Executive Summary

Senior Survey for the Maricopa Association of Governments
Executive Summary Report - Draft Report

Overview of the Methodology

In December 2011, ETC Institute conducted a survey of residents age 55 and older to determine service priorities in Maricopa County. The purpose of the survey was to help determine overall satisfaction with quality-of-life issues in the community. The survey was designed to obtain statistically valid results from senior households throughout Maricopa County.

ETC Institute worked extensively with Maricopa Association of Governments officials in the development of the survey questionnaire. This work allowed the survey to be tailored to issues of strategic importance to effectively plan the future system.

The goal was to obtain a total of at least 1,000 completed surveys from Maricopa County households. The goal was reached with 1034 surveys being completed. The level of confidence is 95% with a margin of error of +/-3.1%.

The following pages summarize major survey findings.

Major Survey Findings

- **Overall Satisfaction with Services and Activities Available to Adults Age 55+.** There are five services and activities in which at least 53% of respondents indicated they are either “very satisfied” or “satisfied”: public parks and trails (73%), volunteer opportunities (66%), active recreation opportunities (65%), arts and cultural amenities (62%), and community/senior center service (53%).
- **Services and Activities Households Currently Use Most Often.** Based on the sum of their top three choices, the services and activities that households indicated they use most often are: public parks and trails (46%), active recreation opportunities (29%), arts and cultural amenities (26%), and volunteer opportunities (14%).
- **Services and Activities Households Think They Will Use Most Often 10 years From Now.** Public parks and trails (36%) is the most frequently-mentioned service or activity that respondent households believe they will use 10 years from now. Active recreation opportunities (28%) was the second most frequently-mentioned, and public transportation (24%) was third.
- **Concern of Households to Various Issues.** Seventy-nine percent (79%) of respondents indicated they are “very concerned” or “concerned” about the affordability of health care. Losing the ability to drive (68%), personal health issues (67%), and health issues of a spouse age 55 or over (65%) are also issues of concern. The issues of least concern are lack of worthwhile volunteer opportunities (14%) and language barriers (13%).
- **Issues That Are of the Greatest Concern to Yourself and Members of Your Household.** Based on the sum of their top four choices, the issues that most concern respondents and their households are: affordability of health care (51%), personal health issues (40%), outliving financial resources (34%), losing the ability to drive (31%), and health of a spouse age 55 or over (28%).
- **Issues That Are of the Greatest Concern to ALL Residents Age 55 and Over in Maricopa County.** Based on the sum of their top four choices, the issues that households are most concerned with for ALL Maricopa County residents age 55 and over are: affordability of health care (53%), outliving financial resources (34%), personal health issues (31%), inability to continue living at home (25%), and high housing costs (23%).

- **Knowledge Regarding Public and Non-Profit Services.** Forty-six percent (46%) of respondents indicated they are either “very knowledgeable” (6%) or “somewhat knowledgeable” (40%) of public and non-profit services that are available to Maricopa County residents age 55 and over.
- **Usage of Indoor Community Facilities Operated by Cities or Non-Profit Organizations in Maricopa County.** Twenty-seven percent (27%) of households indicated that they use indoor community facilities operated by cities or non-profit organizations in Maricopa County and 73% indicated they do not currently use such facilities.
- **Importance of Extended Hours at Community Centers.** Sixty-three percent (63%) of respondents indicated that maintaining longer hours of operation at community centers is either “very important” (32%) or “somewhat important” (31%). Only 13% of households indicated that this issue is not important.
- **Methods of Travel Among Households in Maricopa County.** Ninety-four percent (94%) of respondents indicated that they drive a car or truck to commute within Maricopa County. Walking is a travel method used by 47% of households. Other methods, such as riding with a friend or family member (25%), public transportation (18%), and bicycling (18%) were also frequently-mentioned. Only 1% of respondents indicated they are homebound and unable to travel.
- **Methods of Travel Most Often Used Around Maricopa County.** Based on the sum of their top two choices, the methods of travel most often used CURRENTLY by households around Maricopa County are: driving a car or truck (89%), walking (27%), and riding with a friend or family member (24%).
- **Methods of Travel That Will be Used Most Often Around Maricopa County 10 Years from Now.** Based on the sum of their top two choices, the methods of travel that households think they will use most around Maricopa County 10 YEARS FROM NOW are: driving a car or truck (67%), riding with a friend or family member (32%), and public transportation (30%).

