

Transportation Alternatives (TA) / CMAQ Application For FY 2021 and FY 2022 Projects

Due: September 25, 2017 at 10:00 a.m.

(LATE AND/OR INCOMPLETE APPLICATIONS WILL NOT BE ACCEPTED)

TA Amount Available: \$4,178,521, and \$ 4,248,246 (\$8,426,767 total)

CMAQ Amount Available: \$8,765,780, and \$8,905,080 (\$17,670,860 total)

INSTRUCTIONS AND SCHEDULE

**The due date and time for project applications to be submitted to MAG is
Monday, September 25, 2017 at 10:00 a.m.**

General Instructions

This Excel form is to be used to request federal Transportation Alternatives (TA) and CMAQ funding available through the Maricopa Association of Governments (MAG) for projects to be included in the FY2018-FY 2022 MAG Transportation Improvement Program. Funding is available for Federal Fiscal Year (FFY) 2021 and 2022.

This application form includes:

- Instructions and Schedule
- Cover Sheet
- Part A - Contact and Project Description
- Part B - Detailed Project Description
- Part C - Required and Optional Attachments
- Part D - Cost Estimate Spreadsheet
- Part E - Total Project Budget and Schedule
- Part F - Checklist and Signature Page
- GIS Submittal Instructions
- ADOT Fee Sheet
- Transportation Alternatives Program and Map
- Congestion Mitigation Air Quality Program and Map

Each part is a separate tab of this excel file. Please complete the Cover Sheet and Parts A - F. Alternative application forms are available upon request.

Transmittal Instructions

All applications are due on **Monday, September 25, 2017 by 10:00 a.m.** Both an electronic and printed copy of the application and all attachments are required.

The electronic copy of the application includes the following:

- a. A completed Excel spreadsheet application in MS Excel format (Please do not send a PDF or Fax instead of the spreadsheet)
- b. A PDF or FAXed copy of Part F of the Excel spreadsheet with the signature block signed and dated
- c. A PDF or FAXed copy of all required attachments

The printed copy of the application includes the following:

- a. A printout of the completed Excel spreadsheet application, with the signature block in Part F signed and dated
- b. Printed copies of all required attachments

MAG Mailing Address

Electronic applications should be sent to the following address:

[mailto: MAG Staff](mailto:MAG Staff)

Printed copies should be addressed as follows:

Maricopa Association of Governments
ATTN: Teri Kennedy,

302 N. 1st Avenue, Suite #300,
Phoenix, AZ 85003.

If a complete, signed electronic copy is received by the submittal deadline, applicants have five working days to submit a printed copy of the application.

Late and/or incomplete applications will not be accepted.

INSTRUCTIONS AND SCHEDULE

The due date and time for project applications to be submitted to MAG is
Monday, September 25, 2017 at 10:00 a.m.

Application Workshops and Open Working Group Meeting Schedule*

Date	Time	Room	Workshop/Open Working Group
Monday, August 21, 2017	10:00-Noon	Saguaro	Workshop on MAG Transportation Programming and Federal Fund Project Applications
Tuesday, September 12, 2017	10:00-11:00 AM	Chaparral	Open Working Group - Federal Fund Project Applications
Tuesday, September 19, 2017	11:00-Noon	Chaparral	Open Working Group - Federal Fund Project Applications

* All meetings will be held on the 2nd Floor of the MAG Offices at 302 North 1st Ave, Phoenix, Arizona 85003

MAG CONTACT INFORMATION

Contact Name	Phone	E-Mail Address
MAG Offices	602-254-6300	
Jason Stephens	602-254-6300	Jstephens@azmag.gov

Transportation Alternatives / CMAQ Application for
FY 2021 and FY 2022 Projects

Multi-Modal Connections to Thomas Rd Bus Rapid Transit (Phase 2)

City of Phoenix

**APPLICATIONS ARE DUE AT MAG OFFICES BY
Monday, September 25, 2017 at 10:00 a.m.**

(LATE AND/OR INCOMPLETE APPLICATIONS WILL NOT BE ACCEPTED)

Phoenix: Multi-Modal Connections to Thomas Road Bus Rapid Transit (Phase 2)**PART A - CONTACT AND PROJECT DESCRIPTION****Contact Information**

1. Name of Sponsoring Agency	Phoenix
2. Agency Contact Name	Eileen Yazzie
3. Phone Number of Agency Contact	602.534.5692
4. E-Mail Address of Agency Contact	eileen.yazzie@phoenix.gov
5. Mailing Address of Agency Contact	200 W. Washington Street, 5th Floor, Phoenix, AZ 85003

