5. Maricopa Association of Governments Information Center (MAGIC) Update

Anubhav Bagley, MAG Information Services Manager, stated MAGIC was created in 1998 with the goal of utilizing MAG's specialized knowledge, data sets and information through MAG, to assist our member agencies, public sector agencies, as well as private sector businesses on regionally significant projects. He added that MAGIC also provides additional fee-earning activities outside its work program commitments through customized formatting, data collection and technical analysis.

Mr. Bagley provided an update on projects that MAGIC has worked on in the past. These projects included working with the Central Arizona Project and Central Association of Governments. He noted that staff is currently working on an ongoing project with the Town of Wickenburg, which is about fifty percent complete. This project includes setting up their GIS data sets, building an online mapping tool, using their data sets to show the land use, assessor data, zoning information, flood plain information, etc. Mr. Bagley added that this project contract ends in September 2014, unless the town wants to extend it.

Mr. Bagley stated that another project that MAG staff is currently working on through MAGIC is with the Town of Gila Bend. This project was started in 2012 with setting up their GIS data sets, primarily utility data sets, related to water, waste water, etc. Staff is currently working with the town staff on an on-going basis, providing mapping, analysis, and data that they can use to mark up and start to build. Due to staff change, MAG staff is currently waiting for the town to provide them some data sets.

Chair LeVault thanked Mr. Bagley for the update and asked if there were any questions or comments. There were none. Chair LeVault commended MAG staff for the great work that they do.
