

April 12, 2011

TO: Members of the Transportation Policy Committee

FROM: Marc Pearsall, Senior Transit Planner

SUBJECT: MULTIMODAL TRANSIT SYSTEM TOUR TRAVEL COSTS –
MAG REGION PEER CITIES

At the request of the Management Committee, Transportation Policy Committee and Regional Council, MAG staff has been exploring the possibility of a multimodal transit tour of a MAG Peer Region city. The purpose of the on-site tour would be for MAG region leaders to gather information and investigate the benefits of the connectivity between bus transit, light rail, and commuter rail. MAG staff researched the request and the Utah Transit Authority (UTA) appears to be the best example of daily, multimodal connectivity in the Intermountain West. UTA staff has offered to host a tour for MAG region leaders in the October 2011 timeframe. A 'pricing range' summary of airfare, ground transportation and hotel accommodations are provided for review so that interested members may plan ahead for their FY2012 travel budgets. A more in depth itinerary of the tour will follow in the coming months.
