Mid Phase Public Meeting

Thursday, September 19, 2013, 5:00 p.m.

MAG Offices, Suite 200
Saguaro Room - second floor
302 North 1st Avenue, Phoenix

Your participation is encouraged and appreciated.

Summary of Questions/Comments

- Real people need to be answering the phone at the customer service center for transit, not an automated system.
- There needs to be a regional transportation system for people with disabilities and the visually impaired.
- The connection from Loop 202 to Interstate 10, currently being considered at 51st Avenue or 55th Avenue, needs to continue west of Loop 303 in order to rid the area of pollution.
- The MAG plans should concentrate on adding density to the regional transportation system and move toward transit and light rail, and away from sprawl.
- Light rail needs to go past Dunlap. It needs to go to Bell Road or Union Hills.
- We need to have more frequency of rides in the transit system.
- Reliability and safety on the transit system needs to be improved.
