

January 8, 2013

TO: Members of the MAG Management Committee

FROM: David Cavazos, City of Phoenix, Chair

SUBJECT: MEETING NOTIFICATION AND TRANSMITTAL OF TENTATIVE AGENDA

Wednesday, January 16, 2013 - 12:00 noon
MAG Office, Suite 200 - Saguaro Room
302 North 1st Avenue, Phoenix

The next Management Committee meeting will be held at the MAG offices at the time and place noted above. Members of the Management Committee may attend the meeting either in person, by videoconference or by telephone conference call. The agenda and summaries also are being transmitted to the members of the Regional Council to foster increased dialogue between members of the Management Committee and Regional Council. You are encouraged to review the supporting information enclosed. Lunch will be provided at a nominal cost.

Please park in the garage under the building, bring your ticket, parking will be validated. For those using transit, Valley Metro/RPTA will provide transit tickets for your trip. For those using bicycles, please lock your bicycle in the bike rack in the garage.

Pursuant to Title II of the Americans with Disabilities Act (ADA), MAG does not discriminate on the basis of disability in admissions to or participation in its public meetings. Persons with a disability may request a reasonable accommodation, such as a sign language interpreter, by contacting Valerie Day at the MAG office. Requests should be made as early as possible to allow time to arrange the accommodation.

Members are reminded of the importance of attendance by yourself or a proxy. Any time that a quorum is not present, we cannot conduct the meeting. Please set aside sufficient time for the meeting, and for all matters to be reviewed and acted upon by the Management Committee. Your presence and vote count.

**MAG MANAGEMENT COMMITTEE
TENTATIVE AGENDA
January 16, 2013**

COMMITTEE ACTION REQUESTED

1. Call to Order

2. Pledge of Allegiance

3. Call to the Audience

An opportunity is provided to the public to address the Management Committee on items that are not on the agenda that are within the jurisdiction of MAG, or non-action agenda items that are on the agenda for discussion or information only. Citizens will be requested not to exceed a three minute time period for their comments. A total of 15 minutes will be provided for the Call to the Audience agenda item, unless the Management Committee requests an exception to this limit. Please note that those wishing to comment on agenda items posted for action will be provided the opportunity at the time the item is heard.

4. Executive Director's Report

The MAG Executive Director will provide a report to the Management Committee on activities of general interest.

5. Approval of Consent Agenda

Prior to action on the consent agenda, members of the audience will be provided an opportunity to comment on consent items that are being presented for action. Following the comment period, Committee members may request that an item be removed from the consent agenda. Consent items are marked with an asterisk (*).

3. Information.

4. Information and discussion.

5. Recommend approval of the Consent Agenda.

ITEMS PROPOSED FOR CONSENT*

MINUTES

*5A. Approval of the November 7, 2012, Meeting Minutes

5A. Review and approval of the November 7, 2012, meeting minutes.

TRANSPORTATION ITEMS

*5B. American Recovery and Reinvestment Act Project Completion in the MAG Region

The American Recovery and Reinvestment Act (ARRA) was passed by Congress and signed into law by President Obama in February 2009 to jump-start the economy and to create and save jobs. The Federal Highway Administration and Federal Transit Administration ARRA funding was programmed for projects in the MAG region. The deadline for completing the ARRA projects is fast approaching and the Arizona Department of Transportation has set dates for final expenditures and project closeouts. Please refer to the enclosed material.

*5C. Proposed Major Amendment to the MAG Regional Transportation Plan to Add the Light Rail Transit Extension on Main Street: Mesa Drive to Gilbert Road

On October 24, 2012, the MAG Regional Council requested consultation on the proposed major amendment to the Regional Transportation Plan to add a 1.9 mile light rail transit (LRT) extension on Main Street, from Mesa Drive to Gilbert Road. Formal comment on the proposed major amendment is required from the State Transportation Board, the Regional Public Transportation Authority (RPTA), and the Maricopa County Board of Supervisors. Cities and towns, Native American Indian communities, and the Citizens Transportation Oversight Committee (CTOC) may also provide comments. On November 14, 2012, the Maricopa County Board of Supervisors recommended approval, on November 15, 2012, the Regional Public Transportation Authority recommended approval, and on November 16, 2012, the State Transportation Board recommended approval of the proposed major amendment. Please refer to the enclosed material.

5B. Information.

5C. Recommend approval of the proposed major amendment to the Regional Transportation Plan to add a 1.9 mile light rail transit extension on Main Street, from Mesa Drive to Gilbert Road and that the Regional Transportation Plan and the FY 2011-2015 MAG Transportation Improvement Program be amended subject to the necessary air quality conformity analysis.

*5D. MAG Federally Funded Locally Sponsored Project Development Status Report and Project Changes

The MAG Federal Fund Programming Guidelines & Procedures, approved by the MAG Regional Council on October 26, 2011, outlines the requirements for local agencies to submit status information on the development of their federally funded projects. The MAG Federally Funded Locally Sponsored Project Development Status Report (Status Report) focuses mainly on projects funded with Congestion Mitigation and Air Quality (CMAQ) funds that are programmed to obligate in federal fiscal year (FFY) 2013 and FFY 2014. The information collected in the Project Development Status workbook enables the completion of a financial analysis of the Transportation Improvement Program (TIP) and the calculation of available funding for closeout. The Status Report contains all information gathered for a Tier 1 evaluation. Tier 2 information is also included where project sponsors are requesting to advance projects from FFY 2014 to FFY 2013. This item was recommended for approval at the December 10, 2012, Street Committee and the December 13, 2012, Transportation Review Committee. Additionally, an integrity check was performed on the ALCP changes approved on September 26, 2012, and minor administrative corrections to the TIP are included in the project change sheet. Additional Arizona Department of Transportation and Transit project changes have been included in the change sheets and tinted in yellow. Please refer to the enclosed material.

*5E. Recommendation of Projects for the FY 2013 Traffic Signal Optimization Program

On October 25, 2012, MAG announced a request for new projects for the FY 2013 Traffic Signal Optimization Program (TSOP). The budget available for new TSOP projects is \$243,000. A total of eight project applications was received. On November 15, 2012, the MAG Intelligent Transportation Systems (ITS) Committee reviewed all applications and recommended all eight projects plus two additional before-and-after evaluation projects. The completion of these

5D. Recommend approval of federal fund projects to be deferred, deleted, advanced, and changed, and of the necessary amendments and administrative modifications to the FY 2011-2015 MAG Transportation Improvement Program, and as appropriate, to the Regional Transportation Plan 2010 Update.

5E. Recommend approval of the list of FY 2013 Traffic Signal Optimization Program projects.

projects would lead to improved traffic operations in a number of arterial corridors and would directly impact operations at 176 traffic signals in eight affected jurisdictions. The total cost for these projects is estimated at \$243,000. All projects will be carried out using MAG on-call consultants. On December 13, 2012, the MAG Transportation Review Committee recommended approval of the proposed list of TSOP projects. Please refer to the enclosed material.

AIR QUALITY ITEMS

*5F. Status of Remaining MAG Approved PM-10 Certified Street Sweeper Projects That Have Not Requested Reimbursement

A status report is being provided on the remaining PM-10 certified street sweeper projects that have received approval, but have not requested reimbursement. To assist MAG in reducing the amount of obligated federal funds carried forward in the MAG Unified Planning Work Program and Annual Budget, MAG is requesting that street sweepers be purchased and reimbursement be requested by the agency within one year plus ten calendar days from the date of the MAG authorization letter. Please refer to the enclosed material.

*5G. Conformity Consultation

The Maricopa Association of Governments is conducting consultation on a conformity assessment for an amendment and administrative modification to the FY 2011-2015 MAG Transportation Improvement Program (TIP). The amendment and administrative modification involve several projects, including revisions to projects for Fountain Hills, Glendale, Goodyear, Mesa, Peoria, Phoenix, and Youngtown. The amendment includes projects that may be categorized as exempt from conformity determinations. The administrative modification includes minor project revisions that do not require a conformity determination. Comments are requested by January 25, 2013. Please refer to the enclosed material.

5F. Information and discussion.

5G. Consultation.

GENERAL ITEMS

- *5H. Status Update on the June 30, 2012 Single Audit and Management Letter Comments, MAG's Comprehensive Annual Financial Report and OMB Circular A-133 Reports (i.e., "Single Audit") for the Fiscal Year Ended June 30, 2012

The accounting firm of LarsonAllen, LLP has completed the audit of MAG's Comprehensive Annual Financial Report (CAFR) and Single Audit for the fiscal year ended June 30, 2012. An unqualified audit opinion was issued on November 12, 2012, on the financial statements of governmental activities, the aggregate discretely presented component units, each major fund and the aggregate remaining fund information. The independent auditors' report on compliance with the requirements applicable to major federal award programs, expressed an unqualified opinion on the Single Audit. The Single Audit report indicated there were no reportable conditions in MAG's internal control over financial reporting considered to be material weaknesses, no instances of noncompliance considered to be material and no questioned costs. The Single Audit report had no new or repeat findings. The CAFR financial statements and related footnotes were prepared in accordance with the Government Finance Officers Association's (GFOA) standards for the Certificate of Achievement for Excellence in Financial Reporting awards program. Management intends to submit the June 30, 2012, CAFR to the GFOA awards program for review. If awarded the certificate for the June 30, 2012, CAFR, this would be the agency's 15th consecutive award. Please refer to the enclosed material.

- *5I. Discussion of the Development of the FY 2014 MAG Unified Planning Work Program and Annual Budget

Each year, the Unified Planning Work Program and Annual Budget is developed in conjunction with member agency and public input. The Work Program is reviewed each year by the federal agencies in the spring and approved by the

- 5H. Recommend acceptance of the audit opinion issued on the MAG Comprehensive Annual Financial Report and Single Audit Report for the year ended June 30, 2012.

- 5I. Information and input on the development of the fiscal year (FY) 2014 MAG Unified Planning Work Program and Annual Budget.

Regional Council in May. This overview of MAG's draft Dues and Assessments and the proposed budget production timeline provides an opportunity for early input into the development of the Work Program and Budget. Please refer to the enclosed material.

- *5J. Draft MAG 208 Water Quality Management Plan Amendment for the Service Area Expansion of the Litchfield Park Service Company Doing Business As Liberty Utilities Palm Valley and Sarival Water Reclamation Facilities

The City of Glendale has requested that the MAG 208 Water Quality Management Plan be amended to allow subdivisions and facilities located within the Glendale Municipal Planning Area to be included in the service area for the Litchfield Park Service Company doing business as Liberty Utilities, formerly Liberty Water, Palm Valley and Sarival Water Reclamation Facilities. The facilities are located within the Goodyear Municipal Planning Area and are identified in the current MAG 208 Plan with reserve capacity to accommodate the sewer service needs of the expanded area. The project is within three miles of the City of Avondale, City of El Mirage, City of Goodyear, City of Litchfield Park, City of Peoria, City of Phoenix, Town of Youngtown, Luke Air Force Base, and unincorporated Maricopa County, and all have indicated no objections. A public hearing on the draft amendment was conducted on December 13, 2012. Following the hearing, the MAG Water Quality Advisory Committee unanimously recommended approval of the Draft 208 Plan Amendment. Please refer to the enclosed material.

- 5J. Recommend approval of the Draft MAG 208 Water Quality Management Plan Amendment for the Service Area Expansion of the Litchfield Park Service Company Doing Business As Liberty Utilities Palm Valley and Sarival Water Reclamation Facilities.

ITEMS PROPOSED TO BE HEARD

6. Arizona Rooftop Solar Challenge (10 minutes)

In December 2011, the Governor's Office of Energy Policy was awarded a grant of more than \$700,000 by the U. S. Department of Energy for Arizona's Rooftop Solar Challenge. This program will bolster Arizona's commitment to solar technology, allowing the creation of statewide,

6. Information and discussion.

streamlined processes for permitting and interconnection of solar facilities at homes and businesses, with the ultimate goal of having statewide online permitting for solar equipment. A representative from the Governor's Office of Energy Policy will discuss the progress of the program, and the program's next steps.

7. Report on the Freight Transportation Framework Study (12 minutes)

On October 27, 2010, the MAG Regional Council approved the consultant selection for the MAG Freight Transportation Framework Study. The goal of the study is to identify freight related economic development opportunities in the Sun Corridor. During the past 24 months the freight team conducted surveys, analyzed commodity flows, met with stakeholders, and analyzed 16 freight opportunity locations throughout the Sun Corridor. MAG staff will provide an overview of the final results of the study and discuss next steps. It is anticipated that the study will be reviewed at the March 6, 2013, retreat of the Joint Planning Advisory Council. Please refer to the enclosed material.

8. MAP-21 A Federal Highway Administration Program Overview and Estimated Funding Levels for the MAG Region (5 minutes)

On July 6, 2012, President Obama signed into law P.L. 112-141, the Moving Ahead for Progress in the 21st Century Act (MAP-21). MAP-21 restructures core highway formula programs and merges and consolidates formula programs. Although MAP-21 achieves dramatic policy and programmatic changes, reform of the way highway and transit programs are funded remains a challenge for the future. New apportionments have been announced and an overview of FHWA programs, and expected regional federal funding levels will be presented. This item was presented at the December 13, 2012, Transportation Review Committee meeting.

7. Information and discussion.

8. Information and discussion.

9. Year End Closeout Report of Federal Fiscal Year 2012 Funds, and Evaluation of Federal Fiscal Year 2013 Funding Levels for Tier 3 Programming (5 minutes)

The MAG Regional Council approved the MAG Federal Fund Programming Guidelines & Procedures (Guidelines), on October 26, 2011. Programming of Federal funds is a dynamic process and MAG staff continuously monitor the approved Transportation Improvement Program (TIP) projects throughout the year, and an evaluation in detail of the projects included in the TIP is completed twice each year. After the detailed analysis of the TIP, and if funding is available or projected to be available for the current and/or upcoming fiscal year, Tiers 2 and 3 processes are undertaken as described in the Guidelines. For FFY 2013, two scenarios were proposed for discussion to address available funds. On December 13, 2012, the Transportation Review Committee recommended scenario two for approval. Please refer to the enclosed material.

10. Assignment of Designated Recipient for Federal Transit Administration Section 5310 Enhanced Mobility of Seniors and Individuals with Disabilities Program in the MAG Region (5 minutes)

Under MAP-21, Urbanized Areas more than 200,000 in population in coordination with the State may determine which agency will be their Designated Recipient (DR) of FTA, Section 5310 Enhanced Mobility of Seniors and Individuals with Disabilities Program funding. Under MAP-21 two Federal Transit Administration programs have been combined and renamed, and several agencies are eligible to accept the responsibilities of the DR. MAG staff has requested comments and committee recommendations beginning on December 11, 2012 and concluding on January 2, 2013. A staff report is included and the ongoing committee recommendations after January 2, 2013 will be included in an update. This item was recommended for approval during December 2012 by the MAG Ad Hoc Elderly and Persons with Disability Transportation Committee, the MAG Transportation Review Committee, and the

9. Recommend approval of Scenario Two for the Tier 3 closeout of Federal Fiscal Year (FFY) 2013 projects. Scenario Two funds all Congestion Mitigation and Air Quality (CMAQ) project phases that will obligate in FFY 2013 at the maximum federal share, up to 94.3 percent, of eligible project costs, and fund the design phases that can obligate by June 28, 2013, for currently programmed FFY 2014 CMAQ construction and procurement projects; and of the necessary amendments and administrative modifications to the FY 2011-2015 MAG Transportation Improvement Program, and as appropriate, to the Regional Transportation Plan 2010 Update.

10. Recommend approval that the City of Phoenix Transit Department assume the responsibility as the FTA Designated Recipient of Section 5310 Enhanced Mobility of Seniors and Individuals with Disabilities Program, beginning FFY 2013.

MAG Human Services Technical Advisory Committee. This item is on the MAG Transit Committee agenda scheduled for January 10, 2013. An update will be provided on action taken by the committee. Please refer to the enclosed material.

11. Legislative Update (5 minutes)

An update will be provided on legislative issues of interest.

12. Request for Future Agenda Items

Topics or issues of interest that the Management Committee would like to have considered for discussion at a future meeting will be requested.

13. Comments from the Committee

An opportunity will be provided for Management Committee members to present a brief summary of current events. The Management Committee is not allowed to propose, discuss, deliberate or take action at the meeting on any matter in the summary, unless the specific matter is properly noticed for legal action.

Adjournment

Participated by telephone conference call. + Participated by videoconference call.

1. Call to Order

The meeting of the MAG Management Committee was called to order by Chair David Cavazos at 12:00 p.m.

2. Pledge of Allegiance

The Pledge of Allegiance was recited.

Ken Buchanan, John Kross, George Hoffman, and Reyes Medrano joined the meeting via teleconference.

Chair Cavazos noted that for agenda item 5B, a revised summary transmittal was at each place. The Prior Committee Actions section of the summary transmittal was revised to add the name of the Queen Creek representative on the Bicycle and Pedestrian Committee.

Chair Cavazos announced that public comment cards were available to members of the public who wish to comment. Chair Cavazos noted that parking validation for those who parked in the MAG parking garage was available from staff and transit tickets were available from Valley Metro/RPTA for those using transit to come to the meeting.

3. Call to the Audience

Chair Cavazos stated that Call to the Audience provides an opportunity to the public to address the Management Committee on items that are not on the agenda that are within the jurisdiction of MAG, or non-action agenda items that are on the agenda for discussion or information only. Chair Cavazos noted that those wishing to comment on agenda items posted for action will be provided the opportunity at the time the item is heard. Public comments have a three minute time limit. A total of 15 minutes will be provided for the Call to the Audience agenda item, unless the Committee requests an exception to this limit.

Chair Cavazos recognized public comment from Dianne Barker, who spoke about cleaning up the transit stops. She stated that she cleans the areas while she is waiting for public transit. Ms. Barker suggested that citizens will help with cleaning efforts. Chair Cavazos thanked Ms. Barker for her comments.

