

June 19, 2013

TO: Members of the MAG Population Technical Advisory Committee

FROM: Charlie McClendon, Avondale, Chair

SUBJECT: TRANSMITTAL OF MEETING NOTICE AND TENTATIVE AGENDA

Tuesday, June 25, 2013 - 10:00 a.m.
MAG Office, Second Floor, Chaparral Room
302 North 1st Avenue, Phoenix

A meeting of the MAG Population Technical Advisory Committee (POPTAC) will be held at the time and place noted above.

Members of the POPTAC may attend either in person or by telephone conference. If you are attending via audio conference please contact Merry Holmgren at (602) 254-6300 at least one day prior to the meeting.

If you drive to the meeting, please park in the garage under the building and bring your ticket to the meeting; parking will be validated. For those using transit, the Regional Public Transportation Authority will provide transit tickets for your trip. For those using bicycles, please lock your bicycle in the bike rack in the garage.

Pursuant to Title II of the Americans with Disabilities Act (ADA), MAG does not discriminate on the basis of disability in admissions to or participation in its public meetings. Persons with a disability may request a reasonable accommodation, such as a sign language interpreter, by contacting Scott Wilken at the MAG office. Requests should be made as early as possible to allow time to arrange the accommodation.

Please be advised that under procedures approved by the MAG Regional Council on June 26, 1996, all MAG committees need to have a quorum to conduct business. A quorum is a simple majority of the membership or 14 people for the MAG POPTAC. If you are unable to attend the meeting, please make arrangements for a proxy from your jurisdiction with Merry Holmgren at (602) 254-6300.

TENTATIVE AGENDA
MAG Population Technical Advisory Committee
June 25, 2013

1. Call to Order

2. Call to the Audience

An opportunity will be provided to members of the public to address the MAG POPTAC on items not scheduled on the agenda that fall under the jurisdiction of MAG, or on items on the agenda for discussion but not for action. Members of the public will be requested to limit their comments to three minutes. A total of 15 minutes will be provided for this agenda item, unless the Chair of the POPTAC provides for an exception to this limit. Those wishing to comment on action agenda items will be given an opportunity at the time the item is heard.

3. Approval of Meeting Minutes of May 28, 2013.

4. MAG Annual Municipality Population Projections for July 1, 2013 through July 1, 2040.

In accordance with Executive Order 2011-04, MAG prepares annual population projections by jurisdiction. A draft set of population projections for July 1, 2013 to July 1, 2040 was prepared utilizing the projections by Municipal Planning Area and Regional Analysis Zone recommended by MAG POPTAC at the May 28, 2013 meeting. The draft set of projections by jurisdiction was reviewed by POPTAC in June 2013.

The resulting projections of population by jurisdiction for Maricopa County for July 1, 2013 to July 1, 2040 are being transmitted. The MAG POPTAC will be requested to recommend approval of the Draft MAG Projections of Population by Jurisdiction, which are included as Attachment One.

2. For information.

3. For information, discussion, and approval of the minutes of May 28, 2013.

4. For information, discussion and recommendation to approve the MAG Annual Municipality Population Projections for July 1, 2013 through July 1, 2040.

5. MAG Regional Profiles

MAG staff have developed a set of profiles for each MAG member agency. The profiles include demographic information from the 2010 Census and the 2012 socioeconomic projections, as well as maps highlighting land use and housing in each jurisdiction. The Regional Profiles have served as a tool for introducing new elected officials and other representatives from the MAG member agencies to the types of data available from MAG Information Services, as well as providing those individuals with basic information about their jurisdiction. An update will be provided.

6. Fiscal Balance Report Update

MAG Consultants are currently updating the 2001 MAG Fiscal Balance Report that was created in 2001. The resulting report and model will give municipalities information on how different types of development impact communities from a fiscal perspective. An update will be provided.

7. Data Collection and Review

Ongoing data collection efforts include land use information such as General Plan amendments and development projects. The land use data collected are used in preparing socioeconomic projections and conducting regional analyses. A schedule for the collection of data for 2013 is included in Attachment Two.

8. Regional Updates

MAG POPTAC members and MAG staff will have the opportunity to provide an update on development within their jurisdiction, amendments to general plans and any special projects.

