

Ozone Boundary Designation

MAG Regional Council
April 27, 2016

ENVIRONMENTAL PROGRAMS

Ozone Monitoring Trend Data at Queen Valley and Tonto National Monument

Notes:

- Data Source: U.S. EPA Air Data (<http://www3.epa.gov/airdata>) accessed on February 19, 2016.
- The June 20, 2015 exceedance of 0.079 ppm at the Tonto monitor is excluded from the data as an exceptional event caused by the Lake Fire in San Bernardino County, California.

Proposed Maricopa-Pinal-Gila Nonattainment Area*

*ADEQ is not recommending any tribal land for nonattainment.

ENVIRONMENTAL PROGRAMS

Possible Action

Approve sending a letter to ADEQ requesting that the Maricopa ozone boundary not be expanded at this time, since the Queen Valley and Tonto National Monument monitors only slightly exceed the standard and there is a downward trend at the monitors. Monitor data from the 2016 ozone season should be evaluated first to determine if the monitors have met the standard or if it is necessary to revise the boundary recommendation.
