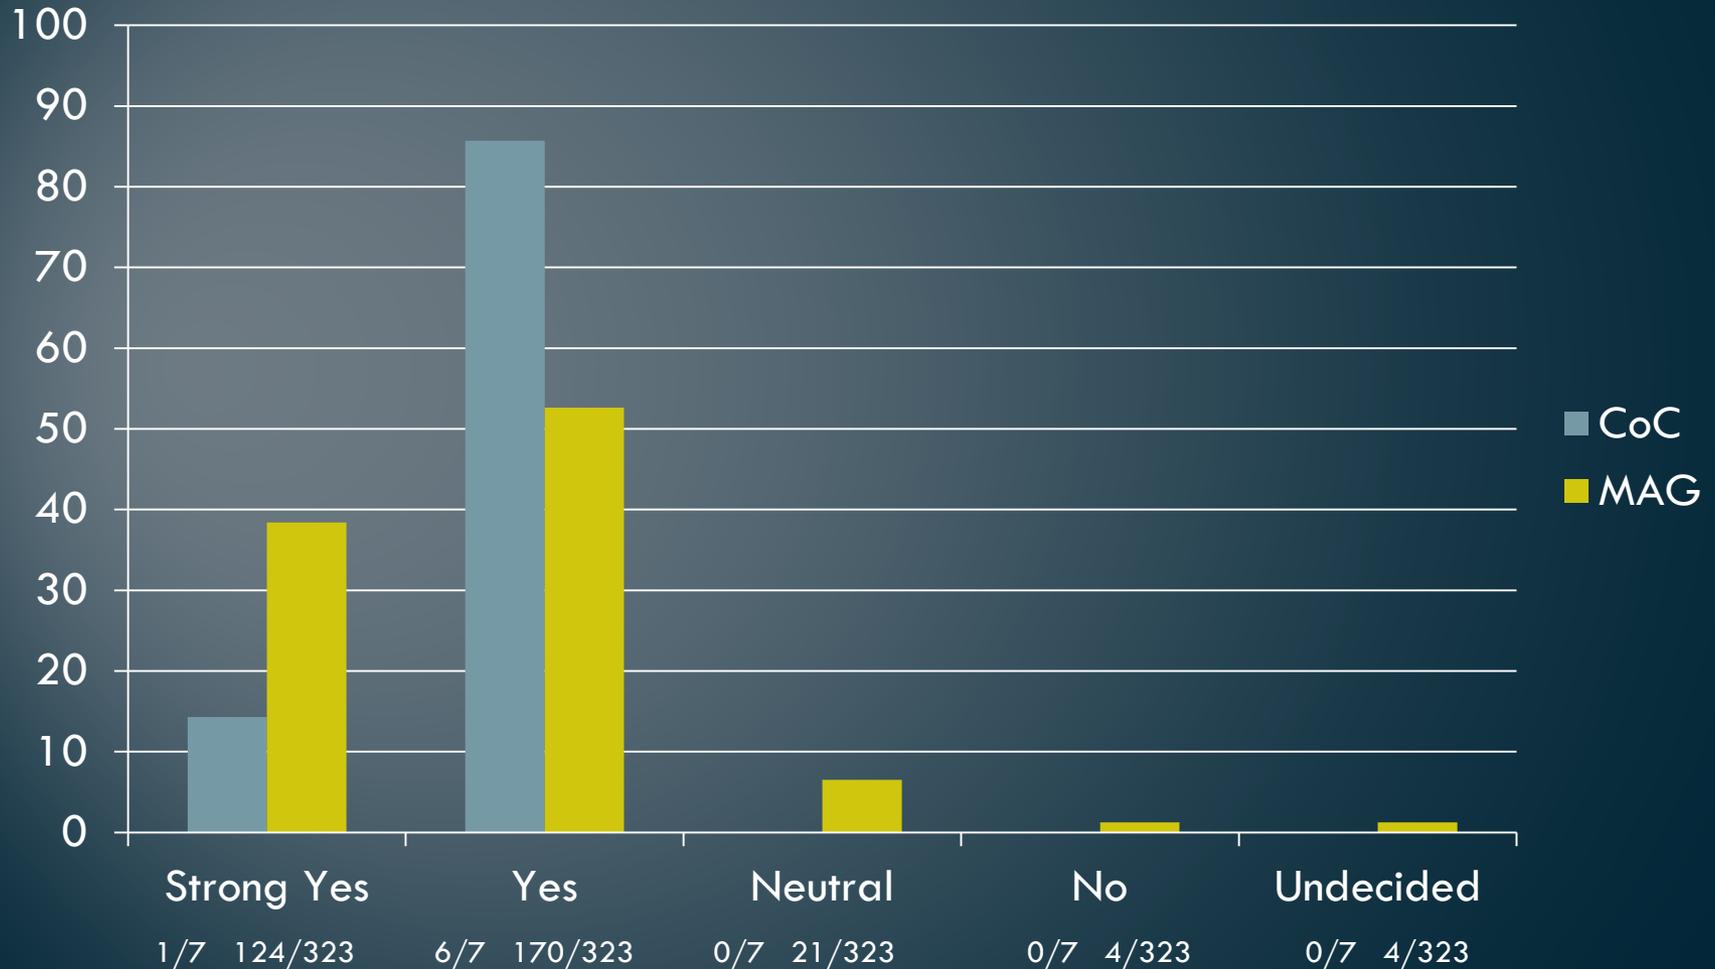

Does MAG appear to take seriously stakeholder perceptions of the organization?

