MAG IMPLEMENTATION STUDIES

According to House Bill 2546, 10.5 percent of Regional Area Road Funds (RARF) collected is to be allocated to arterial streets, including capital expenses and implementation studies. As established in the MAG Regional Transportation Plan approved in 2003, approximately 3.65% percent of the ALCP RARF funds are allocated for planning studies for the region. Implementation studies are conducted by MAG and approved in the MAG Unified Planning Work Program (UPWP).

The funding allocated for implementation studies is contingent on RARF revenue collections. As a result, the amounts programmed in the ALCP are estimates derived the Arizona Department of Transportation (ADOT) RARF Revenue Forecasts published annually. The remaining regional budget for the implementation studies fluctuate concurrently with the forecasts. Therefore, the amount of funding published in the ALCP varies by fiscal year. Table 1 details all implementation studies funded by RARF Revenues to date.

ALCP INFLATION RATES

The Regional Transportation Plan (RTP), approved in 2003, listed the original Arterial Life Cycle Program project budgets in 2002\$. Traditionally, ALCP projects' remaining regional budgets have been adjusted to account for the past year's inflation. To keep the program fiscally constrained, however, Regional Council has eliminated inflation in every annual update beginning with the Fiscal Year (FY) 2013 ALCP. Reimbursements programmed in fiscal years 2021 to 2026 are expressed in 2020 dollars, though they have not been inflated since 2011. Past fiscal years are expressed in the previous year's dollars. For example, FY11 expenditures are expressed in 2010\$.

Per the approved *ALCP Policies and Procedures*, remaining regional budgets are adjusted annually for inflation based on the All Items United States Consumer Price Index (CPI), All Urban Consumers. Information on inflation factors is located on the US Department of Labor, Bureau of Labor Statistics website at <http://www.bls.gov/cpi>. The specific series used for calculating inflation in the ALCP is, "All Urban Consumers (Current Series), West Region All Items, 1982-84=100 - CUUR0400SA0." Since program inflation has been temporarily eliminated, lead agencies may inflate previous project expenditures consistent with the table below. If program inflation is restored, lead agencies may inflate previous project expenditures to current year dollars in accordance with the approved ALCP Policies and Procedures. To inflate expenditures, lead agencies should apply the appropriate multiplier listed in the tables below.