Project Description

6. Please provide the Project Title.	Multi-Modal Connections to Thomas Road Bus Rapid Transit (Phase 2)
7. Please provide a concise, specific description of the project (250 character limit):	
<p>The proposed project will provide multi-modal enhancements on north/south streets that connect to Thomas Road between 43rd Avenue 55th Avenue, and corridor improvements on Thomas Road. Bus Rapid Transit (BRT) on Thomas Road is scheduled to open in 2023 (or beyond), and this project supports enhanced and safer, walking and bicycling connections to Thomas Road. This will provide easier access from neighborhoods, schools, and places of employment to the Thomas Road BRT. Today, the current Thomas Road bus route is the most heavily used bus route in the state; enhancements to north and south roads provides better transit accessibility today and in the future.</p>	
8. Please provide the project limits:	
<p>43rd Avenue: Grand Canal to Thomas Road; 43rd to 51st Avenue; 51st Avenue: Grand Canal to Thomas Road; 55th Avenue: Grand Canal to Encanto Boulevard</p>	

Phoenix : Multi-Modal Connections to Thomas Road Bus Rapid Transit (Phase 2)

PART B-DETAILED PROJECT DESCRIPTION

This part of the form identifies the current characteristics and proposed improvements for each project.

The purpose of Part B is to provide sufficient information to evaluate the cost estimate for the project and to provide assurance that the project will be capable of meeting the ADOT administered federal design review and clearance process. This process requires environmental, ROW and utilities clearances and a bid ready design prior to FHWA approval to encumber federal funding for construction.

NOTE: For Part B, Questions 14-20, the specified distance will vary (and update automatically) depending on the project type identified in Part B, Question 1. Pedestrian-only projects will use a distance of 1/4 mile, while bicycle and Shared-Use projects will use a distance of 1/2 mile.

1. Please select which funding source(s) this project is applying for. Check all that apply.

- Congestion Mitigation and Air Quality (CMAQ)
- Transportation Alternatives (TA)

2. What type of project is this? (Check all that apply)

- | | |
|-----------------------------------------------------------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <input type="checkbox"/> Bicycle Lane (4' min. w/o curb/gutter) | <input type="checkbox"/> Shoulder paving is within 4-miles of a PM-10 Monitor |
| <input checked="" type="checkbox"/> Bicycle Lane (5' min. with curb/gutter) | <input checked="" type="checkbox"/> Wide Sidewalk (8' min.) |
| <input type="checkbox"/> Buffered Bike Lane | <input checked="" type="checkbox"/> Detached Sidewalk with 4' min. buffer |
| <input type="checkbox"/> Protected Bike Lane | <input type="checkbox"/> Signalized Crossing |
| <input checked="" type="checkbox"/> Shared-use path (10' min.) | Other: |
| <input checked="" type="checkbox"/> Sidewalk (5' min.) | <input type="text" value="Minor Landscaping, signage, green painted bicycle markings, new curb and gutter in some areas, ADA upgrades, and improved access points for multiple frontage roads."/> |
| <input type="checkbox"/> Planning Study | |

3. What other major elements are included in this project? (Check all that apply)

- | | |
|------------------------------------------------------------|-----------------------------------|
| <input type="checkbox"/> Bridge (overpass) | Other: |
| <input type="checkbox"/> Tunnel (underpass) | <input type="text" value="None"/> |
| <input type="checkbox"/> Signalized midblock crossing/HAWK | |
| <input type="checkbox"/> Countdown Pedestrian Signal | |

4. What amenities are included in this project?

- | | | | |
|---------------------------------|----------------------------------------|-----------------------------------------------------------------------------------------|-----------------------------------------------|
| <input type="text" value=""/> | Number of Bike racks/lockers | <input type="text" value=""/> | Number of Seating/Rest Area(s) |

| <input type="text" value="30"/> | Number of Way-finding Signs | <input type="text" value=""/> | Number of bicycle/pedestrian counting devices |
| <input type="text" value=""/> | Number of Trash receptacles | Other: | |
| <input type="text" value="50"/> | Number of Trees | <input type="text" value="Bicyclist and Pedestrian frontage road access improvements"/> | |
| <input type="text" value=""/> | Number of new openings in street walls | | |
| <input type="text" value=""/> | Number of Shade Structures | | |

Phoenix : Multi-Modal Connections to Thomas Road Bus Rapid Transit (Phase 2)

PART B-DETAILED PROJECT DESCRIPTION

5. Please describe the existing condition of the project site and any problem(s) being addressed.

43rd Avenue - Grand Canal to Thomas Road: existing sidewalks.

Thomas Road - 43rd Avenue to 55th Avenue: existing sidewalks no bicycle lanes.

51st Avenue - Grand Canal to Thomas Road: existing sidewalks.

55th Avenue - Grand Canal to Encanto Boulevard: no bike lanes and partial existing sidewalks.

The majority of facilities lack landscaping.