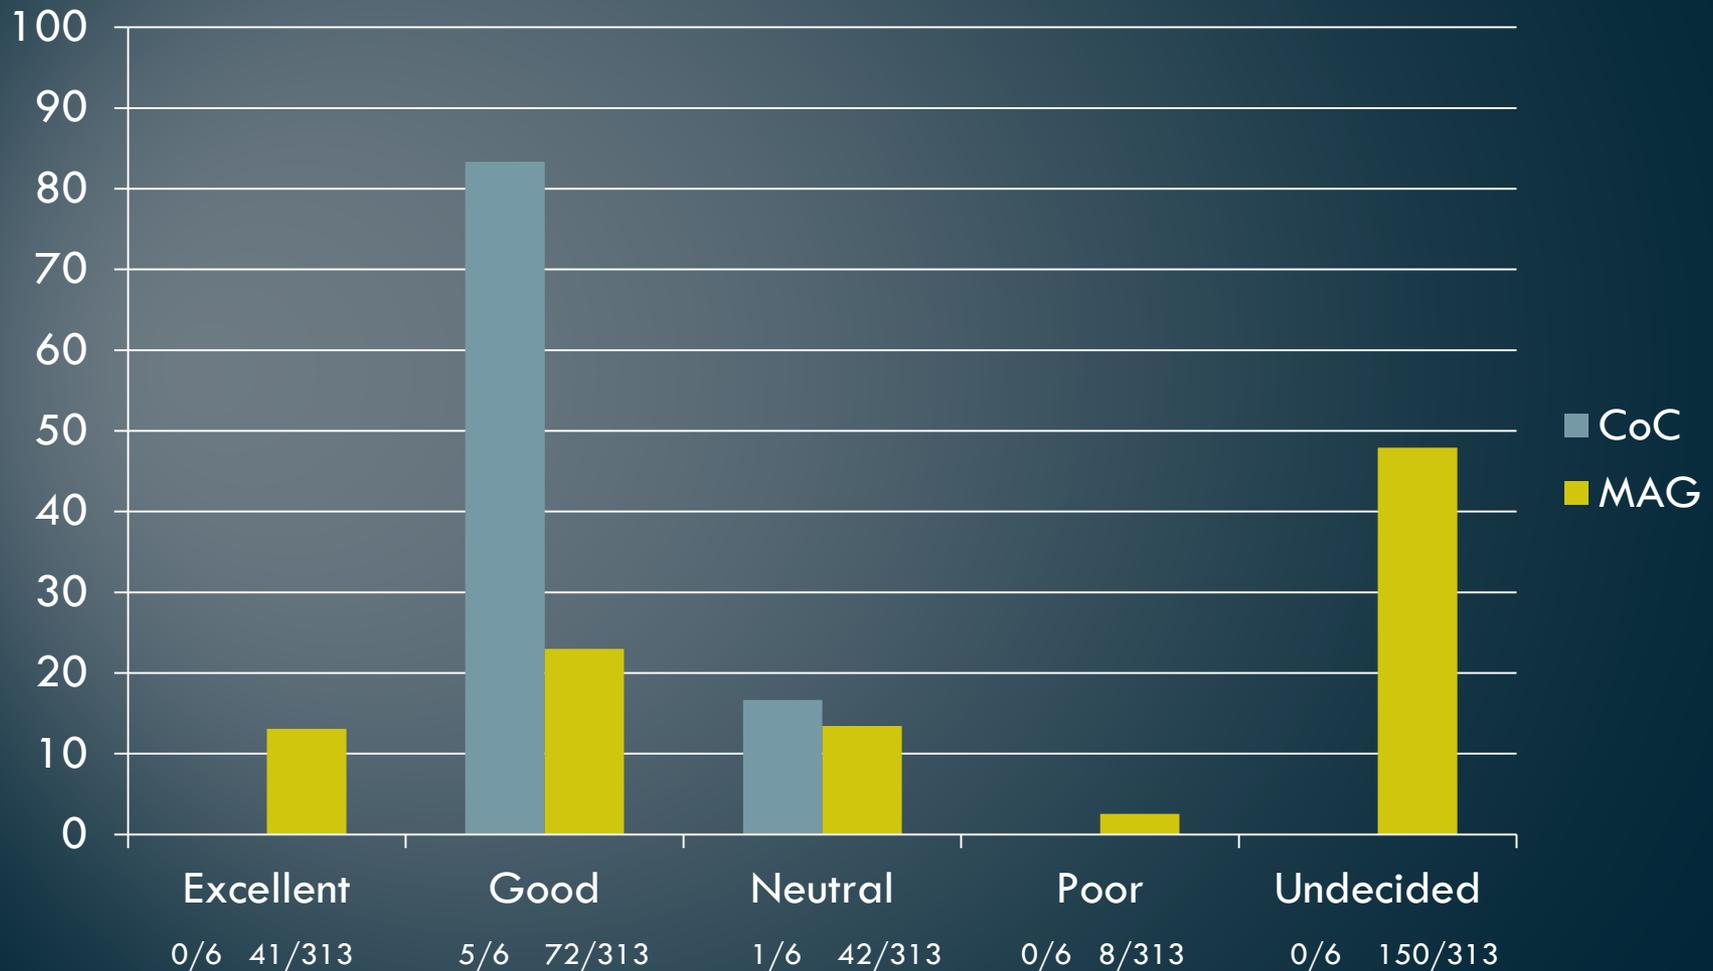

Does MAG amend its processes and procedures over time to adjust to lessons learned, changes in the political environment, and new federal, state, or local requirements?