4. Executive Director's Report

Dennis Smith, MAG Executive Director, reported on items of interest in the MAG region. He reported that the Executive Committee, the Economic Development Committee and the Thunderbird School of Global Management held a meeting on Arizona/Mexico small and medium business connections on October 16, 2012, at the MAG office. Mr. Smith stated that the goal was to increase export growth through establishing business connections between Sonora and business in the MAG region. He stated that the Sonoran representatives have inquired if MAG would like them to come up here for a meeting and letters went out yesterday. Mr. Smith stated that one idea for the meeting is to expand the December Economic Development Committee meeting, and perhaps hold it offsite and invite other business organizations, such as GPEC or Westmarc.

Mr. Smith stated that MAG has been working with Anna Flaaten of the Arizona Export Council. He noted that MAG staff, Samantha Santaella, who previously worked at the Mexican consulate, is available to assist member agencies with cross cultural training. Mr. Smith added that she will make site visits to communities and work with staff.

Mr. Smith showed the slide developed by the East Valley Partnership that showed Mexico is Arizona's number one trade partner. He displayed a graph that showed Texas has a higher rate of growth in imports from Mexico than Arizona.

Mr. Smith stated that a Nogales Supplier Expo is scheduled for November 15, 2012, in Nogales, Sonora. He said that MAG has been working on getting out the word on this event and he asked members to forward to MAG staff the names of businesses that should be invited. Mr. Smith stated that they are trying to develop connections and increase Arizona's competitiveness in a global hub.

Mr. Smith stated that the Mexico Auto Industry conference will be held on December 5-6, 2012, in Mexico. He noted that almost every major automobile manufacturer has a factory in Sonora, Mexico. Mr. Smith stated that another event in Mexico being planned is the Aerospace Engine Forum in Sonora on May 14-15, 2013. He noted that one of the sponsors is the Arizona Commerce Authority, and there are significant aerospace interests in this region.

Mr. Smith provided an update on the Economic Development Committee. He stated that a presentation on the MAG Freight Transportation Framework Study recommendations was given at the October 30, 2012, Joint Planning Advisory Council meeting, which was attended by 117 people. He noted that members will be able to take back to their communities the findings of the study, see what is feasible, and then discuss implementation at a retreat in March 2013. Mr. Smith stated that a presentation of the recommendations is scheduled for the January Management Committee meeting.

Mr. Smith spoke of Utah's political alignment that enabled them to accomplish projects in the Wasatch Front. He noted that Utah has financing tools not available here. Mr. Smith stated that the Arizona-Mexico corridor is the same type of linear corridor and could be this region's Wasatch Front. Mr. Smith requested that Management Committee members have a discussion with their elected officials to see if there is political will to establish some of the tools in use in other regions.

Mr. Smith stated that he attended the Western High Speed Rail Alliance meeting and they were given a tour of Denver's Union Station. He noted that a special authority was created to revitalize private development of the station and surrounding area. Mr. Smith stated that Denver is pursuing higher paying, higher quality jobs through a better quality of life it is creating.

Mr. Smith displayed the distressed properties map of March 2010, when foreclosed and pending foreclosure homes totalled more than 63,000. He noted that significant progress has been made and showed the newly updated distressed properties map of September 2012, with foreclosures and pending foreclosures totalling slightly over 19,000. Mr. Smith stated that the situation is improving, but he questioned whether this region's economy could return to a housing economy when home building starts back up. He added that this could be discussed at the January freight study presentation.

Chair Cavazos thanked Mr. Smith for his report. No questions for Mr. Smith were noted.

5. Approval of Consent Agenda

Chair Cavazos stated that agenda items #5A, #5B, #5C, #5D, #5E, #5F, #5G, #5H, #5I, and #5J were on the Consent Agenda.

Chair Cavazos recognized public comment from Ms. Barker, who expressed that she supports the movement of freight and people and she was glad work was ongoing to identify the places that need improvement. She said that she attended the public meeting on the Interstate 11 study, which includes freight, but she did not hear much about it being multimodal. Ms. Barker stated that there may be innovative ways to move people and freight that have not yet been developed. She said that her hope is that the engineers will work for the public and she recalled a saying, “An engineer’s dream is when the public butts out.” Ms. Barker stated that multimodal feels good. Chair Cavazos thanked Ms. Barker for her comments.

Chair Cavazos asked members if they had questions or requests to hear a presentation on any of the agenda items.

Mr. Brady asked if the language for agenda item #5B could be clarified. He said that the item was fine, but the narrative could be improved to add detail. Mr. Brady said that he would move to recommend approval of consent agenda items #5A, #5B, #5C, #5D, #5E, #5F, #5G, #5H, #5I, and #5J, with that change. Mr. Hillman seconded. Chair Cavazos asked if there was any discussion of the motion. Being none, the vote on the motion passed unanimously.

5A. Approval of the October 3, 2012, Meeting Minutes

The MAG Management Committee, by consent, approved the October 3, 2012, meeting minutes.

5B. Consultant Selection for the MAG Bicycle Count Project

The MAG Management Committee, by consent, recommended approval of Chen Ryan Associates to conduct the MAG Bicycle Count Project for an amount not to exceed \$96,000. The Fiscal Year (FY) 2013 MAG Unified Planning Work Program and Annual Budget includes \$96,000 to develop a methodology and conduct a bicycle count in the region. The project will gather data which will be incorporated into the MAG performance measures, MAG safety and MAG modeling programs. A Request for Proposals was issued on August 21, 2012. MAG received proposals from four firms on September 20, 2012. A multi-jurisdictional proposal evaluation team met on October 9, 2012, to review and analyze the proposals and recommended to MAG the selection of Chen Ryan Associates to conduct the MAG Bicycle Count Project. On October 23, 2012, the MAG Bicycle and Pedestrian Committee recommended approval of the selection of Chen Ryan Associates to conduct the MAG Bicycle Count Project.

5C. Project Changes - Amendment and Administrative Modification to the FY 2011-2015 MAG Transportation Improvement Program

The MAG Management Committee, by consent, recommended approval of amendments and administrative modifications to the Fiscal Year (FY) 2011-2015 MAG Transportation Improvement Program, Arterial Life Cycle Program, and as appropriate, to the Regional Transportation Plan 2010 Update. The FY 2011-2015 Transportation Improvement Program and Regional Transportation Plan 2010 Update were approved by the MAG Regional Council on July 28, 2010, and have been modified twenty times with the last modification approved by the MAG

Regional Council on September 26, 2012. Since then, there is a need to modify projects in the programs. The request includes changes to freeway, highway safety, roadway, Safe Routes to Schools, and transportation enhancement projects. The changes included may be categorized as exempt from conformity determinations, and administrative modifications do not require a conformity determination. On October 25, 2012, the Transportation Review Committee (TRC) recommended approval. Since the TRC meeting, two projects were added to the list of proposed changes which include the new intersection projects at Grand Avenue and Bell Road in Surprise and at Grand Avenue and Thompson Ranch Road in El Mirage. These two projects were included in the Proposition 400 project for improvements on Grand Avenue from L101 to L303.

5D. Contract Amendment for the MAG Freight Transportation Framework Study

The MAG Management Committee, by consent, recommended approval to amend the Parsons Brinckerhoff contract by \$50,000 to be used in the Freight Transportation Framework Study. In May 2012, the Regional Council approved the FY 2013 MAG Unified Planning Work Program (UPWP) and Annual Budget, which included the MAG Freight Transportation Framework Study. The goal of the study was to identify freight related economic development opportunities in the Sun Corridor. The current MAG Freight Transportation Framework Study and scope of work are in the final stages of completion. The MAG Economic Development Committee has requested an economic development retreat for the Sun Corridor on March 6, 2013, to seek alignment of the ideas in the study with the Sun Corridor representatives. It has been requested that the MAG and Parsons Brinckerhoff freight team present the freight study recommendations with supporting materials at this retreat. The additional work for this retreat exceeds the current scope of work and budget, therefore, an amendment to the current freight study contract in the amount of \$50,000 is requested to complete this work.

5E. Salt River Pima-Maricopa Indian Community Project Change Request

The MAG Management Committee, by consent, recommended approval of the changes to the Salt River Pima-Maricopa Indian Community project as described, and for the related amendments and modifications to the FY 2011-2015 MAG Transportation Improvement Program, and as appropriate, to the Regional Transportation Plan 2010 Update. The Salt River Pima-Maricopa Indian Community (SRPMIC) requests to reprogram their FY 2013 PM-10 dirt road paving project due to external factors not within their control. The SRPMIC request includes revisions to the location of some sections to be paved to address actions taken by the utility company Salt River Project. The request includes dividing the project into right-of-way and construction phases to address right-of-way actions that were not discovered in the scoping of the project at the Arizona Department of Transportation (ADOT) when the Community made its initial deferral request, and deferring the construction phase of the project to FY 2015 to address time required by the Bureau of Indian Affairs to review right-of-way actions. This is the second request to defer the construction of the project since the adoption of the MAG Federal Fund Programming Guidelines and Procedures (Guidelines) on October 26, 2011. The Guidelines allow for only one project deferral, but through Section 900 Appeals Process, offer relief to allow the project sponsor to present their request through the MAG committee process. On September 11, 2012, the Street Committee recommended approval of the Community's request to revise the sections to be paved,

and to defer the project to FY 2015. A clarification on MAG right-of-way policy was requested before the recommendation to reduce \$1 million from the construction phase and program and \$1 million on the right-of-way phase of the project. On October 25, 2012, the Transportation Review Committee recommended approval.

5F. Conformity Consultation

The Maricopa Association of Governments is conducting consultation on a conformity assessment for an amendment and administrative modification to the FY 2011-2015 MAG Transportation Improvement Program (TIP). The amendment and administrative modification involve several projects, including revisions to several Arizona Department of Transportation Freeway Life Cycle projects, changes to Highway Safety Improvement Program projects, and changes to Safe Routes to School projects. The amendment includes projects that may be categorized as exempt from conformity determinations. The administrative modification includes minor project revisions that do not require a conformity determination. Comments were requested by November 30, 2012.

5G. Recommendation of Prioritized List of Proposed PM-10 Certified Street Sweeper Projects for FY 2013 CMAQ Funding

The MAG Management Committee, by consent, recommended approval of a prioritized list of proposed PM-10 Certified Street Sweeper Projects for FY 2013 CMAQ funding. The FY 2013 MAG Unified Planning Work Program and Annual Budget and the FY 2011-2015 MAG Transportation Improvement Program contain \$900,000 in FY 2013 Congestion Mitigation and Air Quality Improvement (CMAQ) funding to encourage the purchase and utilization of PM-10 Certified Street Sweepers. An additional \$346,973 in CMAQ is available from sweeper projects that have been requested to be deleted and from savings on sweepers that have cost less than anticipated, for a total amount of \$1,246,973. All of the six sweeper projects for FY 2013 may be funded with the \$1,246,973 in available CMAQ. On October 25, 2012, the MAG Air Quality Technical Advisory Committee (AQTAC) recommended a prioritized list of proposed PM-10 Certified Street Sweeper Projects for FY 2013 CMAQ funding. Prior to the AQTAC recommendation, the MAG Street Committee reviewed the proposed street sweeper applications on October 17, 2012, in accordance with the MAG Federal Fund Programming Guidelines and Procedures.

5H. Approval of Draft July 1, 2012 Maricopa County and Municipality Resident Population Updates

The MAG Management Committee, by consent, recommended approval of the draft July 1, 2012 Maricopa County and Municipality Resident Population Updates provided that the Maricopa County control total is within one percent of the final control total. MAG staff has prepared draft July 1, 2012 Maricopa County and Municipality Resident Population Updates. The Updates, which are used to prepare budgets and set expenditure limitations, were prepared using the 2010 Census as the base and updated with housing unit data supplied and verified by MAG member agencies. Because there may be changes to the Maricopa County control total by the Arizona Department of Administration, on October 30, 2012 the MAG Population Technical Advisory

Committee recommended approval of these draft Updates provided that the County control total is within one percent of the final control total.

5I. Maricopa County Resident Population and Employment Projections

The MAG Management Committee, by consent, recommended approval of the Maricopa County resident population and employment projections for 2010, 2015, 2020, 2025, 2030, 2035, and 2040 provided the Maricopa County control total is within three percent of the final control total. According to Executive Order 2011-04, the Arizona Department of Administration (ADOA) is responsible for preparing an official set of population projections for Arizona and each of its counties. ADOA has prepared a set of draft resident population projections for Maricopa County consistent with the 2010 Census. MAG has also developed draft employment projections which are consistent with the ADOA population projections. Because there may be changes to the State and county projections totals by ADOA, on October 30, 2012, the MAG POPTAC recommended approval of the draft ADOA 2010 to 2040 population projections for Maricopa County; and the draft 2010 to 2040 employment projections for Maricopa County provided the Maricopa County control total is within three percent of the final control total. The projections are for 2010, 2015, 2020, 2025, 2030, 2035, and 2040. They will be used as the control totals from which MAG will develop a set of sub-regional projections that will be brought to the Management Committee and Regional Council in 2013.

5J. Proposed 2013 Revisions to the MAG Standard Specifications and Details for Public Works Construction

The MAG Standard Specifications and Details Committee has completed its review of proposed revisions to the MAG Standard Specifications and Details for Public Works Construction. These revisions have been recommended for approval by the committee and are currently being reviewed by MAG member agency Public Works Directors and/or Engineers. It is anticipated that the new 2013 edition will be available for purchase in early January 2013.

6. Arterial Life Cycle Program Project Removal and Gilbert Road Light Rail Extension

Jorge Luna, MAG staff, stated that the City of Mesa is requesting to remove federal Surface Transportation Program (STP) funds from sixteen (16) Arterial Life Cycle Program (ALCP) projects and use the funding to design, purchase right-of-way, and construct a 1.9 mile light rail transit (LRT) extension on Main Street, from Mesa Drive to Gilbert Road. Since the funding stream that is associated with the 16 street projects does not align with the timing needed for the light rail construction, Mesa would provide interim funding using Transportation Project Advancement Notes (T-PAN), which would be paid back with federal STP funds. Mr. Luna stated that reimbursements to Mesa would be subject to any changes in the ALCP schedule.

Mr. Luna stated that the average daily ridership on the light rail system is 50,000, a number that exceeds the 20-year forecast. He stated that the Sycamore Station, which is the end of the light rail line in the East Valley, accounts for nearly ten percent of the light rail ridership and has seen a 16.3 percent increase in ridership between 2009 and 2011.

Mr. Luna stated that Gilbert Road provides a better end of line station than Mesa Drive because it provides better north/south access, is nearby downtown Mesa and has connections to Loop 202, SR-87, and the Santan Freeway. He noted that the average daily ridership for the Central Mesa extension, currently under construction, is projected at 4,500 and the Gilbert Road Extension is projected to add another 4,000 riders daily.

Mr. Luna explained that regional sales tax funds from Proposition 400 cannot be moved between programs but federal funds can be moved. For example, Surface Transportation Program (STP) funds can be used for a wide variety of projects, including transit projects. Mr. Luna stated that Mesa has identified federally funded, Mesa ALCP street projects that are low priority or are unlikely to be completed. He reported that Mesa will issue financing since project funding requirements and payments to Mesa will be subject to ALCP schedule adjustments.

Mr. Luna advised that the addition of a light rail extension of over one mile triggers the RTP Major Amendment Process under the statutory provisions of Proposition 400. He added that the removal of street projects does not trigger the RTP Major Amendment Process, which applies only to transit and freeways.

Mr. Luna stated that the ALCP projects proposed for deletion include Meridian Road, Higley Road Parkway, projects that are now the responsibility of a developer, or projects no longer needed in the timeframe of the ALCP.

Mr. Luna stated that the Meridian Road project borders the jurisdictions of Maricopa and Pinal Counties, and he added that there is little development on the Pinal County side of the street. He reported that the project is not needed in the planned time horizon due to a change in the rate and pattern of development, and additionally, there are major drainage issues east of Meridian Road.

Mr. Luna stated that the Higley Road Parkway project was originally envisioned as a north/south parkway. He said that the project proposed grade separated intersections, which would severely restrict access to businesses on Higley Road. In addition, constructability issues and neighborhood impacts make this project not feasible.

Mr. Luna stated that road projects on Guadalupe Road and Baseline Road would be the responsibility of developers. He noted that maps in the agenda packet show the configurations and reasons the projects were proposed to be deleted from the ALCP. Mr. Luna pointed out the unimproved areas and said that they anticipate that improvements to the roadway will be made by the developer when the adjacent land is developed. He noted that the economic downturn could not have been anticipated ten years ago.

Mr. Luna stated that Country Club and Brown intersection project was to be improved to provide three through lanes, however, Country Club is a six-lane roadway and Brown Road is a four-lane roadway near Country Club. Mr. Luna stated that MAG ran an analysis on this intersection with the current configuration and the results showed that improvements to the intersection are not needed due to low projected traffic volume.

Mr. Luna stated that another project is Thomas Road north of Loop 202, which borders in part the Salt River Pima-Maricopa Indian Community. He stated that improvements are not needed as there is no development nearby and low traffic volume is anticipated.

Mr. Luna stated that the Gilbert Road Light Rail Extension project cost estimate totals \$133 million (\$112 million in construction and \$21 million in interest). He advised that Mesa's cost responsibility will be \$7.2 million, which represents the 5.7 percent local match required for federally-funded projects, and will be covered by savings from other projects.

Mr. Luna stated that the Transportation Policy Committee and MAG Regional Council had taken action for approval of this request, which triggered consultation on the proposed Major Amendment. He advised that the Major Amendment process requires that formal votes be taken by the Maricopa County Board of Supervisors, the Regional Public Transportation Authority (RPTA), and the State Transportation Board. He stated that the cities, towns, Indian communities, and CTOC can submit comments but do not need to vote.