Phoenix : Multi-Modal Connections to Thomas Road Bus Rapid Transit (Phase 2)

PART B-DETAILED PROJECT DESCRIPTION

6. Please describe the work being done and improvements being made as part of this project.

43rd Avenue - Grand Canal to Thomas Road/Thomas Road 43rd Avenue to 42nd Drive: Redo the southeast and southwest corners of Osborn Road and 43rd Avenue for 8 feet sidewalk, landscaping, and frontage road connecting upgrade, add in bike route signage and bike sharrow markings with green paint on east and west side frontage roads, ADA upgrades on sidewalks at Flower Street, Monterey Way, Cheery Lynn Road, Earll Drive, Pinchot Avenue, Verde Lane, upgrade sidewalks to 8 feet and separated from roadway south of Verde Lane on both east and west side and include landscaping, on north side of Thomas Road between 43rd Avenue and 42nd Drive, upgrade sidewalks to 8 feet and separated from roadway, and include landscaping.

Thomas Road: 43rd Avenue to 51st: on north side, add in new landscaping, widen sidewalk (after major utility pole) to 8 feet detached if possible, and signage for bike route connectivity/wayfinding (6 new signs);

51st Avenue: Grand Canal to Thomas Road/Thomas Road: 51st Avenue to 51st Lane: Upgrade the southeast and southwest corners of Osborn Road and 51st Avenue for 8 feet sidewalk, landscaping, and frontage road connecting upgrade, add in bike route signage and bike sharrow markings with green paint on east and west side frontage roads, upgrade sidewalks to 8 feet and separated (meander between right-of-way lines and utility poles - 1st preference is separated from street) from roadway on east side and upgrade landscaping, ADA upgrades at intersecting neighborhood streets and transit stops, at northwest and northeast corners, 8 foot separated sidewalks with landscaping, update the frontage road connections, narrow driveways, and remove one driveway on the northwest corner, on north side of Thomas Road between 51st Avenue and 51st Lane, upgrade sidewalks to 6 -8 feet and separated from roadway, include landscaping.

55th Avenue - Grand Canal to Encanto Boulevard: between Osborn Road and Earll Drive, restripe for parking, bike lane, and add new separated 6 foot sidewalk on west side, include green paint bike markings, Earll Drive to Thomas Road: restripe for parking, bike lane, include green paint bike markings, Thomas Road to Encanto Boulevard: install sharrows.

7. What do you hope to achieve with this project?

Thomas Road has a very high number of people walking and biking to the street (from the north and the south) and on the street. This is directly linked to the high number of residents using public transit. Thomas Road carries the largest amount of people riding a bus in the state. The Thomas Road bus also has the highest frequency of any transit route in the City, running every 8 minutes in the morning and evening periods. Analyzing just the stops between 55th Avenue and 43rd Avenue, there are between 722 and 1,054 people riding this bus on any given day. While this corridor has a high number of people walking, biking, and using transit, it is also unsafe. Thomas Road in its entire corridor in Phoenix, had 105 bicycle crashes on it, and 90 crashes approaching the corridor between 2011 and 2015. Most recently, a bicyclist was hit and died on Thomas Road near 46th Avenue on September 20, 2017.

The goal of this project is to fill in the missing gaps for pedestrians and bicyclists, enhance the pedestrian atmosphere by creating larger walkways, eliminating barriers at residential frontage roads, and create transit accessible communities adjacent to the existing Thomas Road bus route, and to the future Thomas Road Bus Rapid Transit route. Additionally, elements of the project will address utilizing the residential frontage roads as safe bicycle facilities for bicyclists. Places proposed to widen sidewalks to 8 feet are because the adjacent street has no bicycle lanes.

Phoenix : Multi-Modal Connections to Thomas Road Bus Rapid Transit (Phase 2)

PART B-DETAILED PROJECT DESCRIPTION

8. Safety improvements to be included for this project: (Check all that apply)

- Medians with pedestrian crossing islands
- Roadway Reconfiguration (Road Diet)
- Striping/re-striping to narrow vehicle lanes
- Color pavement or similar treatment
- Lighting
- Landscape buffer between sidewalk and roadway
- Rectangular Rapid Flash Beacon (RRFB)
- Driver Feedback Sign

Other

Wider sidewalks, elimination of some driveways, and use of residential frontage roads for bicycle facilities.

9. Does this project include a road safety education component?

- Yes
- No

Please Explain:

10. How does this project or planning study address safety?

The main goals of this proposed project is to enhance the existing pedestrian and bicycling environment to encourage access to Thomas Road transit by way of providing safer and accessible facilities. The project is doing this by installing sidewalks, wider sidewalks, detached sidewalks, using the frontage roads as safe routes for bicyclists, narrowing vehicle lanes, and installing wayfinding and routing signs for bicyclists at some locations.

11. How does the project improve ADA facilities for persons with disabilities?

Like with all City of Phoenix projects, we will upgrade all ADA ramps on each street that is part of this project. Also, the application proposes upgrading existing sidewalks to larger 6 to 8 feet sidewalks, upgrades in access to frontage roads, and in many locations, separated sidewalks from the street. This will allow for a safer and more convenient sidewalk for all users, including those with disabilities.