9. Next Meeting of MAG POPTAC

Please note that the July meeting of the MAG

5. For information and discussion.

1. Call to Order

The meeting was called to order at 10:12 am by Chair Charlie McClendon.

2. Call to the Audience

There were no comments.

3. Approval of the Meeting Minutes of April 23, 2013

Dave Williams made a motion to approve the minutes of April 23, 2013. Thomas Ritz seconded the motion, and the motion carried unanimously.

4. MAG Resident Population, Housing, and Employment by Municipal Planning Area and Regional Analysis Zone for July 1, 2020, 2030, and 2040

Anubhav Bagley gave a presentation on the draft projection figures for July 1, 2020, 2030, and 2040. He said the State Demographer's Office prepares population and housing projections for the state and county level, and MAG uses those as control totals for the sub-county projections, which are required to be used for transportation and air quality modeling. He said that the sub-county projections are completely dependent on input data from the MAG member agencies, including land use, built space, and employment data. He gave some sub-regional analysis of the draft projections, showing projected population and employment growth and share dividing the region into three geographic areas. He showed projected concentration maps. He discussed projected job-housing balance. He said that staff hoped to get a recommendation from POPTAC, and then take the draft projections to the MAG Management Committee and Regional Council in June for approval of the Municipal Planning Area (MPA) and Regional Analysis Zone (RAZ) level projections. He said that the next step will be to produce population projections for each year by incorporated area, and that those figures will be presented to POPTAC at the next meeting.

Wahid Alam asked how the population is projected to spread across the region through 2040. Anubhav Bagley said that staff is planning to create a pseudo urbanized area based on the projections which would show that. Thomas Ritz asked if the jobs to housing and concentration maps took into account seasonal housing. Anubhav Bagley said that these projections use resident population and resident jobs only. He said that seasonal population is done afterward.

Patrick Banger said that the POPTAC Ad Hoc subcommittee recommended approval of the MAG resident population, housing, and employment by Municipal Planning Area and Regional Analysis Zone for July 1, 2020, 2030, and 2040. Wahid Alam seconded the motion and the motion carried unanimously.

5. Census Update

Jami Garrison gave an update on census activities. She said that on May 9, 2013, staff from the Census Bureau gave a one-day workshop to member agency staff on how to find data in the American Factfinder website. She said that, because there were more people interested than could be accommodated at the workshop, there will be a second workshop held in the near future. Katie Wilken said that she went to the workshop and learn a lot of helpful tips to get data, and to be able to tell fellow staff members how to find data for themselves, as well. Wahid Alam suggested reaching out to more than just POPTAC members with the invitation for the next workshop.

6. Employer Database

Shannon Acevedo gave an update on the 2012 MAG Employer Database. She said the 2012 Employer Database is officially complete. She thanked the POPTAC members for their assistance with the database. She showed some statistics and analysis of the employer data, as well as employment concentration maps. She said that one of the next steps will be some special sector analysis and job center analysis.

7. City of Phoenix General Plan Update

Joshua Bednarek gave a presentation on the City of Phoenix General Plan update. He said city staff has been working for about nine months, and is ready to take a basic framework to the City Council. He talked about the meetings that have been held so far to learn what the public likes about the city and what ideas there are for the future, as well as the interactive website set up for the general plan update process. He talked about the feedback that has been gathered from the public, including parks and open space being the most popular feature of the city. He said that the number one big idea the public has had is connectivity, including all modes of transit. He talked about the different elements that will be incorporated into the plan. He concluded by talking about the adoption timetable going forward.