Mr. Luna stated that following the Major Amendment consultation, the item would be brought back to the MAG Management Committee, Transportation Policy Committee, and Regional Council for action in January 2013 to amend the Regional Transportation Plan and Transportation Improvement Program to incorporate the changes, pending air quality conformity. After the finding of conformity, action to amend the Regional Transportation Plan and Transportation Improvement Program is anticipated in February 2013.

Chair Cavazos thanked Mr. Luna for his report and asked members if they had questions.

Mr. McClendon asked if the \$7.2 million to be used for Mesa's local match from project savings was realized from projects in Mesa. Mr. Luna replied that was correct.

Vice Chair Isom read a statement into the minutes. "I understand this isn't before us for approval, as MAG Management's Approval is not part of the Major Amendment Process. So, I appreciate Dennis and MAG giving us an opportunity to provide comment. While I support this project and the concept for light-rail, my comments pertain to an associated process. If you recall back in October of 2011, we reviewed the guidelines for CMAQ funding. I expressed, then, my desire for greater City Council involvement in the application process and a City Council's ongoing involvement through a periodic resolution process in an effort to increase transparency in the Life Cycle Program. Subsequently, this past September 2012 we were asked to approve a Rebalancing of the Life Cycle Program, which effectively delayed projects in the ALCP without regard to jurisdictional priorities. Now, we are seeing a community state that sixteen (16) projects in the ALCP, valued in excess of \$153 million, are no longer a priority. For better or for worse this revelation moves me to request that the MAG Management Committee consider convening a new working group to review the guidelines, focusing on measures to increase awareness regarding a member agency's commitment to projects in the Life Cycle and other MAG programs. I believe there may be projects in the ALCP that are no longer a priority. For example, El Mirage dropped a trail project about a year ago. By eliminating these kinds of projects it may eliminate or lessen

the need to delay projects in the future.” Vice Chair Isom expressed support for light rail and this item.

Mr. Smith stated that the Guidelines used in the MAG process were presented by Eileen Yazzie approximately one year ago and one full cycle has been completed. He remarked that as with any process, it is a good idea to take another look, and a group of managers could be convened to review the guidelines and see if there is any tuneup that needs to be done. Mr. Smith stated that the City Council Resolution concept was brought up before, was fully vetted, and the decision was made not to take a city’s project all the way through its city council, especially in larger cities. He stated that the Management Committee has the authority to set up a group and if the committee wished, he would send out a memorandum to the Management Committee regarding convening a group to share their thoughts on the Guidelines and whether they need to be fixed.

Mr. Banta applauded Mesa for taking the opportunity to move funds and advance transit in the Valley. He said that he thought that everyone in these financial times needs to look closely at finances as we look to advance our infrastructure. Mr. Banta stated that he looked forward to expanding transit in the City of Mesa.

Mr. Brady stated that the City of Mesa tries to use its dollars in ways that make the most impact for the community. As Mesa evaluated its transportation system, it became obvious that some of the projects were far out in the future, on the edge of the city, or in areas where growth was anticipated but has been forestalled. Mr. Brady noted that the top boarding light rail station in the entire system is the end-of-the-line station in Mesa, and most of its riders are coming from the far eastern parts of the Valley. Mr. Brady stated that the residents are very excited about this opportunity. It has been vetted very publicly and was a council strategic initiative. Mr. Brady stated that Mesa feels very comfortable that this project is supported by the community and the city council. He stated that Mesa took the reductions when the ALCP program was rebalanced and took the opportunity to reprioritize. Mr. Brady stated that he was not saying those arterial projects would never be built, Mesa is just saying they will not be done in the near future. He stated that construction on the expansion could be underway even before construction is complete on the current project. Mr. Brady said that this project will benefit the entire system.

Mr. Smith stated that Mesa is taking the risk with this request and will be repaid when ALCP reimbursement was originally scheduled. If ALCP funding slides or federal funds are impacted, Mesa will have to figure out a way to pay its loan.

Mr. Ligocki stated at as part of the Major Amendment process, the Board of Supervisors will provide written comments as required statutorily. He said that the Board will discuss the amendment at an informal session on November 13 and is anticipated to make formal approval of the comments at the meeting on November 14.

Chair Cavazos stated that Mr. Smith would coordinate the process for this evaluation. He applauded Mesa for its innovation and creativity.

7. Intelligent Transportation Systems Strategic Plan 2012

Sarath Joshua, MAG staff, reported on the Intelligent Transportation Systems (ITS) Strategic Plan 2012, which was developed by the MAG ITS Committee. He noted that the committee is chaired by Debbie Albert, Glendale Traffic Engineer. Dr. Joshua stated that ITS refers to a number of technology applications that play a critical role in managing traffic and transportation systems. Dr. Joshua stated that the Plan will be used by the ITS Committee when making recommendations on projects for MAG funding, and plans and studies that will be included in the MAG Work Program.

Dr. Joshua stated that state and local agencies make significant contributions to ITS technologies and use the technology to manage traffic operations. He said that the key changes from the previous plan are the transition from projects to programs and emphasis areas, establishing ITS investment targets for TIP programming and addressing both regional and local ITS priorities.

Dr. Joshua stated that four focus areas for regional ITS investments were identified in the Plan: freeway operations, transit operations, arterial traffic operations, and arterial safety enhancements. He said that there are new concepts called Active Traffic Management and Integrated Corridor Management for achieving a higher level of coordination between freeways and arterials. Dr. Joshua stated that a pilot project is being planned for the Interstate 10 west corridor. He stated that the Plan recommends expanding NextRide information services and transit signal priority. Dr. Joshua stated that another new recommendation in the update is HAWK signals to improve safety for pedestrians while maintaining traffic flow.

Dr. Joshua stated that the Regional Transportation Plan includes about \$6 million per year for ITS projects. He said that the Plan has established the funding targets: 50 percent for Arterial ITS projects, 25 percent for Integrated Corridor Management projects, 20 percent for ITS projects for Safety, and five percent for local agencies' own ITS plans.

Dr. Joshua then reviewed the steps to implementing the ITS Strategic Plan, and the interaction between MAG and the agencies that utilize ITS. He explained about AZTech, a voluntary group that comes together to discuss traffic operations. Dr. Joshua stated that project ideas could originate at the AZTech forum and brought forward to the MAG ITS Committee. Dr. Joshua stated that the plan is based on executing the MAG role of planning for essential ITS technologies.

Chair Cavazos thanked Dr. Joshua for his report and asked members if they had questions.

Mr. Ligocki extended the compliments of the County to MAG staff on this plan. He said that there had been a lot of good dialogue and optimized relationships. Mr. Ligocki stated that the focus areas really made a lot of sense and the County's ITS specialists are very pleased.

Mr. Smith noted that Dr. Joshua is considered a national expert in the fields of ITS and safety and is often asked by the Federal Highway Administration to speak to national groups.

Mr. Crossman moved to recommend approval of the MAG ITS Strategic Plan 2012. Mr. Ligocki seconded, and the motion passed unanimously.

8. Solid Waste Best Practices in the MAG Region

Julie Hoffman, MAG staff, reported that at the October 12, 2011, MAG Management Committee meeting, members expressed interest in reconvening the MAG Solid Waste Advisory Committee to share ideas on best practices. She noted that since the first meeting was held in February 2012, the Committee has heard several presentations on successful solid waste projects and programs occurring within the region.

Ms. Hoffman stated that in August 2012, a questionnaire was distributed to the members of the MAG Management Committee requesting assistance in compiling a list of solid waste best practices. She said that a total of 31 best practices were submitted. Ms. Hoffman added that three best practices were just recently received, which will be incorporated into the best practices report following the meeting. She indicated that the report showcases the innovative programs being implemented by the MAG member agencies. Ms. Hoffman then reviewed the best practices.

Ms. Hoffman stated that Glendale, Phoenix, and Queen Creek have identified same day trash and recycling as a best practice. She said that Phoenix and Glendale have reported cost savings and route efficiencies by moving to same day pickup. Queen Creek has offered same day collection since it began its curbside program and has reported efficiencies such as street sweeping since bins are only out one day per week.

Ms. Hoffman discussed recycling programs identified in the report as best practices. She stated that the Scottsdale Commercial Recycling Program has resulted in a decrease in the amount of trash collected, for example, the Scottsdale Unified School District has reduced its trash collection from five days to three days with a goal of two days. Ms. Hoffman stated that last year, Wickenburg expanded its recycling program to curbside for residences and small businesses, and is in the process of expanding it to include multi-family units and larger commercial sites.

Ms. Hoffman stated that education and outreach are critical components of recycling programs. Avondale, Chandler, Mesa, Queen Creek, and Tempe have identified education and outreach efforts as best practices. She noted that many programs include informing students on the importance of managing waste through reducing, reusing, and recycling. Tempe has a program where they use a 32-foot trailer called the Education Recycling Information Center (ERIC) full of interactive displays. Avondale uses a cast of characters, including Bulk E. Pile, to educate, inform and encourage residents to be good stewards of the environment.

Ms. Hoffman stated that some cities have found different ways to divert materials from the landfills. The Chandler Trash to Treasure Program retrieves gently used items, many times brought in for disposal, and donates them to nonprofit organizations. Ms. Hoffman stated that the Goodyear Electronic Waste Recycling Program diverted 7.5 tons of material in the last fiscal year.

Ms. Hoffman reported on green waste diversion programs identified as best practices, which include the Goodyear Christmas Tree Drop-off Program, Litchfield Park Clean Up Day, Maricopa County Waste Diversion and Reuse Program, and the Tempe Green Waste to Compost Program.

Ms. Hoffman stated that one challenging aspect of solid waste is household hazardous waste. She noted that Chandler, Gilbert, Glendale, Goodyear, Litchfield Park, and Tempe have identified programs associated with household hazardous waste collection as best practices. Ms. Hoffman stated that Chandler, Gilbert, and Tempe have permanent facilities where 80-90 percent of materials collected are reused or recycled. She said that Goodyear and Litchfield Park work in cooperation with other West Valley communities to hold hazardous household waste collection events, and Glendale provides a home collection service for its residents.

Ms. Hoffman stated that there are also best practices included in the report associated with operations. For example, the Peoria Hydraulic Leak Prevention Plan has resulted in more than 200 days without a leak, a first for the Solid Waste Division; in Phoenix, Automatic Vehicle Location equipment provides real time data on operational activities; and the Salt River Pima-Maricopa Indian Community has identified safety, emergency, and special waste procedures at its landfill as best practices, which are critical to protecting the employees and public.

Ms. Hoffman discussed other innovative programs included in the report. She mentioned the Queen Creek Inspection Program for its trash and recycling bins. She noted that the Glendale Landfill Gas-to-Energy Facility uses the methane gas from decomposing trash to generate electricity for approximately 750 homes. Mesa has a partnership with the East Valley Institute of Technology for the refurbishment of Mesa's front-load bins by the Institute's welding students. Phoenix offers its Phoenix Bag Central Program at grocery stores to encourage residents to bring in their plastic bags, which cannot be recycled in the blue recycling bins.

Ms. Hoffman stated that the solid waste best practices demonstrate the great strides being made in the region to reduce the amount of materials being sent to landfills. She said the programs have really engaged the community in sustainable practices.

Ms. Hoffman then reviewed next steps for the Solid Waste Advisory Committee. She said that the Committee is looking at producing a recycling video showcasing the MAG member agencies and the programs provided. Ms. Hoffman stated that the Committee will also be working to obtain regional solid waste management statistics. She said when the Committee was reconvened, members took part in a survey, which showed they were interested in obtaining statistics on solid waste facilities and programs, recycling tonnage and acceptable materials, solid waste rates, and diversion rates.

Ms. Hoffman stated that MAG staff also held informal discussions in the East Valley and West Valley and spoke with the Solid Waste Advisory Committee Chair and Vice Chair regarding other areas for the Committee to discuss. Items mentioned that did not make the cut include: plastic bag bans; zero waste initiatives; pay-as-you-throw programs; and mandatory commercial recycling. However, these items are still under consideration. Ms. Hoffman asked members of the MAG Management Committee to contact MAG staff if they have any other issues for the Solid Waste Advisory Committee to address.

Ms. Hoffman concluded her presentation by expressing appreciation to the member agencies for their solid waste management efforts and for sharing their best practices. She added that input is welcome.

Chair Cavazos thanked Ms. Hoffman for her report. No questions from the committee were noted.

9. Early Phase Input Opportunity Report

Jason Stephens, MAG staff, reported on input received during the Early Phase Input Opportunity on the 2014-2018 draft listing of projects for the Transportation Improvement Program.

Mr. Stephens stated that MAG has an adopted four-phase public involvement process – early phase, mid phase, final phase and continuous involvement. This Early Phase provides residents with their initial opportunity to provide input into the Valley’s regional transportation plans and programs before MAG policy committees take action. Mr. Stephens stated that a new participation guide was recently developed that outlines MAG’s roles and responsibilities and is a roadmap for residents on how they can provide input into the planning process.

Mr. Stephens stated that during the early phase, MAG received public comment at its policy committees, as well as at small and large group presentations, and via a direct mailing. He advised that approximately 4,000 postcards were distributed to solicit input on the updated TIP and Plan. MAG received several responses for project suggestions related to safety, intelligent transportation systems, bicycle projects and dirt roads that were identified for paving. These suggestions were forwarded to member agency staff for consideration and are included in the report.

Mr. Stephens displayed a summary of questions/comments received during the Early Phase. He stated that during the mid and final phases of the public involvement process, residents are provided formal written responses. In the Early Phase, all input received was responded to either during the presentation or event, or responded to within 48 hours. Mr. Stephens noted that most of the comments were transit related, and they rarely receive freeway comments.

Chair Cavazos asked for clarification of the comment that sidewalks need to be relocated before developers start building. Mr. Stephens replied that the comment had been received through a telephone call and Mr. Stephens had passed it on to city staff but had not heard back. Chair Cavazos asked Mr. Stephens to let him know if further detail was received because he was trying to understand the comment.

10. Request for Future Agenda Items

Topics or issues of interest that the Management Committee would like to have considered for discussion at a future meeting were requested.

No requests were noted.

11. Comments from the Committee

An opportunity was provided for Management Committee members to present a brief summary of current events. The Management Committee is not allowed to propose, discuss, deliberate or take action at the meeting on any matter in the summary, unless the specific matter is properly noticed for legal action.

No comments were noted.

Adjournment

There being no further business, Mr. Hillman moved, Mr. Crossman seconded, and the meeting was adjourned at 1:00 p.m.

Chair

Secretary

January 8, 2013

TO: Members of the MAG Management Committee

FROM: Alice Chen, Transportation Planner II

SUBJECT: AMERICAN RECOVERY AND REINVESTMENT ACT PROJECT COMPLETION IN THE MAG REGION

The American Recovery and Reinvestment Act (ARRA) was passed by Congress and signed into law by President Obama in February 2009. As of December 2012, the State has expended 96.5 percent of state-apportioned ARRA funds. The deadline of September 2013 has been established for final completion of all ARRA projects. This memorandum is to inform the Management Committee of upcoming deadlines.

Any ARRA projects which have not yet been final vouchered must be paid out or reimbursed by the Federal Highway Administration (FHWA) by September 2013. Contracts that need to be adjusted/shortened should be discussed and cleared with FHWA in advance. Please refer to the table for critical deadlines.

Deadline	Action
4/15/2013	Arizona Department of Transportation (ADOT)-administered projects: ALL final documentation due from Districts/Project Managers to Field Reports. Certified Acceptance Agency (CA) -administered projects: ALL final documentation must be in to ADOT (final acceptance letter, invoices with all backup, as-builts and any other information needed to complete the final project voucher).
4/22/2013	CA-administered projects: Project review and approval completed by ADOT PMs and documentation transmitted to Contracts Payable.
5/6/2013	CA-administered projects: Processing completed by Contracts Payable and documentation transmitted to Final Voucher.
6/15/2013	ADOT-administered projects: Project Finals completed by Field Reports and transmitted to Contracts Payable.
7/15/2013	ADOT-administered projects: Processing completed by Contracts Payable and transmitted to Final Voucher.
9/1/2013	All ARRA projects: Final Vouchers completed and transmitted to FHWA.
9/15/2013	All ARRA projects: FHWA approves final vouchers and Financial Management Information System for 2013.

If you have any questions or concerns, please contact Lisa Danka, ADOT staff, at Ldanka@azdot.gov or me at achen@azmag.gov or 602-554-6300.

cc: Transportation Review Committee

MARICOPA ASSOCIATION OF GOVERNMENTS INFORMATION SUMMARY... for your review

DATE:

January 8, 2013

SUBJECT:

Proposed Major Amendment to the MAG Regional Transportation Plan to Add the Light Rail Transit Extension on Main Street: Mesa Drive to Gilbert Road

SUMMARY:

On October 24, 2012, the MAG Regional Council requested consultation on the proposed major amendment to the Regional Transportation Plan (RTP) to add a 1.9 mile light rail transit (LRT) extension on Main Street, from Mesa Drive to Gilbert Road. Formal comment on the proposed major amendment is required from the State Transportation Board, the Regional Public Transportation Authority (RPTA), and the Maricopa County Board of Supervisors. Cities and towns, Native American Indian communities, and the Citizens Transportation Oversight Committee (CTOC) may also provide comments. On November 16, 2012, the State Transportation Board recommended approval. On November 14, 2012, the Maricopa County Board of Supervisors recommended approval, and on November 15, 2012, the Regional Public Transportation Authority recommended approval of the proposed major amendment.

With this recommended approval, the air quality conformity analysis process and technical modifications to the Regional Transportation Plan (RTP) and the Transportation Improvement Program (TIP) can move forward. Once the analysis is complete, the results will move through the MAG Committee process in March and April 2013 for approval.

PUBLIC INPUT:

None.

PROS & CONS:

PROS: The Gilbert Road extension is forecast to significantly increase ridership on light rail by extending the end of line to Gilbert Road. Gilbert Road provides better access to light rail from the eastern portions of Mesa and the East Valley according to the analysis that was conducted as part of the Alternatives Analysis for the Mesa Drive extension that was a component of the Proposition 400 transit program.