Phoenix : Multi-Modal Connections to Thomas Road Bus Rapid Transit (Phase 2)

PART B-DETAILED PROJECT DESCRIPTION

12. Describe how this project will improve access from nearby neighborhoods and/or adjacent uses:

This project will improve access by providing bicycle lanes, bicycle facilities, improved sidewalks, ADA upgrades, and area wayfinding for connections into Thomas Road Transit. It also provides additional connections to major east/west bikeways on Grand Canal and Encanto Boulevard.

13. How does the project create a sense of place?

This group of improvements adds to the total transportation network for this area emphasizing the pedestrian and bicycle network as it connects transit. People are walking and biking all day long on Thomas and connecting streets, this project will enhance current conditions for safety.

14. Connectivity: (Check all that apply)

Project fills a gap in the system
Explain:

The project provides new bicycle facilities and sidewalks at select locations.

Project connects to other local bikeways
List of connected bikeways:

Grand Canal, Encanto Boulevard, and Osborn Road.

Multi Jurisdictional Project (please include letter of support (See Part C)
List of Participating Jurisdictions:

21 Total length of bikeways directly connected by this project (in miles)

15. Number of transit stops this project will connect to. Do NOT count major transit facilities (park and rides, transit centers, etc.) in this question. List associated route(s) and their peak frequency, using Valley Metro as the source.

21 Within 1/2 mile

16. Number of transit routes serviced by the transit stops in question 15 that this project will connect to. List associated route(s) and their peak frequency, using Valley Metro as the source.

4 Within 1/2 mile

List routes and frequency:

Thomas Road - Route 29, peak frequency is 8 minutes; 43rd Avenue - Route 43, peak frequency is 30 minutes; 51st Avenue - Route 51, peak frequency is 30 minutes; MARY - Neighborhood Circulator: MARY is a free neighborhood circulator service provided by Phoenix Public Transit. Mini-buses travel the 21-mile route in both directions every hour. On major streets, there are designated bus stops. On neighborhood streets, the mini-bus can be flagged down to have it stop.

17. Number of major transit facilities (park and rides, transit centers, etc.) served by this project:

0 Within 1/2 mile

List:

Phoenix : Multi-Modal Connections to Thomas Road Bus Rapid Transit (Phase 2)

PART B-DETAILED PROJECT DESCRIPTION

18. Number of non-commercial activity centers (parks, libraries, senior centers, recreational centers, etc.) this project will benefit:

Within 1/2 mile

List:

Sueno Park, Orme Park, Marivue Park, and Adam Diaz Senior Center

19. Number of commercial and employment destinations (malls, retail centers, business parks, etc.) this project will benefit (for example, a mall is ONE destination; do NOT count every store in a mall as a separate destination):

Within 1/2 mile

List:

Maryvale Baseball Park

20. Number of K-8 public schools this project will benefit:

Within 1/2 mile

List:

CW Harris Elementary School, Justing Spitalny Elementary, Frank Borman Elementary, Glenn Downs Elementary, Joseph Zito Elementary, and St. Vincent de Paul Catholic School

21. Number of other schools (charter schools, high schools, colleges, and universities) this project will benefit:

Within 1/2 mile

List:

22. Number of activity centers for air quality cost effectiveness (i.e. bank, church, hospital, health care facility, light rail station, park-and-ride lot, office park, post office, public library, shopping area, grocery store, university or junior college):

Within 1/4 miles

List:

St. Vincent de Paul Parish, Urgent Care/Health Care Facility, Shopping Area

1/4 miles to 1/2 miles

List:

Phoenix : Multi-Modal Connections to Thomas Road Bus Rapid Transit (Phase 2)

PART B-DETAILED PROJECT DESCRIPTION

23. What are the demographics of the area served:

[MAG Demographic Mapping](#)

5,599 People Per Square Mile

37.30% % Families in Poverty

Use the MPO/COG Demographic Mapping link above. Zoom in to your project area. On the right-hand side of the screen, under "Reporting," select "Custom Summary." Next, select "Corridor of Interest." Left-click to begin drawing. Draw a line through all census block groups adjacent to your project, left-clicking where needed to change the direction of the line. Double-click to finish drawing the line. The selected census block groups will become highlighted in blue. A pop-up box will appear with "Results for Selected Block Groups." Select the "Summary Report" tab, and use the data found there. You may export the results to Excel (click the printer icon at the top-right side of the pop-up window) for your records.