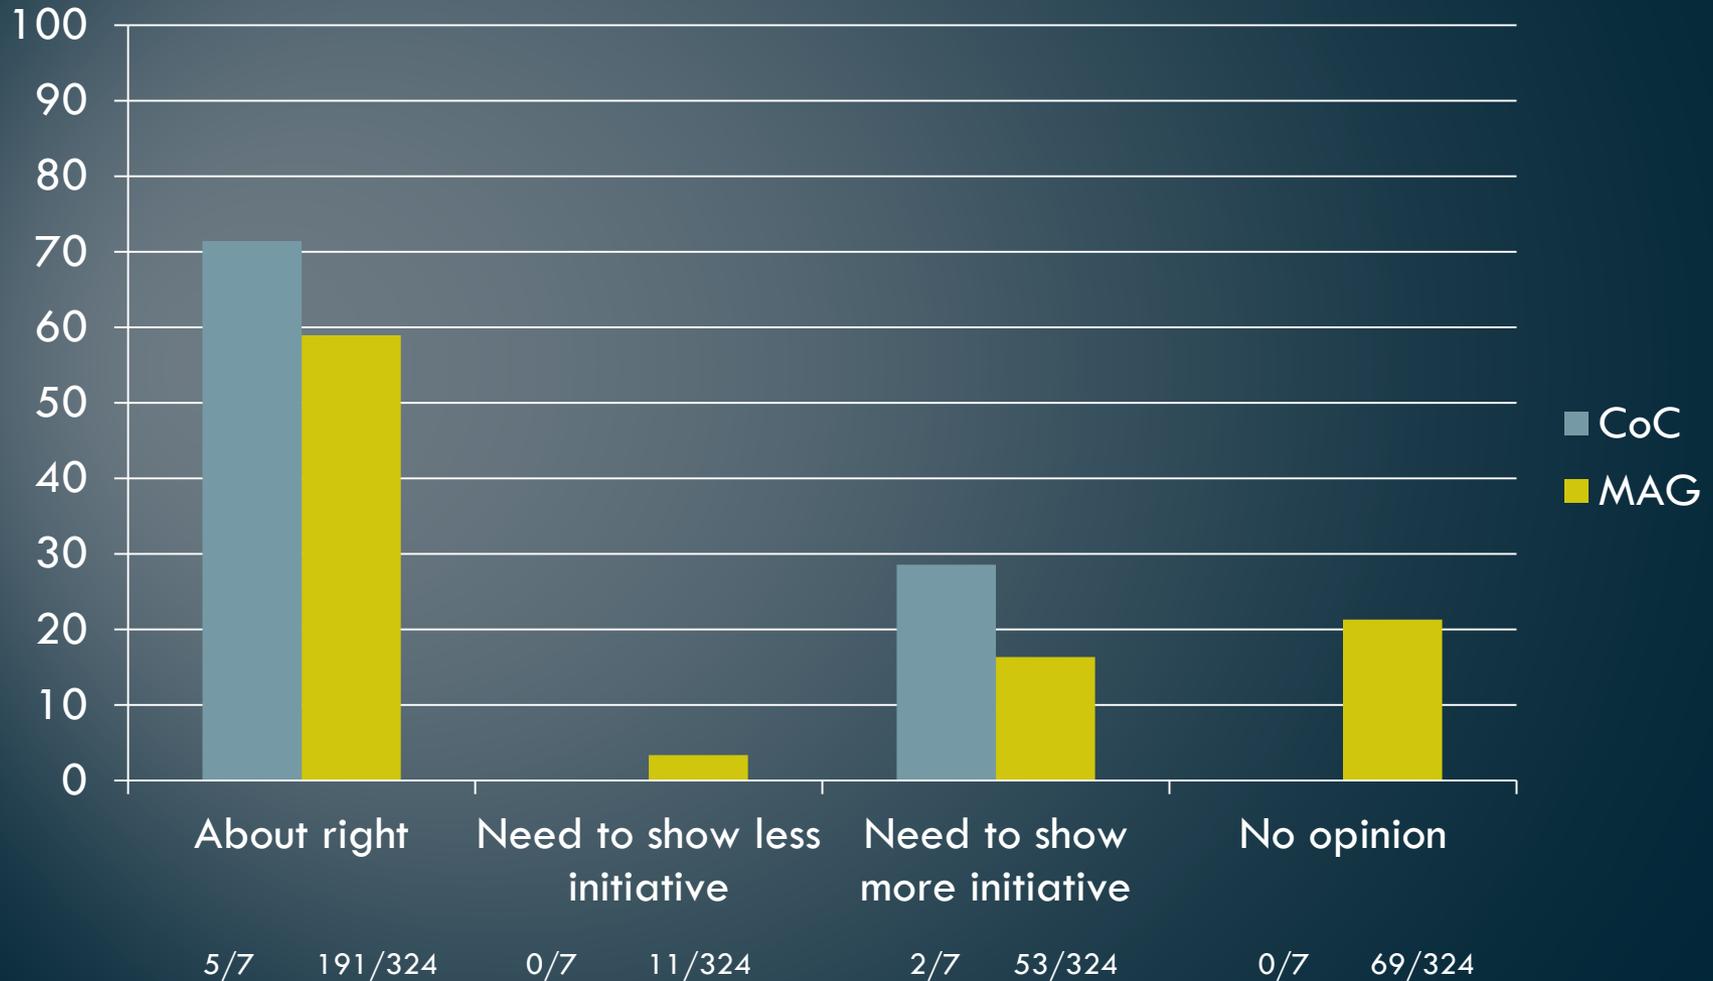

Do you perceive MAG as an important resource in the region?