CONS: The proposed action deletes funds from the Arterial Life Cycle Program (ALCP) which reduces the amount of federal highway funds available for street improvements. However, most of the street projects have been or will be completed as development occurs adjacent to the streets.

TECHNICAL & POLICY IMPLICATIONS:

TECHNICAL: The proposed action provides travel options to a broader population than the selected arterial street improvements that are being removed from the ALCP. Most of the street projects have been or will be completed as development occurs adjacent to the streets. The Higley projects are not

deemed feasible due to neighborhood concerns and have been determined by Mesa as not being a viable concept.

POLICY: The proposed amendment is a major amendment to the Regional Transportation Plan (RTP) since more than one-mile of fixed guideway transit is being added. The deletion of the projects from the ALCP are not subject to the major amendment requirements in state law for the RTP. The movement of federal highway funds from the ALCP to the transit program is a change in the RTP. Although the transfer of Proposition 400 sales funds between modes is not allowed under the terms of the proposition and state law, the transfer of federal highway funds is not subject to the same restriction.

ACTION NEEDED:

Recommend approval of the proposed major amendment to the Regional Transportation Plan to add a 1.9 mile light rail transit extension on Main Street, from Mesa Drive to Gilbert Road and that the Regional Transportation Plan and the FY 2011-2015 MAG Transportation Improvement Program be amended subject to the necessary air quality conformity analysis.

PRIOR COMMITTEE ACTIONS:

Regional Council: On October 24, 2012, the MAG Regional Council approved the (1) removal of federal Surface Transportation Program (STP) funds totaling \$153,366,043 (2011\$) from sixteen (16) Arterial Life Cycle Program (ALCP) projects and use the funding to reimburse costs associated with design, purchase of right-of-way, and construction of a 1.9 mile light rail transit (LRT) extension on Main Street, from Mesa Drive to Gilbert Road; (2) programming of federal STP funds to reimburse costs associated with the LRT Gilbert Road project which are contingent on federal funding revenue streams and subject to the ALCP financial program; and (3) consultation process with the State Transportation Board, the Maricopa County Board of Supervisors, the Regional Public Transportation Authority, the Indian Communities, the cities and towns in Maricopa County, and the Citizens Transportation Oversight Committee, as required by A.R.S. 28-6353, on the proposal to add a 1.9 LRT extension on Main Street, from Mesa Drive to Gilbert Road to the MAG Regional Transportation Plan 2010 Update and 2011-2015 MAG Transportation Improvement Program as appropriate, contingent on the finding of air quality conformity.

Dear Mr. Smith:

As set forth in Arizona Revised Statute (A.R.S.) 28-6353, the State Transportation Board by majority vote recommends approval of the proposed major amendment to the Regional Transportation Plan to add a 1.9 mile light rail transit (LRT) extension on Main Street from Mesa Drive to Gilbert Road. The State Transportation Board has no further comments on the proposed major amendment.

If you require any additional information or have questions please contact me at (602) 712-7550 or email at froehrich@azdot.gov.

Sincerely,

Floyd Roehrich, Jr, PE

November 14, 2012

The Honorable W.J. "Jim" Lane
Chair, Transportation Policy Committee
Maricopa Association of Governments
302 North 1st Avenue, Suite 300
Phoenix, AZ 85003

Dear Mayor Lane:

The Maricopa County Board of Supervisors appreciates this opportunity to comment on the proposed amendment to the Maricopa Association of Governments (MAG) Regional Transportation Plan (RTP), as described in Dennis Smith's November 1, 2012 letter.

The amendment, as requested by the City of Mesa, would remove federal funds (\$153.4 million) from sixteen Arterial Life Cycle Program (ALCP) projects and use the funding for a 1.9 mile light rail transit (LRT) extension on Main Street, from Mesa Drive to Gilbert Road. The funding that is associated with the sixteen ALCP projects does not align with the timing of the proposed light rail construction. The City of Mesa would provide interim funding using Transportation Project Advancement Notes (T-PANs) and would be reimbursed for its light rail expenditures (\$112 million) and interest expenses (estimated \$21 million) with federal funds in later years.

The Board understands that the removal of the sixteen ALCP projects is not a "major amendment" under state law (A.R.S. § 28-6301.7), but the 1.9 mile LRT

extension is a major amendment because it adds a fixed guideway transit system and is over one mile in length. Therefore, the Maricopa County Board of Supervisors, the Regional Public Transportation Authority (RPTA), and the State Transportation Board each must take action on the proposed LRT amendment to approve, modify, or disapprove the proposed change and provide MAG written notice of the action within 30 days. On October 24, 2012, the MAG Regional Council approved consultation regarding the proposed major amendment. The consultation period closes on December 5.

The Maricopa County Board of Supervisors respectfully submits the following comments:

- We accept the City of Mesa's justification for deleting the sixteen ALCP projects on the following basis: 1) projects that have been substantially completed and/or will be completed by adjacent property developers; 2) projects that are not deemed feasible due to concerns over neighborhood impacts; and 3) projects that are not needed in the planned time horizon due to a change in the rate and/or pattern of development.
- One of the deleted ALCP projects is Meridian Road from Germann Road to Baseline Road. Maricopa County currently maintains a one-half mile of road within this segment. The removal of regional funding from this road does not imply that Maricopa County will most likely complete the project with county funds. Future development will be expected to bear the cost of any such future road improvements. It is our expectation that the removal of regional funding from the sixteen ALCP projects will have no adverse impacts on Mesa's participation in other ALCP projects where Mesa and Maricopa County are funding partners pursuant to any intergovernmental agreement. The county values these partnerships with the city.
- We concur that MAG's deployment of the regional travel demand model without the sixteen ALCP projects has demonstrated the impact on overall system performance is minimal.
- We understand that the LRT extension is projected by the City of Mesa to add approximately 4,000 new riders to the light rail system.

- We understand that the City of Mesa views the LRT extension as a higher priority than the ALCP projects at this time and that this reprogramming of funds has received strong public support in the Mesa community. It is important that continuing public input and support be received for this significant amendment as it continues to advance through the process.

Therefore, at this time the Maricopa County Board of Supervisors agrees with the proposed amendment and recommends approval.

The Board looks forward to consultation on issues affecting the MAG Regional Transportation Plan. We compliment MAG on its attention to the RTP amendment and review processes outlined in state law as well as MAG's efforts to manage life cycle costs associated with the RTP.

Sincerely,

A handwritten signature in black ink that reads "Max Wilson". The signature is written in a cursive style with a large, prominent "M" and "W".

Max Wilson, Chair

Maricopa County Board of Supervisors

RE: Major Amendment to the Regional Transportation Plan – Light Rail Transit
Extension from Mesa Drive to Gilbert Road in Mesa, AZ

Dear Mr. Smith:

Please find attached Resolution 2012-02 passed by the Regional Public Transportation Authority Board (RPTA) on November 15, 2012 recommending that the Maricopa Association of Governments (MAG) Regional Council approve the major amendment to the Regional Transportation Plan (RTP) to extend light rail transit (LRT) from Mesa Drive to Gilbert Road. We request that you forward this action to the MAG Transportation Policy Committee (TPC) to consider as part of its recommendation to the Regional Council.

Valley Metro looks forward to a positive recommendation to amend the RTP in order to begin the development of the Gilbert Road extension of LRT. We are currently under construction on the Central Mesa LRT project that extends the current end-of-line operation of the 20-mile system at Sycamore Road to Mesa Drive. The construction schedule for that extension calls for operation to begin in early 2016, although we anticipate an earlier completion. A positive recommendation would likely result in construction of the Gilbert Road extension beginning prior to the opening of the Central Mesa extension providing additional jobs to the region.

As stated in the attached Resolution, advancing public transportation is critical to the future economic vitality of the region and is an essential component of the transportation network in the valley.

Sincerely,

A handwritten signature in black ink, appearing to read 'S. Banta', written over a faint, larger signature.

Stephen R. Banta
Chief Executive Officer

Attachment: RPTA Resolution 2012-02

Valley Metro Regional Public Transportation Authority
1100 North Central Avenue, Suite 100
Mesa, Arizona 85201-1100

**RESOLUTION 2012-02
A RESOLUTION OF THE
VALLEY METRO REGIONAL PUBLIC TRANSPORTATION AUTHORITY
REGARDING THE MAJOR AMENDMENT TO THE REGIONAL TRANSPORTATION PLAN
EXTENDING THE LIGHT RAIL CORRIDOR EAST ON MAIN STREET TO GILBERT ROAD**

WHEREAS, Valley Metro Rail, Inc. completed an Alternatives Analysis of a high capacity corridor along Main Street in Mesa that recommended light rail as the preferred technology extending from Mesa Drive to Gilbert Road; and

WHEREAS, Maricopa Association of Governments adopted the Locally Preferred Alternative for the corridor to Mesa Drive and the extension to Gilbert Road as an unfunded illustrative project in the Regional Transportation Plan; and

WHEREAS, the City of Mesa has developed a financial plan to fund the design, construction and operation of the extension from Mesa Drive to Gilbert Road, and

WHEREAS, the extension to Gilbert Road requires a major amendment to the Regional Transportation Plan pursuant to A.R.S. 28-6301.7(b); and

WHEREAS, Maricopa Association of Governments Transportation Policy Committee has recommended approval of the major amendment and beginning a thirty day review period pursuant to A.R.S. 28-6353.E.2; and

WHEREAS, A.R.S. 28-6353.E.2 requires the Board of Directors of the Regional Public Transportation Authority, by a majority vote of the members, to submit a written recommendation to the Transportation Policy Committee that the proposed amendment be approved, modified or disapproved; and

WHEREAS, the development and expansion of public transportation is critical to the future economic vitality of the region and is an essential component of the transportation network in the valley;

NOW THEREFORE BE IT RESOLVED, that the Valley Metro Regional Public Transportation Authority's Board of Directors recommends that the Maricopa Association of Governments Transportation Policy Committee approve the major amendment to the Regional Transportation Plan extending light rail in Mesa east on Main Street to Gilbert Road.

Passed and Adopted by the Valley Metro Regional Public Transportation Authority Board of Directors this 15th day of November, 2012.

Ron Aames, Chairman
Board of Directors
Valley Metro Regional Public Transportation Authority

December 3, 2012

Mr. Dennis Smith
Executive Director, MAG
Maricopa Association of Governments
302 North First Avenue, Suite 300
Phoenix, AZ 85003

Dear Mr. Smith:

The proposed major amendment to the Regional Transportation Plan to add a 1.9 mile Light Rail Transit (LRT) extension on Main Street from Mesa Drive to Gilbert Road to the MAG Regional Transportation Plan - 2010 Update, and the 2011-2015 MAG Transportation Improvement Program was presented to the Citizen's Transportation Oversight Committee during a Special Telephonic meeting on Thursday, November 27, 2012.

The Committee motioned that they supported the proposed major amendment which would remove federal Surface Transportation Program (STP) funds totaling \$153,366,043 from sixteen Arterial Life Cycle Program (ALCP) projects and use the funding to reimburse costs associated with design, purchase of right-of-way, and construction of a 1.9 mile Light Rail Transit extension on Main Street, from Mesa Drive to Gilbert Road; program federal STP funds to reimburse costs associated with the LRT Gilbert Road project which are contingent on federal funding revenue streams and subject to the ALCP financial program; and CTOC is grateful for being consulted with as required by A.R.S. 28-6353, on the proposal to add a 1.9 mile LRT extension on Main Street, from Mesa Drive to Gilbert Road to the MAG Regional Transportation Improvement Program as appropriate, contingent on the finding of air quality conformity.

Sincerely,

Roc Arnett, Chairman
Citizens Transportation Oversight Committee

MARICOPA ASSOCIATION OF GOVERNMENTS

INFORMATION SUMMARY... for your review

~Revised~

DATE:

January 10, 2013

SUBJECT:

MAG Federally Funded Locally Sponsored Project Development Status Report and Project Changes

SUMMARY:

Since the MAG Management Committee agenda was mailed on January 8, 2013, through cost savings, project cancellations, and an increase in allocations from MAP-21, \$645,000 in Highway Safety Improvement Program (HSIP) funds are available for programming in FY 2013.

Table D contains Highway Safety Improvement Program (HSIP) projects that are being advanced from FY 2014 to FY 2013. MAG receives approximately \$1 million per year in federal HSIP funds from ADOT that are allocated to qualifying local agency safety projects. One HSIP project was deemed ineligible for the HSIP funding and will be deleted from the FY 2011-2015 MAG Transportation Improvement Program. The list of projects was recommended for approval by the MAG Safety Committee on January 8, 2013. The proposed advancement of the FY 2013 safety projects listed in Table D will enable MAG to fully program the FY 2013 HSIP allocation to the region which would otherwise revert back to the statewide HSIP pool.

The MAG Federal Fund Programming Guidelines & Procedures, approved by the MAG Regional Council on October 26, 2011, outline the requirements for local agencies to submit status information on the development of their federal funded projects. A Project Development Status Report is produced twice each year, and project changes are completed quarterly or as needed. Additional project change requests have been included for ADOT, Transit, Arterial Life Cycle and Safety projects.

The Project Development Status Report, December 2012, focuses mainly on projects funded with Congestion Mitigation and Air Quality (CMAQ) funds that are programmed to obligate in federal fiscal year (FFY) 2013 and FFY 2014, with updates to three FFY 2012 projects that did not obligate as expected in FFY 2012, and two were deferred to FFY 2014. The Project Development Status workbook (Workbook) that was sent to member agencies required that a project development schedule be completed and project change requests could be requested. Based on information submitted by local agencies, information at times was cross checked with the Arizona Department of Transportation (ADOT) Local Government section for feasibility, and further inquiries were made by MAG staff as appropriate.

The Project Development Status Report notes that of the 33 projects programmed to obligate in FFY 2013, one project (PEO13-902) has requested to defer to FFY 2014, one project has

requested to be deleted (SUR12-817), and 32 projects will, by June 30, 2013, successfully submit to ADOT for federal obligation, including one FFY 2012 deferral.

The Project Development Status Report notes that of the 42 projects programmed to obligate in FFY 2014, three projects are requesting a deferral to a later year, two are requesting to be deleted (FTH11-701 and CVK07-601C), several are requesting a project change in local costs, one will request project changes in January 2013 after project limits are redefined, and 39 projects are expected to obligate in FFY 2014 based on the schedules submitted, or if the schedules submitted are modified based on notes in the current report for the December 2012 Project Development Status Report. MAG has received FFY 2014 project commitment letters from member agencies stating that their Tier 1 milestones will be met for obligation by June 30, 2013.

Included in the Table A project change sheet are the requested changes as they relate to the Project Development Status Report. Additionally, ADOT requested a project change to address a settlement for right-of-way, and administrative corrections have been included. Table B contains a Transit project change from a FFY 2012 State of Good Repair grant award. During an analysis of the database and previous Regional Council actions, several administrative corrections are required to the FY2011-2014 TIP that relate to the approved ALCP and have been included in the Table C project change sheet. Table C contains minor administrative corrections to the ALCP program.

Items that have changes or additions since Transportation Review Committee recommended the project changes have been tinted in yellow.

Table D was added after the Transportation Review Committee met on December 13, 2012, and after the Management Committee agenda was mailed out on January 8, 2013.

PUBLIC INPUT:

None has been received.

PROS & CONS:

PROS: Approval of this Project Development Status Report will allow the projects to proceed in a timely manner in the year that best fits their project development schedule and will complete Tier 1 of the Federal Project Development Process & Dynamic TIP Process for Nov/Dec 2012. Approval of this amendment will allow the Tier 2, Dynamic TIP Process to continue (see Tier 2 attachment for requirements). An update of any additional Tier 2 requests will be provided at the meeting.

CONS: There is no guarantee that sufficient funds will be available in the following fiscal year to cover any or all of the deferred projects should congress fail to authorize a funding level of Obligation Authority that can meet programming levels.

TECHNICAL & POLICY IMPLICATIONS:

TECHNICAL: The Project Development Status Report documents projects in the current year and upcoming years in order to track project development, identify problems, and make decisions to ensure federal funds are fully used each year. This report also aids the region in making decisions to keep projects in the current year, defer, advance, or delete them from the program. The action for this item includes the necessary amendments or administrative adjustments to the

FY 2011-2015 MAG TIP, and Regional Transportation Plan as appropriate to allow the projects to proceed.

POLICY: This Status Report follows the process explained in the approved MAG Federal Fund Programming Guidelines.

ACTION NEEDED:

Recommend approval of federal fund projects to be deferred, deleted, and changed; and approval of the necessary amendments and administrative modifications to the FY 2011-2015 MAG Transportation Improvement Program, and as appropriate, to the Regional Transportation Plan 2010 Update.

PRIOR COMMITTEE ACTIONS:

The project changes in Table D of this item were recommended for approval on January 8, 2013, by the MAG Safety Committee.

PROJECT STATUS REPORT December 2012

Maricopa Association of Governments

302 N. 1st Ave., Suite 300

Phoenix, AZ 85003

Phone: 602-254-6300

Printed: Friday, December 14, 2012

Purpose and Scope

This report was developed pursuant to the MAG Federal Programming Guidelines as approved on October 26, 2011 by the MAG Regional Council. It is required that project sponsors provide MAG with schedules that show clearly when key milestones are to be achieved and an overall project timeline with periodic reporting that demonstrates that the sponsoring agency is making progress in achieving these milestones.

These requirements apply to a two year moving window of projects in the MAG Transportation Improvement Program that are outside the three 20-year life-cycle programs and that are funded with federal Congestion Mitigation Air Quality (CMAQ) or sub allocated urbanized area Surface Transportation Program (MAG-STP) funds. The June report contains current fiscal year follow up information for the end of year closeout.

The data for this report was collected in November, 2012 and is the third round collected under the Guidelines. It includes only CMAQ funded projects that were programmed in federal fiscal years 2013, 2014, and requests to defer to 2015. No freeway, transit or arterial life-cycle program projects are included in this report.