24. Please provide the following information on the facility on which the improvement will be located.

For a linear project, please enter the Facility Name, Starting Limit and Ending Limit:

43rd Avenue: Grand Canal to Thomas Road, Thomas Road 43rd Avenue to 55th Avenue; 51st Avenue: Grand Canal to Thomas Road; 55th Avenue: Grand Canal to Encanto Boulevard

For a point project (e.g. an intersection or crossing), please enter a Facility Name and a Crossing Feature:

Federal Functional Classification of the Facility:

[Link to MAG webpage for Federal Functional Classification Map](#)

Type of Facility the Improvement will be located on:

0 Length (in Miles)

Posted Speed Limit (MPH)

Number of Travel Lanes Before Project

Number of Travel Lanes After Project

Phoenix : Multi-Modal Connections to Thomas Road Bus Rapid Transit (Phase 2)

PART B-DETAILED PROJECT DESCRIPTION

Phoenix : Multi-Modal Connections to Thomas Road Bus Rapid Transit (Phase 2)

PART B-DETAILED PROJECT DESCRIPTION

25. Please provide an estimated traffic volume (ADT) on the nearest parallel arterial.

ADT Estimate

Date Counted

Name of road the traffic count was taken from

Description of Methodology and Source used for the ADT Estimate

26. Federal law requires that all federally funded projects comply with a federal environmental clearance. For projects that have a minimum ground disturbance, environmental surveys are required and an environmental document will need to be prepared, which typically requires 12 months to complete.

Describe any known cultural, historical and biological resources, hazardous materials or other environmental issues that could affect work on the segment.

27. Current ROW: (Check all that apply)

- Agency owns all ROW Needed
- ROW to be acquired
- Owners will donate ROW

- Agency owns easement
- Agency has right-of-use (i.e. canal)
- Condemnation may be required

28. Please describe any right of way issues associated with the project.

29. Please indicate whether all parcels for this project have been inventoried.

Yes

No

Phoenix : Multi-Modal Connections to Thomas Road Bus Rapid Transit (Phase 2)

PART B-DETAILED PROJECT DESCRIPTION

30. Current Utilities in or abutting the alignment: (Check all that apply)

<input type="checkbox"/>	No Utility in or abutting the alignment	<input checked="" type="checkbox"/>	Private Structures
<input type="checkbox"/>	Canals & Drainage		
<input checked="" type="checkbox"/>	Power Lines & Cables		Other:
<input checked="" type="checkbox"/>	Pipelines, Sewer and Water		<input type="text"/>

31. Please describe any utility conflicts that will need to be addressed.

32. Guidelines used to develop project: (Check all that apply)

<input checked="" type="checkbox"/>	AASHTO Guide for Bicycle Facilities	<input type="text" value="Other:
Phoenix Bicycle Master Plan
Phoenix Complete Street Ordinance"/>
<input type="checkbox"/>	MAG Pedestrian Policies and Design Guidelines	
<input type="checkbox"/>	MAG Complete Streets Guide	
<input checked="" type="checkbox"/>	MAG Designing Transit Accessible Communities	
<input type="checkbox"/>	MAG Valley Path Brand & Wayfinding Signage Guidelines	
<input checked="" type="checkbox"/>	RPTA Bus Stop Program and Standards	

33. Jurisdiction has the following policies for improved bicycle/shared use facilities:

With new development and capital improvement projects, bike lanes on arterial streets are:	<input type="text" value="Not Addressed"/>
With new development and capital improvement projects, bike lanes on collector streets are:	<input type="text" value="Not Addressed"/>
With pavement restoration or regular pavement maintenance on arterial streets, bike lanes are:	<input type="text" value="Recommended"/>
With new development or during development retrofits, shared-use paths are:	<input type="text" value="Recommended"/>
Bicycle program implemented, including bike education, safety events, and bike maps	<input type="text" value="Yes"/>
Complete Streets Policy	<input type="text" value="Yes"/>

34. The project is: (Check one)

Identified in General Plan, council adopted policy, or Capital Improvements Program (provide source)

List:

Phoenix : Multi-Modal Connections to Thomas Road Bus Rapid Transit (Phase 2)

PART B-DETAILED PROJECT DESCRIPTION

Consistent with general policy/practices, but not formally identified (provide source)

Explain:

Bicycle Master Plan and Complete Street Ordinance. Public Transit Element of the General Plan which calls for an efficient multi-modal transportation system and the prioritization of new and expanded transit service in corridors with high percentages of transit-dependent populations.

Not addressed by jurisdiction's plans, policies, or practices

Explain:

Phoenix : Multi-Modal Connections to Thomas Road Bus Rapid Transit (Phase 2)

PART B-DETAILED PROJECT DESCRIPTION

35. How will the applicant measure the success of this project?

By evaluation of increased walking/biking activity and reviewing collision records.

36. Will bicycle/pedestrian count technology be incorporated? Will the devices broadcast automatic updates or require manual data collection? If manual, how will the agency identify staff resources to dedicate to collecting the data?

No

37. Will the project include an education/marketing component upon completion of construction, to publicize the project and increase citizen awareness of the project impact and benefits? If yes, please describe below.

The project area will be included in the Phoenix Bicycle and Pedestrian Safety Program and School Safety Program both administered in the Traffic Services Division of the Street Transportation Department.

38. Will the project include wayfinding signage elements? If yes, please describe below.

Yes. Wayfinding signage will be implemented in certain areas along the corridor to show locations of major area activity centers and provide a unifying theme.