- **Agreement with Certain Issues Regarding the Future of Maricopa County.** There are six issues in which at least 75% of respondents indicated they either “strongly agree” or “agree” with concerning the future of Maricopa County, those being: improved health care services (82%), emergency programs for those who are bedridden (82%), additional services to check on seniors living alone (81%), affordable housing (81%), improved public transportation (79%), and a larger regional public transit system (78%).
- **Residents’ Vision for the Future of Maricopa County.** Based on the sum of their top four choices, the issues that respondents feel best represent their VISION for the FUTURE of Maricopa County are: improved health care services (40%), a larger regional public transit system (38%), improved public transportation (31%), affordable housing (28%), and additional services to check on seniors living alone (26%).
- **Reasons That Prevent Households From Using Services for Adults Age 55+ More Often.** Forty-three percent (43%) of respondents indicated a lack of awareness regarding services, while 37% indicated a lack of awareness regarding facilities. Other reasons preventing households from using services more often are “not enough time” (31%) and “I use services of other agencies” (16%).
- **Ways In Which Households Would Prefer to Provide Input to Local Governments and the Maricopa Association of Governments.** Forty-eight percent (48%) of respondents prefer e-mail correspondence as a way to provide input to local governments and the Maricopa Association of Governments. Other preferred methods include: letter correspondence (33%), attending meetings and hearings in person (27%), and the MAG website (25%).
- **Opinions Regarding Changes in Quality of Life for Persons Age 55+ in Maricopa County.** Twenty-nine percent (29%) of households feel that their quality of life has gotten better. Thirty percent (30%) indicated that it has stayed the same, while 19% feel it has gotten worse. Twenty-two percent (22%) of respondents answered “not sure”.

- **Allocation of \$100 Among Various Categories of Funding.** Respondents were asked how they would allocate funding among various categories if given \$100. The findings are below:
 - Improve the public transportation system (\$19)
 - Improve community/senior centers for social activities (\$7)
 - Improve facilities and program spaces for recreation, trails, fitness and sports activities (\$9)
 - Improve health care (\$27)
 - Improve financial support (\$15)
 - Improve social services (\$20)
 - Other (\$3)

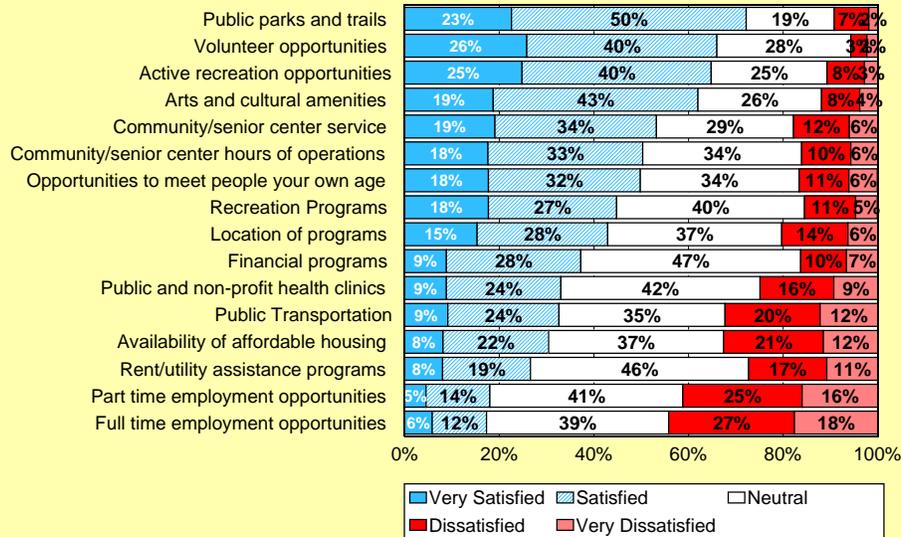

- **Agreement with Paying More Taxes to Fund Transportation Services Dedicated to People Age 55+.** Forty-one percent (41%) of respondents indicated that they either strongly agree (12%) or agree (29%) with paying more taxes to fund transportation services dedicated to people age 55 and over. In addition, 26% indicated they are “neutral”, and the remaining 33% either disagree (17%) or strongly disagree (16%) with paying more taxes.

- **Level of Change in Respondents’ Health Over the Past 2 Years.** Fifty-seven percent (57%) of respondents indicated that their health has stayed the same over the past 2 years. The remaining respondents indicated the following changes: “health is much better” (3%), “health is better” (9%), “health is worse” (27%), and “health is much worse” (4%).