Project Milestones and Project Deferrals

The implementation of the Guidelines was phased in during the October 2011 data collection for the January Report, and an extensive effort to reprogram projects was completed. As a result of this, many of the project schedules that were modified are now on track and the region has greatly reduced the number of deferrals. Because of this, the project schedules shown in this report include very few cases of projects failing to meet key deadlines. It is anticipated that with the completion of the December 2012 data collection effort that all project schedules will be reviewed and updated to meet key milestones per the MAG Federal Programming Guidelines.

Data Descriptions

Project Information Columns:

1. First Column: This column identifies the project sponsor, the identification number in the MAG Transportation Improvement Program of the project and the Federal Fiscal Year the project is programmed.
2. Location Cell: The location of the project as it appears in the MAG Transportation Improvement Program.
3. Work Cell: The work to be performed for the project as defined in the MAG Transportation Improvement Program.
4. Project Type Cell: This is the type of work to be performed by the projects. These types include: Design, Right-of-Way, Construction and Procurement.
5. Design Process Cell: This indicates whether the design is funded from federal sources. If design is federally funded, a project may not proceed beyond 30 percent plans without an environmental clearance. If the design is locally funded, it may proceed beyond 30 percent plans without an environmental clearance, but may risk substantial revision due to mitigation measures identified in the environmental clearance.
6. Environmental Clearance Cell: The type of environmental clearance anticipated for the project. The actual type of environmental clearance required is determined in the early stages of the design process.
7. CMAQ Cell: The amount of CMAQ funds programmed in the MAG Transportation Improvement Program for the project.
8. Total Cell: The total local and federal funds programmed for the project in the MAG Transportation Improvement Program.

Project Scheduling Information Columns:

1. Design Columns:
 - a. Start Column: The date that design work on the project is to begin.

- b. 60% Plans Started Column: The date that work on “60 percent plans” began or is anticipated to begin. This field is not applicable for Right-of-Way, procurement or design projects.
- c. PS&E Completed Column: This is the final plans for the project. For procurement projects this amounts to the specifications, estimates and deployment plan needed to procure equipment and services using federal funds. This is not applicable for design projects.

2. Environmental Columns:

- a. Tech Docs Started Column: This refers to the date work on the technical documents (hazardous materials, cultural and biological surveys) for the environmental clearance has begun or is expected to begin. This is not applicable for design and procurement projects as this level of analysis is not needed for the environmental clearance. In most cases, it is also not required for right-of-way projects as these studies are completed as part of the design for the overall project.
- b. Clearance Approved Column: The date the environmental clearance for the project is expected to be approved.

3. Right-of-Way Columns:

- a. Inventory Started Column: This is the date that right-of-way inventory began or is expected to begin. This field is not applicable for procurement and design projects and some construction projects that require no right-of-way.
- b. Clearance Approved: The date that the right-of-way clearance was approved or expected to be approved.

4. IGA Approval Column:

The date that the IGA was approved or is expected to be approved for the project. This is not applicable for agencies that are self-certified to manage the federal design and construction process. These agencies include the Cities of Chandler, Phoenix, Scottsdale and Tempe, and Maricopa County.

5. FHWA Authorization Column:

The date that a federal funding for a project was or is expected to be approved by the Federal Highway Administration. No work performed on a project is eligible for federal reimbursement prior to the date of authorization.

Notes Colum: The cells in this column contain a note about the project.

Target Dates Row:

The cells in this row identify key dates that are to be achieved for the project to continue in the MAG Transportation Improvement Program and to receive federal funding. They vary by project type (e.g. construction, procurement, etc.), the year the project is programmed and the work activity identified for the column they are located in.

Agency Schedule Rows:

- 1. Initial Row: The dates provided for the initial status report for the project.
- 2. Current Row: The dates provided for the most recent information provided for this report.

Schedule Status Rows:

- 1. Months Ahead Row: The number of months that the current schedule is ahead of the initial schedule provided.
- 2. Months Behind Row: The number of months that the current schedule is behind the initial schedule provided.
- 3. Expected Date Row: The date the project is expected to achieve a milestone.
- 4. Will Meet Target Dates Row: This indicates whether the milestone is expected to meet target deadlines. A checkmark indicates that it is expected to meet the target deadline.

Project Status Report (Sorted by Agency, Year and Project Type)

Project Information			Project Scheduling Information										Notes

December 5, 2012

TO: Members of the Transportation Review Committee
FROM: Teri Kennedy, Transportation Improvement Program Manager
SUBJECT: TIER 2 - FEDERAL FISCAL YEAR (FFY) 2013 DINAMIC TIP PROCESS

On July 6, 2012, a new surface transportation authorization act was signed; Moving Ahead for Progress in the Twenty first Century (MAP-21). Under MAP-21 many programs and funding levels changed. MAG staff postponed the summer closeout of FFY2013 CMAQ projects until clarification of funding levels and eligibility was published by ADOT and FHWA. MAG has received preliminary FHWA funding projections in late November, and is able to move forward at this time in FFY2013 CMAQ Closeout utilizing the Dynamic TIP Process.

The Maricopa Association of Governments Regional Council approved the MAG Federal Fund Programming Guidelines & Procedures on October 26, 2011. Requirements of the 500.3- Step 5: Federal Project Development Process & Dynamic TIP Process. Tier 2 of the process is as follows:

- **Tier 2** – CMAQ projects programmed in the TIP that are not in the (current) fiscal year but could be advanced to obligate in the (current) fiscal year FY2013. Projects in this category have second priority overall. Priority in the category will be based on completed milestones.
 - a. For Tier 2 construction projects (currently programmed in FY2014 or FY2015) to be advanced into the current fiscal year FY2013, it is required that three milestones are met:
 - i. Environmental clearance approved if the project is federally funded, otherwise the environmental clearance have been submitted.
 - ii. Completed 60% Design/Engineering plans
 - iii. For right of way purchases, properties are inventoried and appraisals are completed
 - b. For procurement projects to be included in Tier 2, it is required that the environmental, right-of-way and project scoping documents needed to obtain the related clearance have been submitted.

- c. The project sponsor **is required to submit a letter signed by the sponsor agency engineer** for construction projects that design plans are at 60%, the date that the environmental clearance was approved or submitted depending on the funding used to design the project, and a letter that certifies that the right of way (if applicable) is underway with properties inventoried. For procurement projects the letter is to identify the dates that submittals were made for the scoping document, the environmental clearance document and the right-of-way clearances document. This information **is due to MAG by January 4th, 2013** (for summation and evaluation) at the January TRC meeting.
 - i. At the January TRC meeting, project milestone information will be presented, discussed, and recommendation to move Tier 2 projects into the upcoming federal fiscal year of the TIP.
 - ii. Recommendations from TRC move forward to Management Committee and Regional Council in February.

The request to advance FFY 2014 and FFY2015 project(s) to FFY 2013 is to be printed on member agency letterhead and signed by the sponsor agency engineer. MAG staff is available to help with information and questions regarding the Federal Fund Project Commitment Letter Requirements. Please contact Steve Tate at state@azmag.gov or (602) 254-6300.

INFORMATION SUMMARY... for your review

DATE:

January 8, 2013

SUBJECT:

Recommendation of Projects for the FY 2013 Traffic Signal Optimization Program

SUMMARY:

A formal request for projects for the FY 2013 Traffic Signal Optimization Program (TSOP) was announced by MAG on October 25, 2012. The available TSOP budget in the FY 2013 MAG Work Program is \$243,000, which is carried over from FY 2012. Ten (10) project applications were received for signal timing improvements at 176 intersections in seven jurisdictions. The cost of the ten (10) TSOP projects is estimated at \$243,000, including the evaluation of before-and-after conditions to identify improvements to traffic flow made by selected projects. All recommended projects will be carried out using ten (10) qualified on-call consultants under contract with MAG.

Since its inception in 2004, the MAG Traffic Signal Optimization Program (TSOP) has successfully completed fifty projects that improved traffic signal timing at more than 600 intersections across the region. Projects launched through this program provide technical assistance to member agencies for improving traffic signal coordination, optimization and review of operations through simulation modeling. Technical assistance is provided by consultants under contract with MAG for on-call consulting services.

Traffic signal optimization is one of the most cost-effective ways to improve traffic movement and make our streets safer and efficient. Signal optimization is performed for any or all of the following reasons:

- To adjust signal timing to account for changes in traffic patterns due to new developments and traffic growth
- To reduce motorist frustration and unsafe driving by reducing stops and delay
- To improve traffic flow through a group of signals, thereby reducing emissions and fuel consumption
- To postpone the need for costly long-term road capacity improvement by improving the traffic flow using existing resources

Signal optimization projects have been found to produce benefit to cost ratios as high as 40 to 1. This program, enthusiastically championed by the Intelligent Transportation Systems Committee, provides traffic engineering assistance for refining signal operations across the MAG region. A typical TSOP project costs around \$25,000. These projects do not require a local match.

PUBLIC INPUT:

None.

PROS & CONS:

PROS: The proposed TSOP projects, when implemented, will result in improved traffic operations and reductions in gasoline consumption and vehicular emissions.

CONS: None.

TECHNICAL & POLICY IMPLICATIONS:

TECHNICAL: It is essential that local agency technical staff assist in coordinating the execution of these projects by the designated MAG on-call consultant. The projects that would only gather traffic data will involve a follow-up activity by local agency staff, in utilizing the traffic data to implement signal timing improvements. This will require coordination staff participation.

POLICY: None.

ACTION NEEDED:

Recommend approval of the list of FY 2013 Traffic Signal Optimization Program projects.

PRIOR COMMITTEE ACTIONS:

MAG Transportation Review Committee: On December 13, 2012, the MAG Transportation Review Committee recommended approval of the proposed list of TSOP projects.

January 8, 2013

TO: Members of the MAG Management Committee

FROM: Dean Giles, Air Quality Planning Program Specialist

SUBJECT: STATUS OF REMAINING MAG APPROVED PM-10 CERTIFIED STREET SWEEPER PROJECTS THAT HAVE NOT REQUESTED REIMBURSEMENT

A status report is being provided on the remaining PM-10 certified street sweeper projects that have received approval, but have not requested reimbursement (see attached table). To assist MAG in reducing the amount of obligated federal funds carried forward in the MAG Unified Planning Work Program and Annual Budget, MAG is requesting that street sweepers be purchased and reimbursement be requested by the agency within one year plus ten calendar days from the date of the MAG authorization letter.

At the June 10, 2009 MAG Management Committee meeting, discussion took place on the implications of delaying the expenditure of MAG Federal Funds. In addition to projects listed in the Transportation Improvement Program, street sweepers were given as an example.

In some cases approved sweeper projects have taken up to three years to request reimbursement. The delay in requesting reimbursement for street sweepers results in obligated federal funds being carried forward in the MAG Unified Planning Work Program and Annual Budget. The Federal Highway Administration has expressed concern regarding the amount of obligated funds being carried forward in the Work Program. To assist MAG member agencies in tracking the purchase of approved sweepers, periodic updates will be provided on the status of the reimbursement requests.

The purchase of PM-10 certified street sweeper projects supports the measure "PM-10 Efficient Street Sweepers" in the Revised MAG 1999 Serious Area Particulate Plan for PM-10. In addition, the MAG 2012 Five Percent Plan for PM-10 includes PM-10 Certified Street Sweepers. Also, it is important to note that for the conformity analysis for the Transportation Improvement Program and Regional Transportation Plan, MAG only takes emission reduction credit for approved street sweeper projects that have received reimbursement.

If you have any questions, please call me at (602) 254-6300.

MARICOPA ASSOCIATION OF GOVERNMENTS INFORMATION SUMMARY... for your review Revised

DATE:

January 10, 2013

SUBJECT:

Conformity Consultation

SUMMARY:

The Maricopa Association of Governments is conducting consultation on a conformity assessment for an amendment and administrative modification to the FY 2011-2015 MAG Transportation Improvement Program (TIP). The amendment and administrative modification involve several projects, including revisions to projects for Fountain Hills, Glendale, Goodyear, Mesa, Peoria, Phoenix, and Youngtown. The amendment includes projects that may be categorized as exempt from conformity determinations. The administrative modification includes minor project revisions that do not require a conformity determination.

Since the MAG Management Committee agenda was mailed on January 8, 2013, seven Highway Safety Improvement Program projects have been added to the project change list. A description of the projects is provided in the revised interagency consultation memorandum. Comments on the conformity assessment are requested by January 25, 2013.

PUBLIC INPUT:

Copies of the conformity assessment have been distributed for consultation to the Federal Transit Administration, Federal Highway Administration, Arizona Department of Transportation, Arizona Department of Environmental Quality, City of Phoenix Public Transit Department, Valley Metro/RPTA, Maricopa County Air Quality Department, Central Arizona Association of Governments, Pinal County Air Quality Control District, U.S. Environmental Protection Agency and other interested parties including members of the public.

PROS & CONS:

PROS: Interagency consultation for the amendment and administrative modification notifies the planning agencies of project modifications to the TIP.

CONS: The review of the conformity assessment requires additional time in the project approval process.

TECHNICAL & POLICY IMPLICATIONS:

TECHNICAL: The amendment and administrative modification may not be considered until the consultation process for the conformity assessment is completed.

POLICY: Federal transportation conformity regulations require interagency consultation on development of the transportation plan, TIP, and associated conformity determinations to include a process involving the Metropolitan Planning Organization, State and local air quality planning agencies, State and local transportation agencies, Environmental Protection Agency, Federal Highway Administration, and the Federal Transit Administration. Consultation on the conformity assessment has been conducted in accordance with federal regulations, MAG Conformity Consultation Processes adopted by the Regional Council in February 1996 and MAG Transportation Conformity Guidance and Procedures adopted by the Regional Council in March 1996. In addition, federal guidance is followed in response to court rulings regarding transportation conformity.

ACTION NEEDED:

Consultation.

PRIOR COMMITTEE ACTIONS:

None.

SUBJECT: CONSULTATION ON A CONFORMITY ASSESSMENT FOR A PROPOSED
AMENDMENT AND ADMINISTRATIVE MODIFICATION TO THE FY 2011-2015
MAG TRANSPORTATION IMPROVEMENT PROGRAM

We are providing notification that additional project information was received since mailing the January 8, 2013 memorandum for consultation on a conformity assessment for an amendment and administrative modification to the FY 2011-2015 MAG Transportation Improvement Program (TIP). Seven Highway Safety Improvement Program projects have been added to the list on page twelve. The Highway Safety Improvement Program projects are considered to be exempt from conformity. A new table with the additional projects is attached. The conformity status of the TIP and Regional Transportation Plan 2010 Update would remain unchanged.

If you have any questions or comments, please contact me at (602) 254-6300.

SUBJECT:

Status Update on the June 30, 2012 Single Audit and Management Letter Comments, MAG's Comprehensive Annual Financial Report and OMB Circular A-133 Reports (i.e., "Single Audit") for the Fiscal Year Ended June 30, 2012

SUMMARY:

The accounting firm of CliftonLarsonAllen LLP has completed the audit of MAG's Comprehensive Annual Financial Report (CAFR) and Single Audit for the fiscal year ended June 30, 2012. An unqualified audit opinion was issued on November 12, 2012, on the financial statements of governmental activities, the aggregate discretely presented component units, each major fund and the aggregate remaining fund information. The independent auditors' report on compliance, with the requirements applicable to major federal award programs, expressed an unqualified opinion on the Single Audit. The Single Audit report indicated there were no reportable conditions in MAG's internal control over financial reporting considered to be material weaknesses, no instances of noncompliance considered to be material and no questioned costs. The Single Audit report had no new or repeat findings.

The CAFR financial statements and related footnotes were prepared in accordance with the Government Finance Officers Association's (GFOA) standards for the Certificate of Achievement for Excellence in Financial Reporting awards program. Management intends to submit the June 30, 2012 CAFR to the GFOA awards program for review. If awarded the certificate for the June 30, 2012 CAFR, this would be the agency's 15th consecutive award.

PUBLIC INPUT:

None has been received.

PROS & CONS:

PROS: MAG is required by its By-Laws and federal regulations to have an audit performed for all major federal programs on an annual basis. The audit must be performed in compliance with the provisions described in the U.S. Office of Management and Budget ("OMB") Circular A-133, Audits of States, Local Governments, and Non-Profit Organizations.

CONS: None.

TECHNICAL & POLICY IMPLICATIONS:

TECHNICAL: LarsonAllen, LLP conducted the audit in accordance with Generally Accepted Auditing Standards (GAAS), and the standards applicable to financial audits contained in the Government Audit Standards, issued by the Comptroller General of the United States and the provisions of OMB Circular A-133. For the year ended June 30, 2012, the audit report indicates that MAG conducted its activities

in conformance with the laws and regulations governing federal financial assistance programs and according to Generally Accepted Accounting Principles (GAAP).

POLICY: Pursuant to Article 12, Section 5 of the MAG By-Laws, the annual audit must be presented to the Regional Council.

ACTION NEEDED:

Recommend acceptance of the audit opinion issued on the MAG Comprehensive Annual Financial Report and Single Audit Report for the year ended June 30, 2012.

PRIOR COMMITTEE ACTIONS:

None.

Management and the Regional Council
Maricopa Association of Governments
Phoenix, Arizona

We have audited the financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of Maricopa Association of Governments (MAG) for the year ended June 30, 2012, and have issued our report thereon dated November 12, 2012. Professional standards require that we provide you with the following information related to our audit.

Our responsibility under U.S. Generally Accepted Auditing Standards and OMB Circular A-133

As stated in our engagement letter dated May 15, 2012, our responsibility, as described by professional standards, is to express opinions about whether the financial statements prepared by management with your oversight are fairly presented, in all material respects, in conformity with U.S. generally accepted accounting principles. Our audit of the financial statements does not relieve you or management of your responsibilities.

