

<b>Energy Efficiency Certificate</b>	
<b>Address:</b>	
<b>R Value:</b> (Insulation): Ceiling _____ Walls _____ Attic Ducts _____	
<b>Fenestration:</b> U Value _____ Solar Heat Gain Coefficient _____	
<b>HVAC Type/Efficiency:</b>	
<b>Heating</b> Fuel Gas/Electric (circle one) AFUE or HSPF _____	<b>Water Heating</b> Fuel Gas/Electric (circle one) EF _____ (Elec) AFUE _____ (Gas)
<b>Cooling</b> Seer _____	
<b>Builder/Designee:</b>	<b>Date:</b>  7/2007

**N1101.8 Certificate.**

A permanent certificate shall be posted on or in the electrical distribution panel. The certificate shall be completed by the builder or registered design professional. The certificate shall list the predominant *R* - values of insulation installed in or on ceiling/roof, walls, foundation (slab, basement wall, crawlspace wall and/or floor) and ducts outside conditioned spaces; *U* -factors for fenestration; and the solar heat gain coefficient (SHGC) of fenestration. Where there is more than one value for each component, the certificate shall list the value covering the largest area. The certificate shall list the type and efficiency of heating, cooling and service water heating equipment.