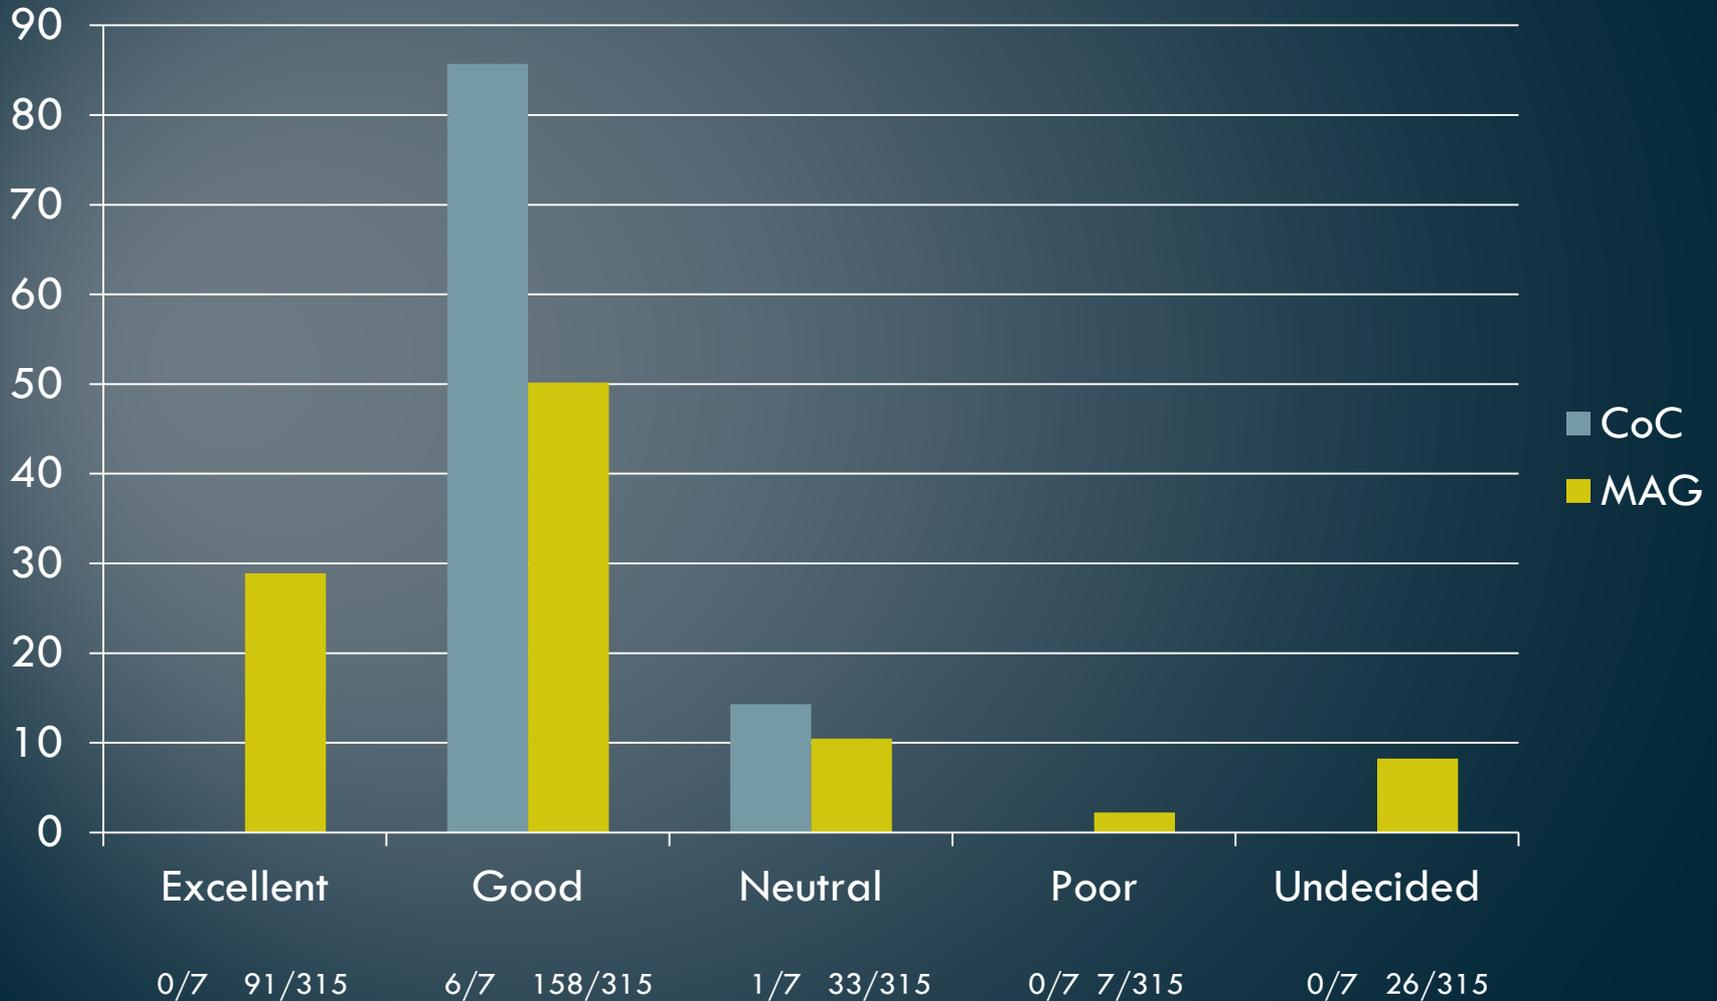

How would you rate the relationship MAG has with nonprofit agencies?

Does MAG show an appropriate level of initiative in becoming involved in new issues and developing new programs and services?

How would you rate the leadership of MAG as an organization?

Open Discussion

- What are the strengths of the Continuum of Care Committee?
- What enhancements can be made?
- What is the best way to promote open communication?
- What are the next steps?

Thank you!