In planning and performing our audit, we considered MAG's internal control over financial reporting in order to determine our auditing procedures for the purpose of expressing our opinions on the financial statements and not to provide assurance on the internal control over financial reporting. We also considered internal control over compliance with requirements that could have a direct and material effect on a major federal program in order to determine our auditing procedures for the purpose of expressing our opinion on compliance and to test and report on internal control over compliance in accordance with OMB Circular A-133.

As part of obtaining reasonable assurance about whether MAG's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grants, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit. Also in accordance with OMB Circular A-133, we examined, on a test basis, evidence about MAG's compliance with the types of compliance requirements described in the "U.S. Office of Management and Budget (OMB) Circular A-133 Compliance Supplement" applicable to each of its major federal programs for the purpose of expressing an opinion on MAG's compliance with those requirements. While our audit provides a reasonable basis for our opinion, it does not provide a legal determination on MAG's compliance with those requirements.

1. Our responsibility is to plan and perform the audit to obtain reasonable, but not absolute, assurance that the financial statements are free of material misstatement.
2. We are responsible for communicating significant matters related to the audit that are, in our professional judgment, relevant to your responsibilities in overseeing the financial reporting process. However, we are not required to design procedures specifically to identify such matters.

Planned scope and timing of the audit

We performed the audit according to the planned scope and timing previously communicated to you in our meeting about planning matters on October 10, 2012.

An independent member of Nexia International

Significant audit findings

Qualitative aspects of accounting practices

Management is responsible for the selection and use of appropriate accounting policies. The significant accounting policies used by MAG are described in Note 1 to the financial statements. No new accounting policies were adopted and the application of existing policies was not changed during the year.

We noted no transactions entered into by MAG during the year for which there is a lack of authoritative guidance or consensus. All significant transactions have been recognized in the financial statements in the proper period.

Accounting estimates are an integral part of the financial statements prepared by management and are based on management's knowledge and experience about past and current events and assumptions about future events. Certain accounting estimates are particularly sensitive because of their significance to the financial statements and because of the possibility that future events affecting them may differ significantly from those expected. The most sensitive estimates affecting the financial statements were:

Management's estimate of the useful lives of capital assets is based on an analysis of historical data. We evaluated the key factors and assumptions used to develop the useful lives of capital assets in determining that it is reasonable in relation to the financial statements taken as a whole.

Management's estimate of the indirect costs is based on an estimate of the overhead and other indirect costs related to the grant program. We evaluated the key factors and assumption used to develop the indirect cost allocation in determining they are reasonable in relation to the financial statements taken as a whole, as well as determine they did not exceed the indirect cost allowable by the federal grantor.

Management's estimate of the fair value of investments is based on market values quoted by the financial institution. We evaluated the key factors and assumptions used to report the estimated fair value in determining that they are reasonable in relation to the financial statements taken as a whole.

The financial statement disclosures are neutral, consistent, and clear.

Difficulties encountered in performing the audit

We encountered no significant difficulties in dealing with management in performing and completing our audit.

Corrected and uncorrected misstatements

Professional standards require us to accumulate all known and likely misstatements identified during the audit, other than those that are trivial, and communicate them to the appropriate level of management. Management has corrected all such misstatements. In addition, none of the misstatements detected as a result of audit procedures and corrected by management were material, either individually or in the aggregate, to each opinion unit's financial statements taken as a whole. Management did not identify and we did not notify them of any uncorrected financial statement misstatements.

Disagreements with management

For purposes of this letter, professional standards define a disagreement with management as a financial accounting, reporting, or auditing matter, whether or not resolved to our satisfaction, that could be significant to the financial statements or the auditors' report. We are pleased to report that no such disagreements arose during the course of our audit.

Management representations

We have requested certain representations from management that are included in the management representation letter dated November 12, 2012.

Management consultations with other independent accountants

In some cases, management may decide to consult with other accountants about auditing and accounting matters, similar to obtaining a "second opinion" on certain situations. If a consultation involves application of an accounting principle to MAG's financial statements or a determination of the type of auditors' opinion that may be expressed on those statements, our professional standards require the consulting accountant to check with us to determine that the consultant has all the relevant facts. To our knowledge, there were no such consultations with other accountants.

Other audit findings or issues

We generally discuss a variety of matters, including the application of accounting principles and auditing standards, with management each year prior to retention as the MAG's auditors. However, these discussions occurred in the normal course of our professional relationship and our responses were not a condition to our retention.

Other information in documents containing audited financial statements

Our responsibility for the supplementary information accompanying the financial statements, as described by professional standards, is to evaluate the presentation of the supplementary information in relation to the financial statements as a whole and to report on whether the supplementary information is fairly stated, in all material respects, in relation to the financial statements as a whole. With respect to the supplementary information accompanying the financial statements, we made certain inquiries of management and evaluated the form, content, and methods of preparing the information to determine that the information complies with U.S. generally accepted accounting principles, the method of preparing it has not changed from the prior period, and the information is appropriate and complete in relation to our audit of the financial statements. We compared and reconciled the supplementary information to the underlying accounting records used to prepare the financial statements or to the financial statements themselves. We have issued our report thereon dated November 12, 2012.

Other information is being included in documents containing the audited financial statements and the auditors' report thereon. Our responsibility for such other information does not extend beyond the financial information identified in our auditors' report. We have no responsibility for determining whether such other information is properly stated and do not have an obligation to perform any procedures to corroborate other information contained in such documents. As required by professional standards, we read the other information in order to identify material inconsistencies between the audited financial statements and the other information. We did not identify any material inconsistencies between the other information and the audited financial statements.

With respect to the required supplementary information (RSI) accompanying the financial statements, we made certain inquiries of management about the methods of preparing the RSI, including whether the RSI has been measured and presented in accordance with prescribed guidelines, whether the methods of measurement and preparation have been changed from the prior period, and whether there were any significant assumptions or interpretations underlying the measurement or presentation of the RSI. We compared the RSI for consistency with management's responses to the foregoing inquiries, the basic financial statements, and other knowledge obtained during the audit of the basic financial statements. Because these limited procedures do not provide sufficient evidence, we did not express an opinion or provide any assurance on the RSI.

Our auditors' opinion, the audited financial statements, and the notes to financial statements should only be used in their entirety. Inclusion of the audited financial statements in a document you prepare, such as an annual report, should be done only with our prior approval and review of the document.

INFORMATION SUMMARY... for your review

DATE:

January 8, 2013

SUBJECT:

Discussion of the Development of the FY 2014 MAG Unified Planning Work Program and Annual Budget

SUMMARY:

Each year, the MAG Unified Planning Work Program and Annual Budget is developed in conjunction with member agency and public input. The Work Program is reviewed each year by the federal agencies in the spring and approved by the Regional Council in May.

Due to the uncertainty of economic conditions, a fifty-percent reduction to the dues and assessment total was approved beginning with the FY 2010 budget. Dues and Assessments continued to be maintained at the fifty percent level each year through FY 2013. During the time MAG Dues and Assessments have been reduced, these additional costs have been covered using MAG reserve funds.

On May 24, 2006, the MAG Regional Council approved applying the CPI-U average for the last calendar year to the draft MAG Dues and Assessments. In order to go forward adjusting for inflation increases, we are recommending for FY 2014 that Dues and Assessments be increased to 75 percent and that the CPI-U average for the calendar years 2010 through 2012 be applied. The average CPI-U from calendar year 2009 through calendar year 2012, prior to the release of the December 2012 CPI-U, is 2.228 percent. The CPI-U for December 2012 will be announced on January 18, 2013. The CPI-U average will then be adjusted for the December 2012 number and final draft Dues and Assessments will be presented on February 13, 2013, to the Management Committee. We anticipate very little change to the CPI-U as the result of incorporating the December 2012 number.

At the January 10 and February 14, 2005, MAG Regional Council Executive Committee meetings, the committee discussed that a minimum dues and assessments amount be set to cover some administrative costs of MAG committee meetings. The minimum amount of \$350 for MAG Dues and Assessments was recommended in the February 14, 2005, meeting to cover administrative costs associated with MAG membership. This minimum amount was adopted beginning with the FY 2006 MAG Unified Planning Work Program and Annual Budget. The MAG draft Dues and Assessments for FY 2014 are presented in Attachment A.

This overview of MAG's draft Dues and Assessments for FY 2014 (Attachment A) provides an opportunity for early input into the development of the FY 2014 Work Program and Budget. The draft Dues and Assessments documents are footnoted for your information.

- ◆ The population numbers used in the draft Dues and Assessments calculation are updated using the most recently approved population estimates for 2012 as indicated on the draft Dues and Assessments for FY 2014 in Attachment A.
- ◆ The information in the footnotes to the draft Dues and Assessments, (b), (c), (d), (e), (f), (g) and (h) remains the same from prior years and describes the calculations for the 9-1-1 Planning Assessment, the Homeless Prevention Assessment and the county portion of the population calculation, respectively.
- ◆ MAG staff is proposing that draft Dues and Assessments be increased from 50 percent to 75 percent for FY 2014 with an increase for the average CPI-U change from calendar year 2009 through 2012. Changes for individual members are due to population shifts and the application of minimum dues and assessments. The application of a minimum dues and assessments amount of \$350 affects four members and is discussed in footnote (d). The draft Dues and Assessments increase each fiscal year prior to FY 2010 has been calculated using the average CPI-U from the prior calendar year as approved by the MAG Regional Council on May 24, 2006.
- ◆ The Homeless Prevention Assessment is only charged to those cities that are CDBG recipients with populations over 50,000 and to Maricopa County.

A draft budget timeline is included for your review as Attachment B. The Webinar presentation of the draft budget is tentatively scheduled for Thursday, February 21, 2013, at 1:30 p.m. in the MAG Palo Verde Room. An invitation to the MAG fiscal year (FY) 2014 Budget Webinar will be included in the February Management Committee material.

Youngtown	6,188	\$350	\$12	\$142	\$278	\$87		\$869	\$505	\$364	72.08%
TOTALS	3,921,821	\$155,617	\$7,671	\$90,039	\$110,363	\$55,412	\$46,185	\$465,287	\$303,276	\$162,011	

FY 2013 Total Costs		\$101,432	\$5,000	\$58,688	\$71,935	\$36,118	\$30,103
Based on Population		\$54,185	\$2,671	\$31,351	\$38,428	\$19,294	\$16,082
Per Capita Cost		\$0.04011	\$0.00198	\$0.02321	\$0.02844	\$0.01428	\$0.01190

Each year, the MAG annual Dues and Assessments are apportioned according to per capita populations and the CPI-U from the prior calendar year is applied to the Dues and Assessments. From FY 2010 through FY 2013, Dues and Assessments were reduced by 50% from the FY 2009 amount and this overall lower amount was held constant due to economic conditions. The FY 2014 estimated Dues and Assessments are increased to 75% of the FY 2009 amount and the CPI-U average from calendar year 2009 to the present of 2.28% has been applied. The average CPI-U will be adjusted pending receipt of the December 2012 CPI-U which is anticipated mid-January 2013. Changes in population and application of the 3-year average CPI-U account for the individual member differences between the FY 2013 and FY 2014 Dues and Assessments totals.

- (a) MAG July 1, 2012 Approved Population. These population updates are needed by the State Economic Estimates Commission by December 15th of each year and are the final estimates.
- (b) The 9-1-1 assessment is apportioned according to per capita populations excluding the City of Phoenix.
- (c) The Homeless Prevention assessment is only charged to cities who are CDBG recipients and have populations over 50,000 and to Maricopa County.
- (d) Total Dues and Assessments minimum at \$350 per member results in an overall increase for these members and a slight adjustment for the other members.
- (e) The Maricopa County portion of the dues and assessments includes the balance of the county, excluding Gila River Indian Community, the Fort McDowell Yavapai Nation, and the Salt River Pima-Maricopa Indian Community (except when calculating the Homeless Prevention assessment).
- (f) Maricopa and Pinal County portions.
- (g) Maricopa and Yavapai County portions.
- (h) Maricopa County portion only.

SUBJECT:

Draft MAG 208 Water Quality Management Plan Amendment for the Service Area Expansion of the Litchfield Park Service Company Doing Business As Liberty Utilities Palm Valley and Sarival Water Reclamation Facilities

SUMMARY:

The City of Glendale has requested that the MAG 208 Water Quality Management Plan be amended to allow subdivisions and facilities located within the Glendale Municipal Planning Area to be included in the service area for the Litchfield Park Service Company doing business as Liberty Utilities, formerly Liberty Water, Palm Valley and Sarival Water Reclamation Facilities. The facilities are located within the Goodyear Municipal Planning Area and are identified in the current MAG 208 Plan with reserve capacity to accommodate the sewer service needs of the expanded area. The project is within three miles of the City of Avondale, City of El Mirage, City of Goodyear, City of Litchfield Park, City of Peoria, City of Phoenix, Town of Youngtown, Luke Air Force Base, and unincorporated Maricopa County, and all have indicated no objections. A public hearing on the draft amendment was conducted on December 13, 2012. Following the hearing, the MAG Water Quality Advisory Committee unanimously recommended approval of the Draft 208 Plan Amendment.

PUBLIC INPUT:

On December 13, 2012, the MAG Water Quality Advisory Committee conducted a public hearing on the Draft MAG 208 Plan Amendment. No public comments were received on the Draft 208 Amendment.

PROS & CONS:

PROS: Approval of the 208 Plan Amendment would make the service area expansion for the Litchfield Park Service Company doing business as Liberty Utilities Palm Valley and Sarival Water Reclamation Facilities consistent with the MAG 208 Plan. The MAG 208 Water Quality Management Plan is the key guiding document used by Maricopa County and the Arizona Department of Environmental Quality in granting permits for wastewater treatment systems in the MAG region.

CONS: Currently, there do not appear to be any negative impacts associated with the approval of the 208 Plan Amendment.

TECHNICAL & POLICY IMPLICATIONS:

TECHNICAL: The 208 Plan Amendment is needed to accommodate sewer service needs in the City of Glendale.

POLICY: The MAG 208 Water Quality Management Plan is the key guiding document used by Maricopa County and the Arizona Department of Environmental Quality in granting permits for wastewater treatment systems in the MAG region. Approval of the 208 Plan Amendment would enable the service area expansion to be deemed consistent with the MAG 208 Plan. Consistency is necessary for permit approvals.

ACTION NEEDED:

Recommend approval of the Draft MAG 208 Water Quality Management Plan Amendment for the Service Area Expansion of the Litchfield Park Service Company Doing Business As Liberty Utilities Palm Valley and Sarival Water Reclamation Facilities.

PRIOR COMMITTEE ACTIONS:

Water Quality Advisory Committee: On December 13, 2012, the MAG Water Quality Advisory Committee conducted a public hearing on the Draft 208 Plan Amendment for the Service Area Expansion of the Litchfield Park Service Company Doing Business As Liberty Utilities Palm Valley and Sarival Water Reclamation Facilities. Following the hearing, the Committee unanimously recommended approval of the Draft 208 Plan Amendment to the MAG Management Committee.

SUPPLY CHAIN OPPORTUNITIES

Based on land use context, market opportunities, and supply chain dynamics in the Sun Corridor, freight industry development opportunities fall into four principal types. While a total of 16 locations have been identified for development opportunity as shown on the map, the Framework Study has focused initially on four emerging areas:

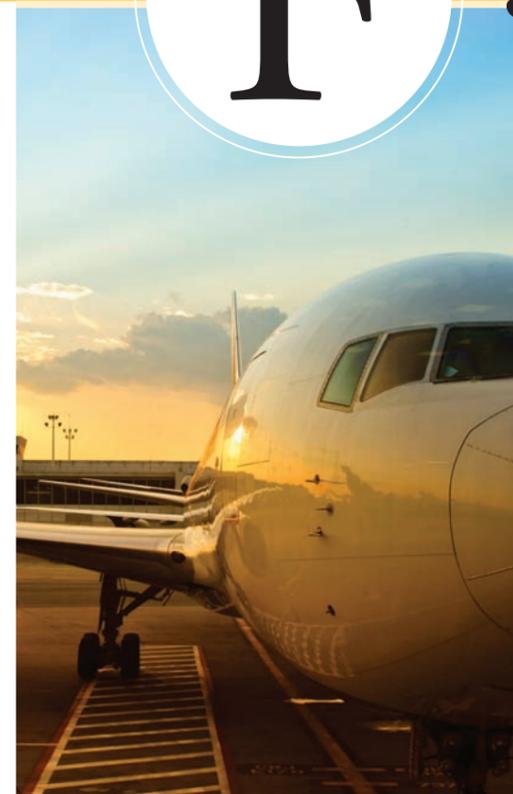

Supply Chain Opportunities in Sun Corridor

Examining Freight and Multimodal Opportunities in the Sun Corridor

Freight Transportation FRAMEWORK

A study by the **JOINT PLANNING ADVISORY COUNCIL**
A planning partnership for the Arizona Sun Corridor

Positioned for Success

The Arizona Sun Corridor ranks in the top ten among the largest U.S. metropolitan consumer markets. Approximately 85 percent of the state's population resides within the corridor and it is projected to grow to approximately 12 million by 2050.

The Sun Corridor's prime location makes it a key national market along the east-west trade route between California and Texas and international market along the north-south CANAMEX trade route.

The Sun Corridor's current Mexican- and west-bound traffic offers a base of \$80 billion in annual product value, making the Sun Corridor well positioned as a distribution gateway for nearshored products originating in Mexico and trade via Gulf Coast ports.

The Joint Planning Advisory Council was created by MAG, CAAG, and PAG to evaluate the long-term needs and plans of the three connecting communities. The "Sun Corridor" is one of 11 megaregions identified in the United States that consists of a cluster of metropolitan regions that share environmental and infrastructure systems, economic linkages, and land use patterns.

Air and Rail Cargo Assets

The Sun Corridor has five airports of varying size capable of handling cargo, including belly cargo and all-cargo freighters. These airports have the runway length for wide body freight aircraft to fly non-stop to Asia, Mexico, and Europe.

In addition to the excellent flying weather, several of the primary airports have available land for development and direct access to major interstates and rail, are located in close proximity to large anchor markets, and provide competitive economic development incentives.