Part C - Required Attachments
<p>Listed below are the required attachments for this project application. These attachments are intended to demonstrate the need of the project. They should clearly show the segment alignment and features that connect to other bicycle, pedestrian, and/or shared-use facilities, as well as washes, canals, railroad crossings, and other crossing features that may affect the project.</p> <p><u>PLEASE INCLUDE EACH ATTACHMENT AS A SEPARATE .JPEG OR .PDF FILE ON YOUR APPLICATION CD.</u></p> <p>Please insert ALL attachments at the end of your printed application, in the order they are listed below. See below for alternate submission requirements for GIS coverage files.</p>
Required Attachments:
<p>1) Please attach a map showing the general location of the proposed project in relation to the region, including a north arrow.</p>
<p>2) Please attach a map with streets labeled showing the detailed location(s) of the proposed project, including a north arrow.</p>
<p>3) Please attach up to four photos indicating existing conditions in the project area (two 4x6 photos per page).</p>
<p>4) Please attach a simple diagram of the current typical cross section of the segment, that shows the right of way limits, widths, sidewalks and shoulders (if any), and the lanes of travel.</p>
OPTIONAL Attachments:
<p>(OPTIONAL) Attach up to two photos showing what the completed project will look like, if available (these can be photoshop, renderings, etc.).</p>
<p>(OPTIONAL) Attach up to three (3) letters of support for the project.</p>
<p>(OPTIONAL) If the applicant will be providing a GIS coverage (shapefile or geodatabase), please see the tab labeled "GIS Transmittal Instructions"</p>

Phoenix: Multi-Modal Connections to Thomas Road Bus Rapid Transit (Phase 2)

PART D - TRANSPORTATION ALTERNATIVES COST ESTIMATE FORM										
Please provide a detailed cost estimate for this project. The data entered in this cost estimate sheet will automatically transfer into the correct fields in Part E. Rows 1-9 will remain visible at the top of this page at all times.

Phoenix: Multi-Modal Connections to Thomas Road Bus Rapid Transit (Phase 2)

PART E - TOTAL PROJECT SCHEDULE AND BUDGET

Please verify that the cost and programming estimates for the total project are correct below. The numeric values on this sheet (in GREY) are automatically populated from the cost estimate sheet (Part D) and cannot be modified. If there are any errors in the numeric values on this sheet, please verify and correct the numbers you have entered into the cost estimate sheet (Part D). You MUST fill in the GREEN portions of Part E manually.

The design for the project should be programmed at least 1 year, preferably 2 years, prior to construction. Utilities and right of way should be programmed at least 1 year prior to construction, but may occur in the same year as construction depending on utility and right of way concerns that are identified in questions 24-27 in Part B.

Cost Estimate for the Project Including ALL Segments	Cost	Additional Notes (if needed)
1. ADOT Fee	\$10,000	
2. Design	\$614,984	
3. Right of way	\$150,000	
4. Utilities	\$100,000	
5. Construction	\$2,483,719	Contingency included in construction cost
6. Contingency		No more than 20% of Construction Cost
7. Total Cost	\$3,358,703	

8. Will the agency maintain the improvement after it is completed?

9. Expected Annual Maintenance Cost

10. Identify Source of Maintenance Funds

Requested MAG Programming	Year	Short Work Description (E.g. Construct Multiuse Path)	Local Funding Source	Local Cost	Federal Cost	Total Cost	Local Share
11. Design (Optional)	2019		HURF	\$614,984	Not Available	\$614,984	100.0%
12. Right of way (Optional)	2020		HURF	\$150,000	Not Available	\$150,000	100.0%
13. Utilities (Optional)	2020			\$0	Not Available	\$0	
14. Other (Optional)				\$0	Not Available	\$0	
15. Construction	2022		HURF	\$147,272	\$2,436,447	\$2,583,719	5.7%
16. Total Costs				\$912,256	\$2,436,447	\$3,348,703	27.2%

PART F - SIGNATURE AND CHECKLIST

Checklist

This checklist is included to facilitate applicant review and verification that all required fields in the form have been completed.

COVER SHEET	Complete?
Cover Sheet is completely filled out	Yes
PART A - Contacts and Project Description Fields	Complete?
Contact Information, fields 1 – 5 are complete	Yes
Project Description, fields 6 - 8 are complete	Yes
PART B - Project Description	Complete?
Fields 1 - 14 (Project Description) are complete	Yes
Fields 15 - 17 (Transit) are complete	Yes
Fields 18 – 22 (Attractors and Demographics) are complete	Yes
Fields 23 – 30 (Traffic, Environmental, ROW, and Utilities) are complete	Yes
Fields 31 – 33 (Guidelines, Policies, and Plans) are complete	Yes
Fields 34 – 37 (Maintenance, Performance Measurement, and Wayfinding) are complete	Yes
PART C - Required Attachments	Complete?
Field 1 - Map showing the general location of the proposed project in relation to the region, including a north arrow provided in the printed application and the PDF application.	Yes
Field 2 - Map with streets labeled showing the detailed location(s) of the proposed project, including a north arrow provided in the printed application and the PDF application.	Yes
Field 3 - Up to four (4) photos of existing conditions are provided in the printed application and the PDF application (two 4x6 per page).	Yes
right of way limits, widths, sidewalks and shoulders (if any), and the lanes of travel in the printed application and the PDF application.	Yes
(OPTIONAL)- Up to two (2) photos/renderings of the completed project are provided in the printed application and the PDF application.	Yes
(OPTIONAL)- Up to three (3) letters of support for the project are provided in the printed application and the PDF application.	Yes
(OPTIONAL)- GIS coverage (shapefile or geodatabase) is provided on the CD with the application.	Yes
PART D - Cost Estimate Worksheet	Complete?
Sponsoring Agency, Project Title, and Application Date are complete	Yes

