

MAG Concrete Working Group

Thursday, January 24, 2013, 1:30 pm at the ARPA Offices

Meeting Notes

Present:

See attached attendance sheet.

Discussion:

- 1) Reviewed list of Sections needing potential revisions – spreadsheet from Peter Kandaris. Several Sections remain to be reviewed – 729 on Expansion Joint Filler, 505 on Concrete Structures, Detail 550 on Spillway Inlet and Outlet, and the Sections dealing with Masonry/Grout materials and construction. The Group was encouraged to find other potential members who could provide expertise/guidance in these areas.
- 2) MAG Section 340 Draft Revision – Peter Kandaris. We reviewed the last revision and discussed some additional clarification wording to several items. Peter will revise and resubmit to the Working Group one more time for final review before bringing to the MAG Committee for Case introduction.
- 3) Potential new case – Revision of Section 324 on Portland Cement Concrete Street Paving – Jeff Hearne. We briefly reviewed the current Section 324 as compared to ADOT Section 401 on PCCP. Several items were discussed that definitely need to be revised pertaining to strength and testing requirements, field performance criteria and appropriate measurement determinations, and acceptance and payment criteria. The Working Group was asked to further review the two documents and bring ideas for potential revision back to the Group – either by email submission or at the next meeting.
- 4) Peoria/Chandler Potential New Potential Case- Directional Sidewalk Ramp - Brandon Forrey, Peoria. No new information was presented and Jeff Hearne will contact Brandon to see where we are with this work. Bob Herz commented he may have a detail to bring forth for review.

Date for Next Meeting:

The next meeting is scheduled for **February 21, 2013 @ 1:30 pm** in the ARPA offices.
(Following the Asphalt and Materials Working Group meetings)

Any and all participants are welcome and encouraged to be involved.