AIRPORT	LONGEST RUNWAY LENGTH
Sky Harbor	11,490
Tucson International	10,996
Phoenix-Mesa Gateway	10,401
Phoenix-Goodyear	8,500
Pinal Airpark	6,849

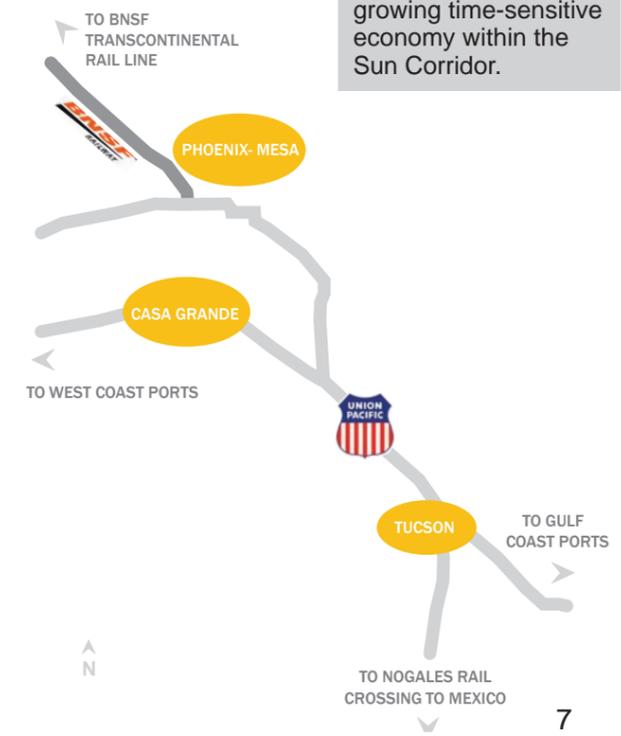

The Sun Corridor is served by two major (Class I) freight railroads, the Union Pacific and the Burlington Northern Santa Fe railroad. The BNSF and UP have major east-west corridors traversing the state, but also have lines connecting to the Phoenix metro area. Union Pacific's mainline passes through Pinal County and the City of Tucson, serving their markets, and providing a connection with the Ferromex rail corridor that serves all of western Mexico

SUN CORRIDOR ECONOMIC DEVELOPMENT INCENTIVES

- Foreign Trade Zones
- Military Reuse Zones
- Sales Tax Exemption for Machinery and Equipment

Major aerospace manufacturers such as Intel, Microchip, Honeywell Aerospace, and other high-tech suppliers are part of a growing time-sensitive economy within the Sun Corridor.

REGIONAL RECOMMENDATIONS

Compete Globally, Nationally and Regionally — Cooperate Locally

The opportunities to grow freight-related economic development requires the Sun Corridor to compete on a global scale with other countries and domestic regions, and to cooperate - not compete - locally between municipalities. The first step to compete in a global market is to agree on a cohesive economic development plan that has a unified voice for the region.

The goal is to establish a clear and positive Sun Corridor identity in the minds of supply chain managers and property developers that influences their perceptions and development plans. This requires a two-step approach. The first step is to focus on a marketing initiative with a brand, communications materials, toolkits for developers, outreach to industry, and some system of leadership to streamline interaction with the freight industry. The second step requires a shared conviction that region-wide benefits will flow from a regional approach. Such conviction assures a sturdy, sustained message for the market and is a basis for agreement on the development actions discussed in the Freight Transportation Framework Study.

Detailed recommendations for the study can be found at <http://www.bqaz.org/freightstudy.asp>

Recommended Action

Coordinate freight economic development efforts, so that the region speaks with a unified voice and a uniform plan to become the global logistics hub of the Southwest.

Create funding programs for improvements and strategic incentives (infrastructure, development incentives, and marketing).

Protect appropriate land for industrial development (create freight districts).

Encourage USDOT and legislature to include Arizona's Interstates in the National Freight Network (MAP-21) (sales tax on internet sales, positive legislation).

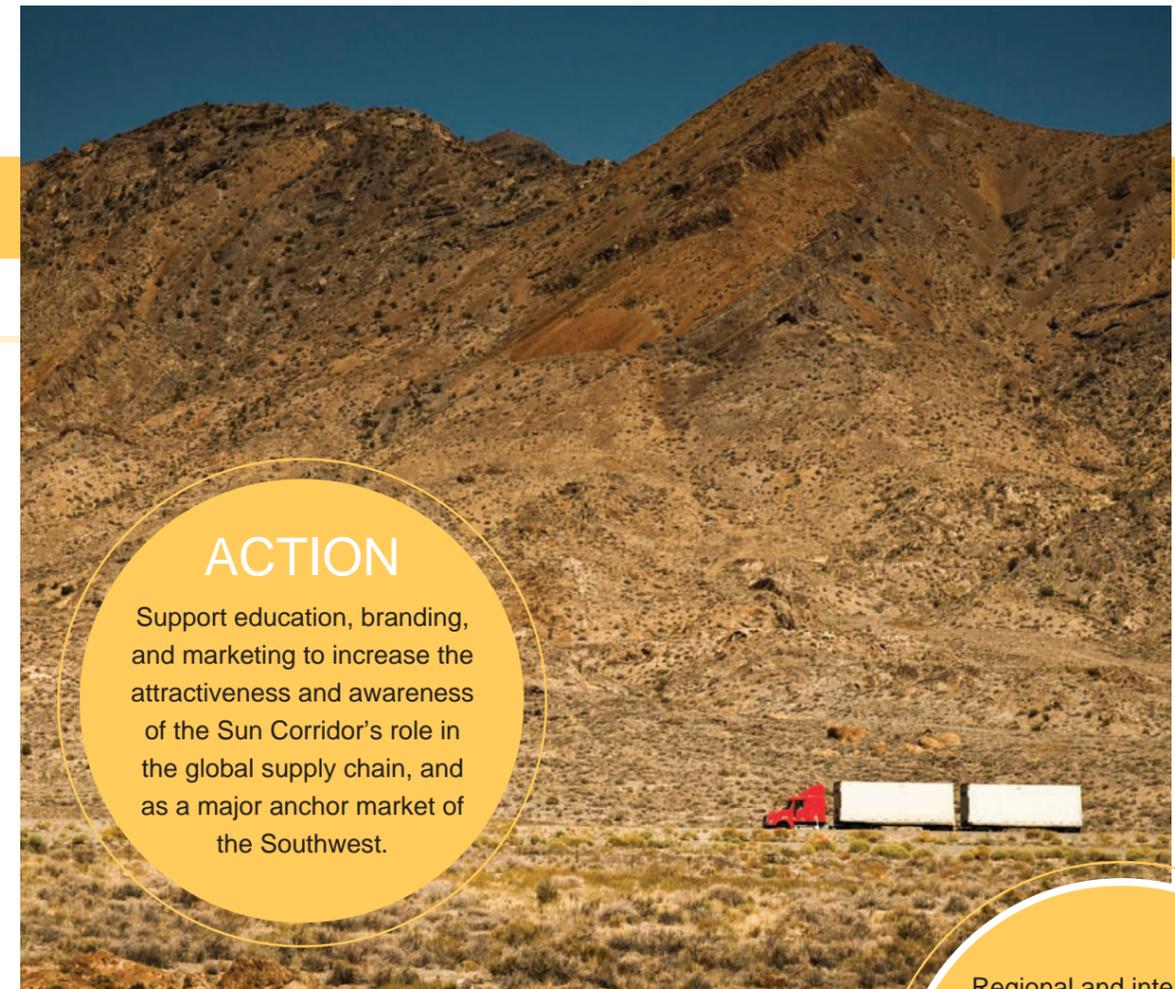

Create a special regional designation, such as a Sun Corridor Freight Development Zone.

Build international partnerships.

Conduct a detailed analysis for freight opportunity focus areas identified in the study.

Prepare conceptual business plans for specific opportunities in the Sun Corridor.

Support the ports of entry with Mexico (CANAMEX and nearshoring opportunities).

ACTION

Support education, branding, and marketing to increase the attractiveness and awareness of the Sun Corridor's role in the global supply chain, and as a major anchor market of the Southwest.

Regional and international coordination, policy revisions and market demand are positioning the Sun Corridor as a premier competitive location for business growth and expansion in the Southwest.

Sun Corridor Distribution

Whether a company delivers its product via truck, train, or air, the Sun Corridor has a world class transportation network that will provide shippers and carriers with efficient and reliable transportation options.

Interstate Access

The Sun Corridor's prime location and access to five Interstates provides companies with next day service by truck to the west coast, intermountain west and direct access to Mexican deep sea ports.

CITY	Distance to Ports (Miles)		
	POLA/POLB*	PORT OF HOUSTON	PORT OF OAKLAND
Phoenix-Mesa	380	1,185	730
Casa Grande	430	1,140	780
Tucson	300	1,070	850

* Port of Los Angeles / Port of Long Beach

CITY	Distance to Mexican Ports and Cities (Miles)				
	NOGALES POE*	HERMOSILLO	GUAYMAS	MAZATLAN	MANZANILLO
Phoenix-Mesa	180	350	430	900	1,380
Casa Grande	130	300	380	860	1,330
Tucson	60	230	310	790	1,260

* POE = Port of Entry

Southern California to the Sun Corridor

Average Rate Per Mile	\$2.78
Average Flat Rate	\$721

Sun Corridor to Southern California

Average Rate Per Mile	\$1.22
Average Flat Rate	\$401

This presents a significant opportunity to manufacturers and suppliers that locate in the Sun Corridor due to the ability to secure lower rates for exporting their goods from this region to the west coast.

The Mariposa Port of Entry (Nogales, AZ) is a key link in the CANAMEX corridor connecting Arizona to Mexico. The port of entry is currently under expansion and when completed (2014) will consist of:

- 12 passenger car lanes
- 24/7 operations
- dedicated bus lane
- 8 commercial vehicle lanes
- 56 inspection docks

January 14, 2013

SUBJECT:

Year End Closeout Report of Federal Fiscal Year 2012 Funds, and Evaluation of Federal Fiscal Year 2013 Funding Levels for Tier 3 Programming

SUMMARY:

A revision to this item since the agenda was mailed out is being provided. The City of Chandler has requested additional closeout funds due to the competitive bid process that returned a higher than engineering estimate for their project. An update to the funding tables for closeout is listed on Table D and Table E (page two), and to the project listing contained in the Closeout Table on page 1 (tinted in light orange). Sufficient funding to accommodate this request is available.

Closeout of the federal fiscal year (FFY) 2012 Federal Highway Administration (FHWA), Congestion Mitigation and Air Quality (CMAQ) program and the Surface Transportation Program (STP) funding levels was reported by the Arizona Department of Transportation (ADOT) to MAG in December for FFY 2012 fourth quarter. An evaluation of funding shows revenues of \$102.1 million and expenditures of \$81.2 million, which leaves \$17.9 million of CMAQ funds available for carry forward. Additionally in FFY 2012, STP revenues of \$28.1 million and expenditures of \$31.2 million leave a negative \$3.1 million of STP funding for FFY 2013. Please refer to table A for additional detail. The FFY 2012 funding carry forward amounts will be incorporated into the Tier 3 Closeout process.

On July 6, 2012, the Moving Ahead for Progress in the 21st Century (MAP-21) Surface Transportation Authorization Act was signed into law. The federal funding levels for FFY 2013 surface transportation programs have been published and are funded through March 2013. The Obligation Authority (OA) is currently unknown at this time, pending legislative action. MAG will be working under the reasonable assumption that the CMAQ and STP programs will receive a full year authorization with at least a 94.6 percent OA (programming limit). To ensure that all MAG regional OA is fully utilized each year and minimize the risk of loss of funding to the region, staff is moving forward with requesting a Federal Fund Tier 3 Closeout for CMAQ funded projects for FY 2013.

The MAG Federal Fund Programming Guidelines & Procedures, approved by Regional Council on October 26, 2011, outline a dynamic Transportation Improvement Program (TIP) process by defining three tiers of federal fund projects. Tier 3 funding is made available through unprogrammed, deleted, project final vouchers, and unobligated funding. Tier 3 priorities can be, but are not limited to, the following options that can obligate by June 28, 2013:

- Advance federal funded projects to FFY 2013;
- Increase in federal funding to projects due to obligate in FY 2013 (CMAQ can be used to fund 94.3 percent of project phase costs in FFY 2013 for eligible activities);
- Fund regional projects that are eligible for CMAQ and can obligate in FY 2013; and,

- Fund new projects that are eligible for CMAQ and can obligate in FY 2013. If new projects are recommended, the process could be expanded for another one to two months to get project information.

Included in the December 2012 edition of the Federal Funding Status Report, information on project phases that could advance was included. In the report, no FY 2014 or FY 2015 project phase advancements were requested, and many projects requested deferment. An evaluation of FY 2013 projects programmed in the FY 2011-15 TIP based on expected full year apportionment awards of CMAQ funding, programmed transfers, and carry forward funding due to project closeouts makes \$14.2 million available for programming in FY 2013 (Table B). During the evaluation of FY 2014 projects programmed in the FY 2011-15 TIP, a \$3.5 million over programming of CMAQ funded projects was identified (Table C). This shift of funding from year to year is due primarily to project deferments and cancellations.

The Transportation Review Committee (TRC) met on December 13, 2012, and discussed two scenarios that MAG staff had developed to closeout the FY 2013 federal CMAQ funded project phases and initially address the FY 2014 over programming. The first step in both scenarios suggested funding current project phases that will obligate in FY 2013 at the maximum federal portion of 94.3 percent. The second step for scenario #2 suggested including all elements of scenario #1 and funding the design phases for current FY 2014 CMAQ funded construction and procurement projects. In both scenarios a balance of funding from FY 2013 would be carried forward to address the FY 2014 over programming based on ADOT and FHWA approval to carry forward the funding.

The TRC recommended scenario #2, and requested staff prepare the closeout project listing, and gain ADOT and FHWA approval to carry forward the balance of CMAQ funding. The detail of project changes that include scenario #2 is attached in the Project Closeout Table. An update of Freeway Lifecycle projects has been included in the current version which was omitted in the version presented at TRC. An update of actual costs for all scenarios is included in updated Tables C, D, and E. Please refer to attachments.

PUBLIC INPUT:

None.

PROS & CONS:

PROS: Approval of these recommendations will allow for additional project phases and increase federal funding for transportation projects in the MAG region for FY 2013 and will provide carry forward funding in FY 2014.

CONS: There is no guarantee that sufficient funds will be available in the following fiscal year.

TECHNICAL & POLICY IMPLICATIONS:

TECHNICAL: Action to close out the FFY 2013 MAG federally funded program is needed to ensure that all MAG federal funds are fully used in a timely and equitable manner. These actions may include any necessary amendments or administrative adjustments to the FY 2011-2015 MAG TIP to allow the projects to proceed.

POLICY: Previously adopted MAG policies on the allocation of uncommitted and redistributed federal funds to projects have been followed.

ACTION NEEDED:

Recommend approval of Scenario Two for the Tier 3 closeout of Federal Fiscal Year (FFY) 2013 projects. Scenario Two funds all Congestion Mitigation and Air Quality (CMAQ) project phases that will obligate in FFY 2013 at the maximum federal share, up to 94.3 percent, of eligible project costs, and fund the design phases that can obligate by June 28, 2013, for currently programmed FFY 2014 CMAQ construction and procurement projects; and of the necessary amendments and administrative modifications to the FY 2011-2015 MAG Transportation Improvement Program, and as appropriate, to the Regional Transportation Plan 2010 Update.

PRIOR COMMITTEE ACTIONS:

Transportation Review Committee: On December 13, 2012, the TRC recommended approval of Scenario #2: fund all CMAQ project phases that will obligate in FFY 2013 at a the federal share, up to 94.3 percent of project costs, and fund the design phase that can obligate by June 28, 2013 for currently programmed FY 2014 CMAQ construction and procurement projects; and of the necessary amendments and administrative modifications to the FY 2011-2015 MAG Transportation Improvement Program, and as appropriate, to the Regional Transportation Plan 2010 Update.

January 8, 2013

SUBJECT:

Assignment of Designated Recipient for Federal Transit Administration Section 5310 Enhanced Mobility of Seniors and Individuals with Disabilities Program in the MAG Region

SUMMARY:

Under Moving Ahead for Progress in the 21st Century Act (MAP-21), the MAG region, in coordination with the State, may determine which agency will be their Designated Recipient (DR) of FTA, Section 5310 program funding. Previously under SAFETEA-LU, the State of Arizona, Department of Transportation, Multimodal Planning Division was the DR of the Elderly and Persons with Disabilities Transportation Program, and the City of Phoenix, Public Transit Department was the DR of the New Freedom program. Under MAP-21, the two programs have been combined and renamed to Section 5310 Enhanced Mobility of Seniors and Individuals with Disabilities Program. The program no longer provides a single apportionment to the state; it now provides apportionments specifically for large urbanized, small urbanized, and rural areas with a choice to recommend the DR in large (over 200,000 in population) Urbanized Areas (UZAs).

In large UZAs, the recipient charged with administering the Section 5310 Program must be officially designated through a process consistent with FTA sections 5303 and 5304 prior to grant award. The Metropolitan Planning Organization (MPO), State, or another public agency may be a preferred choice based on local circumstances. The designation of a recipient shall be made by the governor in consultation with responsible local officials and publicly owned operators of public transportation, as required in sections 5303 and 5304. As such, FTA asks that in the large urbanized areas, the MPO initiates the process for designating a 5310 Designated Recipient as soon as possible. Funds cannot be awarded until this designation is on file with the FTA Regional office. A State agency could be designated as the recipient of Section 5310 funds for a large urbanized area. However, if the State is selected as the designated recipient in a large urbanized area, the apportioned funds for the large urbanized area must be allocated to agencies within the urbanized area.¹ Current Section 5310 designations remain in effect until changed by the governor of a state by officially notifying the appropriate FTA regional administrator of designation. The designated DR preference for the region must be on file with the FTA regional office.

