| <input type="checkbox"/> | Curb Ramps/Slope/Landings | <input type="checkbox"/> | Other: Please Describe |

Please provide a short narrative. Be specific about how this project will benefit people with disabilities. Include in the description the significance of the project to the participating agency(s).

This project serves to address ADA accessibility issues at 60 bus stops throughout the City of Mesa. There are a number of bus stops within Mesa that do not meet ADA standards for boarding and alighting areas and do not provide adequate wheelchair access in their current state. The funds from this project along with our local match will allow Mesa to improve 60 bus stops to meet or exceed ADA requirements. A list of these stops, including estimated repair costs and ridership figures is attached.