Part A - Scoping is complete	Yes
Part B - Final Preliminary Engineering Design is complete	Yes
Part C - Right-of-Way Acquisition is complete	Yes
Part D - Utility Relocation is complete	Yes
Part E - Construction or Implementation is complete	Yes
Parts F, G, and H - Costs are complete and accurate	Yes
PART E - Total Project Schedule and Budget Including All Segment Fields	Complete?
Fields 1 – 7 are complete and costs are accurate	Yes
Field 8 - 10 are complete	Yes
Fields 11 – 15 Years are complete	Yes
Fields 11 – 15 Local Funding Sources are complete	Yes
Fields 11 – 15 Local Costs are complete and accurate	Yes

Field 11 - 15 Federal Costs are complete and accurate	Yes
Field 16 Total Costs are complete and accurate	Yes
PART F - Signature and Checklist	Complete?
Entire checklist is completed.	Yes
Form is signed by MAG member agency's manager/administrator or designated representative.	Yes
Name, title and date fields under the signature are completed.	Yes

SIGNATURE(S):

As the MAG member agency's manager/administrator or designated representative, I certify that this application is accurate and complete and that the project will be included in the sponsoring MAG member agency's local CIP/TIP if the project is selected for federal funding.

Signature:	
Name:	Kini Knudson
Title:	Assistant Street Transportation Director/City Engineer
Date:	9/22/2017

Instructions for the Submittal of GIS Data for Funding Applications

It is preferred that, when possible, member agencies submit GIS data representing the locations of projects defined in their Applications. For member agencies unable to meet this requirement, MAG staff is available to assist in this area.

Submission Requirements

GIS Data – For each geometry type (point, line, polygon), please provide a single GIS shapefile or feature class for your jurisdiction. Example: if you are submitting Project Applications that are for both linear features (bike lanes) and point features (crossings), you would submit a total of two shapefiles or geodatabase feature classes along with your Project Application.

File Formats – Agencies that are able to submit GIS data along with Applications shall provide the data in one of three formats that are compatible with ESRI products: (1) shapefile, (2) Personal Geodatabase, or (3) File Geodatabase.

Spatial Reference – The preferred spatial reference system of submitted GIS data is State Plane Arizona Central NAD 83 HARN.

Attributes – All GIS data submitted shall, at a minimum, have the following attributes:

- PROJECT_TITLE – the name of the project; this should be the same as the Project Title in the Project Application
- LOCATION – (optional) a description of the location of the project. Linear features should be described by their start and end locations. Polygon features should be described using streets, water courses, canals, city boundaries, or other landmarks as a means of describing the location of the project.

ADOT Review Fees for Certification Accepted Agencies/1

ADOT SECTION	FUNCTION	RATE	HOURS	CHARGE/2
Environmental Planning	Environmental Planning	\$ 50	100	\$ 5,000
Urban Project Management	Project Manager	\$ 60	60	\$ 3,600

Roadway Group	Roadway Design	\$ 55	40	\$ 2,200
Roadway Group	Roadway Review	\$ 70	5	\$ 350
Traffic	Traffic Design	\$ 55	45	\$ 2,475
Urban Project Management	Project Manager	\$ 60	40	\$ 2,400
Urban Project Management	Project Coordinator	\$ 60	10	\$ 600
SUBTOTAL			542	\$ 29,975
STAFF GRAND TOTAL				\$ 30,000

Notes:

1. Based on material provided by ADOT in July, 2015. All functions, rates, hours and costs are as listed in the material provided by ADOT. Items listed in the ADOT information for which no rates, hours and costs were included were omitted from the table.

2. Charges to agencies will be based on work performed by ADOT. Costs accrued will vary depending on project characteristics and may be either higher or lower than those listed in the table.

TRANSPORTATION ALTERNATIVES PROGRAM

Eligible Activities

Through consultation with MAG member agencies and with the approval of the MAG Regional Council, MAG has determined that the MAG Transportation Alternatives program will prioritize the following eligible activities:

1) Transportation Alternatives as defined in 23 U.S.C. 101(a)(29) (MAP-21 §1103):

A. Construction of on-road and off-road trail facilities for pedestrians, bicyclists, and other nonmotorized forms of transportation, including sidewalks, bicycle infrastructure, pedestrian and bicycle signals, traffic calming techniques, lighting and other safety-related infrastructure, and transportation projects to achieve compliance with the Americans with Disabilities Act of 1990 (42 USC 12101 et seq.).