Historically, federal law has required that an agency be designated to dispense the Urbanized Area Formula Program funds attributable to Transportation Management Areas (urban areas over 200,000 in population). The recipient must be a public body and have the legal authority to receive and dispense federal funds in the urbanized area. The Governor, responsible local officials and publicly owned operators of transit services are required to designate a recipient to apply for, receive and dispense funds for the Transportation Management Area. To amend the recision requires concurrence from the Governor and an appropriately certified resolution from the MPO concurring

¹ (Accessed 12-26-2012, http://www.fta.dot.gov/documents/2012-10-10_MAP-21_FINAL.pdf).

in the designation. On February 26, 1975, the MAG Regional Council approved the City of Phoenix request to be the Designated Recipient for federal transit funds for this urban area. On March 27, 1975, the Urban Mass Transportation Administration concurred in the designation.

MAG planning staff outlined the process for gaining regional preference, which includes determining eligible agencies, defining the responsibilities of the DR, setting the time line for the transfer if approved, and beginning the FY 2013 program schedule.

ADOT is an eligible recipient to take on the assignment of the DR in the MAG region for the 5310 Program. ADOT has been the state administrator for the Section 5310 program for the large urbanized, small urbanized, and rural areas for several years. ADOT has policies and procedures in place and staff in place to administer the Section 5310 award program. ADOT has recommended that they remain the DR and to continue to administer the urbanized area section 5310 funds. See enclosure.

The City of Phoenix Public Transit Department (PTD) is also an eligible recipient to take on the assignment of the DR in the MAG region for the 5310 Program. Currently PTD is the DR for Section 5307, 5309, CMAQ-Flex, STP-Flex, and competitive and earmark grants. PTD administered the former Section 5317 New Freedom award program for a number of years that is now consolidated under Section 5310. PTD also has administered the Section 5316 Job Access and Reverse Commute (JARC) for the Phoenix/Mesa urbanized areas that has been combined with the 5307 program under MAP-21. PTD staff is knowledgeable in all aspects of FTA grant administration; they have policies and procedures in place and staff in place to administer the Section 5310 award program. PTD currently, and for the past several years, has a representative on the MAG Section 5310 Ad Hoc Committee. They have coordinated and collaborated with MAG and ADOT on past Section 5310, Section 5316, and Section 5317 application processes. PTD has requested to take on the Designated Recipient role for the Section 5310 in the Phoenix-Mesa Urbanized Area. See enclosure.

Some of the responsibilities as DR include administering the program, quarterly reporting on each project, ensuring all compliance with Federal and FTA regulations, certifications and assurances, applying for, maintaining and management of grants based on a Program of Projects as developed by the region each year, and to procure capital items.

MAG will continue in the planning capacities that provide Human Services Coordination Plans, program of project development and evaluation, and related planning. With apportionments now being allocated specifically to large urbanized areas, federal guidelines are requesting MPOs to initiate the process for designating DR for Section 5310. The guidelines indicates that the DR to be chosen can address the needs of the community "based on local circumstance." MAG has evaluated each agencies' role, and based on these roles and responsibilities MAG has collected comments and committee actions to make a recommendation for the DR of Section 5310 funding in MAG region. Based on this information, it is recommended that the City of Phoenix assume the DR of Section 5310 funding in the MAG region. A summary of the comments received and the committee actions to date are included in the attached materials.

PUBLIC INPUT:

A summary of the comments received is included in the attached materials. Comments for this topic may be submitted to DeDe Gaisthea at: DGaisthea@azmag.gov.

PROS & CONS:

PROS: Phoenix Public Transit Department (PTD) staff is knowledgeable in all aspects of FTA grant administration and currently manage other FTA regional funds. PTD has previously administered the Section 5317 grant now consolidated into Section 5310. They have provided ADOT assistance with the FY 2012 Section 5317 application process. As referred to in the federal guidelines PTD would provide an opportunity for more local input into the awards program by being located closer to the population to administer the program in the MAG region. Communication and coordination with PTD and MAG have been excellent in the past. PTD is able to assume as DR for the Section 5310 program and will be able to complete the grant for FFY 2013 funding in a timely manner.

CONS: Leaving the DR with the State does not take advantage of the provisions offered in the federal guidelines of designating a DR that will best address the needs of older adults and persons with disabilities "based on local circumstances." No perceived cons of the City of Phoenix Public Transit Department as the designated DR.

TECHNICAL & POLICY IMPLICATIONS:

TECHNICAL: If approved, MAG will request that ADOT prepare and send the Designation Letter to the Governor's office for signature, stating that the City of Phoenix, Phoenix Public Transit Department is the recommended Designated Recipient of FTA Section 5310 funds for the MAG region. After the Governor's signature, ADOT will submit the Governor's signed letter to FTA for approval. FTA will notify ADOT, MAG, and PTD of acceptance.

POLICY: Under MAP-21, change of the Section 5310 Designated Recipient may be initiated and requested by the MPO. If no preference is made to the state, ADOT remains the DR for Section 5310 funds in the MAG region.

ACTION NEEDED:

Recommend approval that the City of Phoenix Transit Department assume the responsibility as the FTA Designated Recipient of Section 5310 Enhanced Mobility of Seniors and Individuals with Disabilities Program, beginning FFY 2013.

PRIOR COMMITTEE ACTIONS:

This item is on the MAG Transit Committee agenda scheduled for January 10, 2013. An update will be provided on action taken by the committee.

It was recommended that the City of Phoenix, Phoenix Public Transit Department assume as the Designated Recipient at the December 20, 2012, MAG Ad Hoc Elderly and Persons with Disability Transportation Committee.

**Planning Process Outline for Federal Transit Administration,
Section 5310 program Designated Recipient in the MAG region**

Regarding: Assignment of Designated Recipient for Federal Transit Administration (FTA), Section 5310 Enhanced Mobility of Seniors and Individuals with Disabilities (Sr/ID) Program in the MAG Region

Under MAP-21, Urbanized Areas over 200,000 in population in coordination with the State may determine which agency will be their Designated Recipient (DR) of FTA, Section 5310 Sr/ID Program funding. Previously under SAFETEA-LU, the State of Arizona, Department of Transportation, Multimodal Planning Division was the DR of the Elderly and Persons with Disabilities program and the City of Phoenix was the DR for the Section 5317 New Freedom Program. Under MAP-21 the two programs have been combined and renamed, and several agencies are eligible to accept the responsibilities of the DR. A few of the responsibilities as DR include quarterly reporting on each project, ensuring all compliance with Federal and FTA regulations, certifications and assurances, and program guidance, applying for, maintaining and management of grants based on a Program Of Projects as developed by the region each year, and to procure capital items. General comments will be collected through January 2, 2013 and provided to MAG Management, Transportation Policy committees, and to Regional Council with a recommendation. Letters of interest from ADOT and from the City of Phoenix are included.

Action requested from Technical Committees/Subcommittees: For information, discussion, and recommendation to approve that the City of Phoenix Transit Department take over the responsibility as the FTA Designated Recipient of Section 5310 Enhanced Mobility of Seniors and Individuals with Disabilities (Sr/ID) Program beginning with FFY 2013.

Or, to retain the Arizona Department of Transportation as the Designated Recipient of the Section 5310 (Sr/ID) Program.

Committee/Subcommittee Meetings:

- December 11, 2012: MAG Transportation Ambassador Program, (not a formal committee, information only)
- December 13, 2012: MAG Transportation Review Committee, and MAG Human Services Technical Committee
- December 20, 2012: Elderly & Persons with Disabilities Transportation Committee Ad Hoc Committee Section 5310
- January 10, 2013 MAG Transit Committee*,
- January 30, 2012: Human Services Coordinating Committee*

* MAG Transit Committee, and the Human Services Coordinating Committee could not hear this item at meeting prior to comment deadline period. A Staff Memo will be distributed to MAG Transit Committee, and the Human Services Coordinating Committee members.

For Recommendation of Approval:

Compilation of comments received and Technical Committee/Subcommittee recommendations will be integrated into a modified agenda item with the preferred recommendation for approval to be heard at:

- January 16, 2013 at MAG Management Committee
- January 23, 2013 at MAG Transportation Policy Committee
- January 30, 2013 at MAG Regional Council, for final approval

Regional Approved Designated Recipient:

A letter stating MAG regional preference for Section 5310 DR assignment to be forwarded to ADOT, Director and to the MPD Director by February 4, 2013. ADOT will send the recommendation for assignment of Designated Recipient of Section 5310 funds for the MAG region to Governor for approval and notify the region and FTA of the results.

City of Phoenix
PUBLIC TRANSIT DEPARTMENT

December 13, 2012

Mr. Eric Anderson
Transportation Director
Maricopa Association of Governments
301 N. First Avenue #200
Phoenix, AZ 85003

Dear Mr. Anderson,

The City of Phoenix is formally requesting the designation by the Governor of Arizona to administer the Federal Transit Administration's (FTA) Section 5310 Enhanced Mobility for Seniors and Persons with Disabilities (5310) grant program under the Moving Ahead for Progress in the 21st Century (MAP-21) surface transportation legislation. This request follows discussions held with the Maricopa Association of Governments (MAG) and the Arizona Department of Transportation (ADOT) conducted subsequent to the October 16, 2012 publication in the Federal Register providing program guidance.

The City of Phoenix has been the designated recipient of all Federal Transit Administration funding allocated to the Phoenix Urbanized Area since 1975 without exception. Phoenix staff has years of experience with the 5310 program as a member of the MAG Ad Hoc Elderly and Persons with Disabilities Committee reviewing grant applications, making funding recommendations, and developing the Regional Coordinated Transportation Plan for FTA programs in concert with MAG, ADOT, and local transportation providers.

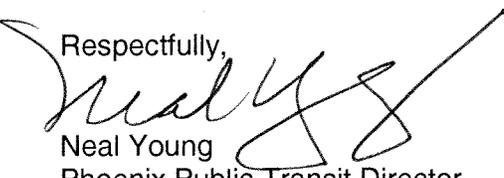

Additionally, the City of Phoenix has administered the 5310 'sister' grant programs, Section 5316 Job Access Reverse Commute and Section 5317 New Freedom under the former surface transportation legislation. The former Section 5317 program has been repealed and is now consolidated into the new Section 5310 under the MAP-21 legislation.

The City of Phoenix has the staffing, resources, and infrastructure in place to administer the program without significant delay or disruption to the subrecipients. Phoenix has two full-time staff to oversee the administration of the program with access to additional resources including, but not limited to procurement and delivery of vehicles; federal compliance and oversight; grant management; and contract administration support.

The City of Phoenix is supported by many Section 5310 stakeholders. At the Transportation Ambassador Program meeting on December 11, 2012, a number of agency representatives provided comments in favor of the City of Phoenix as the designated recipient.

Working with the program stakeholders, Phoenix offers a more localized and flexible approach to administration of these funds. The City of Phoenix has the necessary resources and is committed to providing excellent service to the region as the designated recipient of all Phoenix Urbanized Area funding. Thank you for your consideration of our request to continue in this role.

Respectfully,

Neal Young
Phoenix Public Transit Director

Director

Scott Omer
Division Director

December 12, 2012

Eric Anderson
Transportation Director
Maricopa Association of Governments
302 North 1st Avenue
Phoenix, AZ 85003

Dear Mr. Anderson,

The Federal transportation bill, Moving Ahead for Progress in the 21st Century (MAP-21), requires the designation of a recipient for the urbanized area funds under the Federal Transit Administration (FTA) Section 5310, Enhanced Mobility of Seniors and Individuals with Disabilities grant program. This designation shall be made by the governor in consultation with responsible local officials and publicly owned operators of public transportation. After receiving FTA guidance, it is the understanding of the Arizona Department of Transportation (ADOT) that the current Section 5310 designation is in effect until such a time it is officially changed by the governor and FTA is notified.

Per the Federal Register, Vol. 77, No. 200, October 16, 2012,

In urbanized areas over 200,000 in population, the recipient charged with administering the section 5310 Program must be officially designated through a process consistent with sections 5303 and 5304 prior to grant award. The MPO, State, or another public agency may be a preferred choice based on local circumstances. The designation of a recipient shall be made by the governor in consultation with responsible local officials and publicly owned operators of public transportation, as required in sections 5303 and 5304. As such, FTA asks that in the large urbanized areas, the MPO initiate the process for designating a 5310 Designated Recipient as soon as possible. Funds cannot be awarded until this designation is on file with the FTA Regional office. A State agency could be designated as the recipient of 5310 funds for a large urbanized area. However, if the State is selected as the designated recipient in a large urbanized area, the apportioned funds for the large urbanized area must be allocated to agencies within the urbanized area.

Designated recipients are responsible for administering the program. Responsibilities include: Notifying eligible local entities of funding availability; developing project selection processes; determining project eligibility; developing the program of projects; and ensuring that all sub recipients comply with Federal requirements.

It is our recommendation that the State of Arizona, Department of Transportation, remain the designated recipient (DR) and continue to administer the urbanized area (Phoenix & Tucson) Section 5310 apportionment of funding for the duration of the MAP-21 legislation, which is currently set at two years, to include Federal Fiscal Years 2013 and 2014. At the end of this legislation, we encourage the process

to have the DR status re-evaluated. ADOT's recommendation comes after consultation with the Cities of Phoenix and Tucson, Maricopa Association of Governments (MAG), and Pima Association of Governments (PAG).

The State of Arizona (ADOT) is currently the DR for FTA Sections 5303, 5304, 5307, 5310, and 5311 programs. We believe that ADOT has the organizational infrastructure and capacity to provide the best customer service for the subrecipients in Arizona and to fulfill the FTA grant management requirements. FTA places a great emphasis on program management and requires the DR to have a management plan, as well as sufficient procedures for grant, financial, and asset management, in place. ADOT recently updated its State Management Plan and it is published on our website: http://mpd.azdot.gov/transit_programs_grants/Section5310.asp

Below are some of the highlights of ADOT's ongoing management efforts.

Grant Management:

- ADOT recently invested in a web based grant management system. The system is being developed by Intellegants and is currently being used in several other states, including DOT organizations managing FTA grant programs. There are many benefits to the system that include allowing ADOT to provide a systematic, streamlined, and user friendly approach for subrecipients to access and manage grant funding. Subrecipient profiles, applications, invoicing, progress reports, and vehicle information will be processed and maintained in the system. ADOT is preparing to call for Section 5310 applications for FFY 2013 funding in March through the new software.
- ADOT has taken more control over the application and grant award process. Previously much of the responsibility for evaluation of awards was left to the regions, and each region evaluated applications differently. ADOT will implement a process in FFY 2013 that will standardize evaluation processes across regions based on priorities of ADOT, which include efficient use of funds and vehicles, and coordination of services. A revised application was also introduced in FY 2012, and will be further refined based on MAP 21 requirements in FY 2013.
- ADOT is scheduled to conduct 50 compliance site visits to subrecipient agencies in FFY 2013. This oversight function is required by FTA. ADOT plans on hiring one FTE in 2013 dedicated to training and subrecipient compliance.

Financial Management:

- ADOT has dedicated staff and has a process in place to pay grant invoices from subrecipients in an expeditious manner. Invoices for grant payments are usually processed and paid in thirty days or less, with minimal extraneous requirements for the subrecipient. Financial Management will be further enhanced by the use of the Intelligrants software, which houses all the information needed for the monthly or quarterly reimbursement in one location and provides additional tools for managing grant balances, ensuring timely use of grant funds and closeout of grants, which FTA requires.

Vehicle Management:

- ADOT Equipment Services currently performs both an initial inspection of all FTA funded vehicles and annual inspections throughout a FTA funded vehicle's useful life. This level of oversight is unmatched in comparison with other states.
- ADOT has introduced a strict new policy in regards to lien releases and federal interest. The first revised lien and federal interest policy bases useful life of vehicles on mileage, not age. This is in response to the growing number of vehicle awards released at a certain age that have been underutilized.

ADOT has the policies, procedures, staff, and experience to perform the administrative responsibilities as required by FTA and should remain the designated recipient for the FTA Section 5310 program in the urbanized areas. ADOT's goal is to provide continuity to current and future subrecipients, so that these agencies can focus on their primary goals and objectives, which is to provide needed transportation service to underserved areas in Arizona.

Thank you for consideration of our recommendation.

Sincerely,

Mike Normand
Director, Transit Programs
Arizona Department of Transportation

Section 5310 Report: General Comments Received, As Of January 4, 2013

Public comments received at the MAG Transportation Ambassador Program Meeting, December 11, 2012, regarding preference of a designated recipient for the MAG region.

Nonprofit Agencies

- Appreciate the more regional aspect.
- There is a really good partnership with Phoenix, MAG and other stakeholders in the region
- Prefers the city of Phoenix staff to manage the 5310 program. At the last TAP meeting they were introduced. They were very personable, provided contact phone numbers, were enthusiastic and seem like good partners.
- Preference for the City of Phoenix to manage the 5310 program, appreciates the possibility of a more regional approach by Phoenix.
- Noted past issues with the lack of responsiveness of ADOT staff and feels like Phoenix will do a good job managing the 5310 program
- A first time applicant noted interactions with Phoenix staff through the Section 5317 awards program was very encouraging.
- A concern was raised that ADOT has not been responsive to inquiries regarding previous application awards.

Municipalities/Transit Programs

- The City of Phoenix staff is excellent, always helpful, knowledgeable, and organized.
- Both ADOT and the City of Phoenix do a good job managing projects but the City of Phoenix since it is in the region and have been DR for other programs for a numbers of years would like to recommend the City of Phoenix public transit.
- Have worked with Phoenix in the past with other funding programs they have always been responsive.

Consumers

- The City of Phoenix has attended the MAG Transportation Ambassador Program meeting and seems very approachable; they have had a representative at other stakeholder meetings.
- Preference for the City of Phoenix staff to manage the 5310 program due to their experience in managing other programs over the years.