8. Metropolitan Planning Area Boundary Update

Anubhav Bagley gave an update on the MAG Metropolitan Planning Area Boundary. He said that MAG has been working with Casa Grande and the Governor's office on boundaries of Metropolitan Planning Organizations (MPOs). He said that following the 2010 Census, the Phoenix-Glendale-Mesa urbanized area extended into Pinal County, to include Gold Canyon and San Tan Valley. He said that the Town of Florence and City of Maricopa had passed resolutions to join the MAG MPO. He said that this would allow the two municipalities to join the MAG MPO, but not the Council of Governments (COG), remaining with the Central Arizona Governments for COG purposes. He said on May 9 the Governor signed a new MPO boundary for MAG, which included Maricopa, Florence, and parts of unincorporated Pinal County, as well as the entire Gila River Indian Community. He said that at the same time, a new MPO, the Sun Corridor MPO, was formed by Casa Grande, Eloy, and Coolidge. Thomas Ritz asked if the Ak-Chin Indian Community was approached to join MAG. Anubhav Bagley said that MAG does not approach communities to become members, but if the Ak-Chin Community is interested they can invite MAG to start those discussions. He said that MAG has not heard from the Ak-Chin Community yet.

9. Data Collection and Review

Jason Howard gave an update on data collection and review activities. He said that the next collection activity is the Point Database, including hotels, motels, major group quarters, RV and mobile home parks, and apartment complexes. He said that will come up in June with a deadline in July. He said later in the summer there will be an update to the Building Landmark Inventory database.

10. Regional Updates

Chris DePerro said that he had submitted a Census Count Question Resolution to the Census Bureau. He said that on the west side of Phoenix there was an area listed as unincorporated that is actually part of the city. He said this area had a population of approximately 1,500 people.

11. Next Meeting of MAG POPTAC

Chair Charlie McClendon said that the next meeting is scheduled for Tuesday, June 25, 2013 at 10:00 am. The meeting adjourned at 10:56 am.

DRAFT

Method and Notes for preparation of annual municipality population projections for 2013 to 2040

June 2013

Data sources

1) *Annual county-level population projections*

Annual population projections for Maricopa County were provided by the Arizona State Demographers Office (SDO) and are the official state and county-level projections. The County projections were approved by MAG Regional Council in December 2012 and were utilized as the Control totals for the RAZ and MPA projections recommended for approval by MAG POPTAC in May 2013.

2) *Annual municipality resident population updates for 2010, 2011 and 2012*

Annual July 1, resident population updates by jurisdiction are approved by MAG and approved by Arizona Department of Economic Security in December. The annual projections are required to utilize the annual population updates as the base.

3) *Resident population projections by Municipal Planning Area (MPA) for 2020, 2030, and 2040*

MAG POPTAC recommended resident population projections by MPA and Regional Analysis Zones (RAZ) for 2020, 2030, and 2040 in May 2013. These projections along with the data in the AZSMART model system are utilized to develop the annual municipality projections.

4) *Place-level group quarter and household population projections for 2020, 2030 and 2040*

These are derived from the AZSMART modeling system by aggregating group quarter and household population by Census incorporated place, Indian Community, and unincorporated County.

Method

The goal of the method is to develop annual, place-level projections that respect (1) the adopted population updates for 2010, 2011, and 2012, (2) annual county-level projections from the State Demographers Office and (3) the decadal, RAZ and MPA projections recommended by POPTAC on May 28, 2013. This is performed using a constant share interpolation approach.

The interpolation is performed for three intervals: 2013-2019, 2021- 2029 and 2031-2039. Population in households and group quarters are interpolated independently and then summed to obtain the total resident population. The years within each interval are interpolated through the following steps:

- 1) Determine the total change in the county for the interpolation
- 2) For each place:

- a. Determine the total change in each place for the interpolation interval
 - b. Calculate the share of the County's growth for the place by dividing the total place change by the total county change
 - c. For each year to be interpolated:
 - i. Obtain the total annual county change (e.g. 2013-2014)
 - ii. Multiply the annual county change by the place's share of county change for the interval
 - iii. Add the interpolated change to the projection from the previous year to obtain the interpolated total
- 3) Adjust interpolated place-level values for the 2013-2020 interval for cases where the interpolated values for 2013 differ from the growth implied by the change in estimates for 2010-2012 and residential completions in the last fiscal year.

Notes

1. The notes and caveats for the 2013 MAG Socioeconomic Projections by RAZ and MPA apply to the annual population projections
2. The population projections are for resident population only and do not include nonresident seasonal or transient population.
3. The projections include the Maricopa County portion of Apache Junction, Gila River Indian Community, Peoria, Queen Creek and Wickenburg only.