B. Construction of infrastructure-related projects and systems that will provide safe routes for non-drivers, including children, older adults, and individuals with disabilities to access daily needs.

C. Conversion and use of abandoned railroad corridors for trails for pedestrians, bicyclists, or other nonmotorized transportation users.

2) The safe routes to school (SRTS) program eligible projects and activities listed at section 1404(f) of the SAFETEA-LU:

A. Infrastructure-related projects

http://www.fhwa.dot.gov/environment/safe_routes_to_school/guidance/#toc123542197

B. Noninfrastructure-related activities (There is a separate MAG application for non-infrastructure SRTS)

http://www.fhwa.dot.gov/environment/safe_routes_to_school/guidance/#toc123542199

Eligible Project Sponsors

MAG has determined that, in order to qualify for MAG TA funding, any project application MUST be submitted by a MAG Member agency. Eligible entities who are not MAG Member Agencies may partner with a MAG Member Agency to submit a project, but the MAG Member Agency must be the primary project applicant.

Under 23 U.S.C. 213(c)(4)(B), the **Eligible Entities** to receive TAP funds are:

Local governments, regional transportation authorities, transit agencies, natural resource or public land agencies, school districts, local education agencies, or schools, tribal governments, and any other local or regional governmental entity with responsibility for oversight of transportation or recreational trails (other than a metropolitan planning organization or a State agency) that the State determines to be eligible, consistent with the goals of subsection (c) of section 213 of title 23.

State DOTs and MPOs are not eligible entities as defined under 213(c)(4)(B) and therefore are not eligible project sponsors for TAP funds. However, State DOTs and MPOs may partner with an eligible entity project sponsor to carry out a project.

MAG TA PROGRAM GOALS

1. Improve pedestrian and bicyclist accessibility and connectivity on the transportation network.
2. Assist in providing a safe environment for the bicyclists and pedestrians on both the on-street and the off-street transportation networks.
3. Make bicycling and walking to public K-8 schools a safer and more desirable transportation alternative to motorized vehicles.

DEFINITIONS:

Accessibility: The ability of transportation infrastructure improvements to provide better access to transit stops, destinations, schools, homes/subdivisions, and employment for people that are walking or biking for all ages and abilities.

Connectivity: The ability of transportation infrastructure improvements to link the proposed project to other bike/pedestrian facilities, completing a gap in a bike/pedestrian facility, or a city/town.

Safety: Projects that make a street safer by addressing a perceived or observed safety problem, including (but not limited to): high vehicle speed, crashes, striping, intersection crossings, or mid-block crossings.

MAG TA PROGRAM OBJECTIVES

- Fund eligible Transportation Enhancement and Safe Routes to School (SRTS) projects through the federal MAP-21 Transportation Alternatives fund.
- Fund bike and pedestrian improvement projects that provide a safe transportation route or improve a transportation route for (K-8) students to schools.
- Fund bike and pedestrian improvement projects that address a perceived or observed problem/safety issue, including (but not limited to) unsafe street crossings; missing, narrow or poorly maintained sidewalks; adding/improving bike lanes (restriping, widening, colored pavement); or disconnected/inaccessible bike or pedestrian facilities, while connecting residents to transit stops/centers or other destinations.
- Fund Safe Routes to School (SRTS) non-infrastructure projects that educate and encourage K-8 students, parents, and school resources officers/staff on bicycle and walking options.
 - o GUIDELINE - Funding will be set aside at 9% of total Transportation Alternatives funding, with a maximum yearly total of \$400,000. If the total value of projects awarded for Safe Routes to School non-infrastructure projects is less than the total programmed set-aside, remaining funds will be applied toward eligible infrastructure projects.
 - o GUIDELINE – These projects will need to evaluate on a quarterly basis as required by the federal government, and address enforcement and encouragement. .
- Utilize evaluative tools based on quantitative and qualitative performance measures to inform project rankings in the application process.

CONGESTION MITIGATION AIR QUALITY (CMAQ) PROGRAM

Federal Eligibility Requirements

Title 23, Section 149 of the United States Code and as implemented in federal regulations provides for a number of eligibility requirements for CMAQ funding. These include the following:

- 1) The project must be located in a nonattainment area or maintenance area for at least one of the following: carbon monoxide, ozone or particulate matter (PM-10 and PM-2.5)
- 2) The project may not add through lane capacity

MAG Requirements for the Current Call for Projects

MAG has the following requirements:

- 1) The call for projects in the application is limited to MAG member agencies. Member agencies may sponsor projects on behalf of third parties, but must comply with all applicable State and Federal regulations.
