ERRATA SHEET:  
EPCOR WATER ARIZONA INC  
WEST VALLEY REGIONAL WATER RECLAMATION FACILITY  
MARICOPA ASSOCIATION OF GOVERNMENTS  
208 WATER QUALITY MANAGEMENT PLAN AMENDMENT

Date: May 21, 2014

This errata sheet is provided as an addendum to the April 2014 *West Valley Regional Water Reclamation Facility 208 Water Quality Management Plan Amendment*. This sheet addresses a last minute request by the landowner of the Plains Terminal Site to not be excluded from the proposed service area. The changes described here will be made in the document provided for public review.

---

**Page 2:**

Revise the first sentence of the last paragraph starting at the bottom of the page to indicate there is only one excluded area referred to as the "Adaman Island". Strike the rest of the paragraph describing the Plains Terminal Site because the landowner is now requesting that these lands and the possible adjacent acquisition not be excluded from the proposed service area.

**Page 3:**

Incorporate the first full paragraph on page 3 describing the "Adaman Island" with the first sentence of the last paragraph on Page 2.

**Exhibits 1, 2, 3, 4A, 4B, and 5:**

Revise each of the maps to remove the Plains Terminal Site exclusion in the northwest corner of the proposed service area.

**Exhibit 11:**

Remove Exhibit 11.

**Exhibits 12, 13, 14, and 15:**

Renumber as Exhibits 11, 12, 13, and 14 respectively and change the references in the main body text to the new numbers.
